My Review: Monsters vs. Kittens is a fun book every child will love to read. They are different but some similarities.

Kittens are clean while monsters are messy. While kittens like to eat fish monsters like to eat cheeseburgers....so the book says...LOL! You would think because monsters are big they wouldn't be afraid of anything – wrong, they are afraid of mice, but kittens like mice. But wait monsters and kittens do have something in common. They like to climb trees, they are both warm and cuddly and love to lie in the sun and much more. The book is also a great way to introduce children to comparing and contrasting. The illustrations are very colorful and bold which helps bring the story to life. A great read for a classroom setting.

FTC Disclosure: I received a review copy of this book from Stan Lee's Kids Universe in exchange for a fair and honest review. I was not monetarily compensated for my opinion in any way.

Connie says

I won this book! Yeah!!

My husband gets to keep it, since he loves Stan Lee and it IS signed. He enjoyed it.

My eleven year old daughter thought it was a good and cute book.

I thought it was very good! I enjoyed the pictures and thought the storyline was good. It shows how two animals or even people, can be almost total opposites and still have things in common.

Thanks for the book!

Patrick says

Tayler K says

I forgot to review this when I got home last night!

I was a little worried about how it would go, but the kittens and monsters are not fighting each other--rather, the "vs" refers to comparisons between monsters and kittens. This was a cute story with really great illustrations.

Shannon says

Hey, look, it's my sister! (i.e., Dani Jones, the author, is my sister. Not the monster.) Proud of her. But in all seriousness, this is a cute book and you should read it.

Lori says

Great for comparing and contrasting. Have read it to my preschool-age grandsons MANY times. :0)

Lisa says

Jenny says

GREAT!

Carol says

Monsters and kittens are so completely different, right? "Monsters are big, kittens are small". "Kittens like to eat tuna fish, monsters like to eat..." You'll have to read the book to find out what they like to eat, I'm not going to ruin it for you. Despite their differences monsters and kittens actually have a few things in common as well; "they nap all day and play all night". The cute and colorful illustrations are large and appealing to small children. The story is fun for a short read-aloud.
