The Space Beyond Kristie Cook

As members of the Phoenix, Jeric and Leni are thrust into their new lives, expected to lead Earth's Guardians. But Leni struggles with trusting her own soul, and Jeric is more concerned about keeping Leni safe than meeting others' demands. When Darkness swarms Lake Haven, they embark on their first mission with little preparation and no idea which soul the Dark hunts.

Born and raised in Lake Haven, Bex hopes to escape her small-town life, ideally in the arms of her soul mate. She knows he exists, and her heart aches with the need to find him. When her long-lost mama calls to announce she's knockin' on death's door, Bex reluctantly makes the trip to see the uncaring bitch (bless her heart), only to be knocked off her feet by the sexy and charming Dr. Mason Hayes. Is he really The One?

Leni's soul felt an instant connection to Bex, but if Bex found her soul mate, she isn't their mission. So who is, and why does Leni instinctively feel drawn to her? Can Leni even trust her intuition? And will Jeric step up and lead when the time comes or continue to hold them back?

If they don't learn to trust themselves and each other quickly, Darkness will claim them all...along with the rest of Earth's souls.

I was given a copy of this book in exchange for my honest opinion.

The Space Beyond is the second book in Kristie Cook's new adult, paranormal trilogy, The Book of Phoenix. The final book, The Space Within is scheduled to be released on July 14th, so no long wait to find out how it all ends. This is a very good thing since The Space Beyond ends with a cliffhanger.

In The Space Beyond, we continue to follow Leni and Jeric, Twin Flames and Guardians of Earth's souls. I love Leni and Jeric. Their relationship is so sweet and passionate. We get to know a little about Asia and Brock, but not very much. There's something strange with these two. I don't know what yet, but something is going on there, and I'm very interested to find out what. We also get a couple of new characters: Bex, who we get to know really well in this book, and Nathayden, who remains a mystery for most of the book. There's more I could say here, but I'll leave it alone so I don't spoil things for anyone.

I really enjoyed this book. For me, it wasn't quite as good as the first book, but that could be due to the darker story line of the sad and very serious subject of domestic violence. I felt it was written well and believable. It is hard for someone who has never been a victim to understand how a person can get into this kind of situation. We may question how things can be overlooked and/or how the victim goes back time and time again. I believe until you walk a mile in that person's shoes, you can never fully understand how it came about or the strength and support it takes to get out of it. I hope that we will all be helpers instead of judges.

I would have liked to have gotten a few more answers than this book gave, which is the reason for my rating of 4. Overall, I enjoyed it very much and can't wait to read the final book in a couple of months. I have so many questions that I can't wait to have answered. I know I will miss living in this world when the series comes to an end.

3.5 Soulmates Stars

"Together, our souls as one, is how we're meant to be."

At the beginning they were one. And they were happy. But darkness was envious of them and Enyxa, a dark entity, swept down and tore their souls in the middle and she scattered them between worlds. Since then, these souls are always looking for their other half to complete them. But darkness is always lurking to prevent them from unite once again...

In the previous book, **Leni and Jeric** managed to thwart the minions of Enyxa and overcome prejudices and physical limitations and they reunited their souls. Now, safe inside the Gate, they realise that their struggles

are far from over. They might not feel comfortable in their new powers but apparently they are the leaders that have to fight and save everyone else. With another Twin Flame, Guardian couple, **Brock and Asia** (seriously, what is wrong with them?? why are they so distant and cold?) they return to search for **Rebethanna** because her other half, **Nathayden** left an urgent message....

SAVE HER

And that is just a part of our story...

For the next part, Bex a twenty something waitress is desperately looking for The One. She is physically and mentally exhausted, troubled and in despair. Daughter of a drug addicted mother that is dying, handling 3 jobs to pay the bills and in a string of bad decisions she has to choose between 2 men. Ty, her first love that left her to join the army, but now he is back and determined to win her and Mason, the sexy doctor that she can't get out of her head. What she doesn't realise is that her soul is hanging from a thread and one wrong step will doom her forever in darkness.

Everything comes together and the fight continues right until the breathtaking finale that had me staring in disbelief. I liked the book, even though the constant second-guessing and doubts annoyed me. This book also deals with a couple of tough issues, like addiction and violence and Kristie Cook handles them with care and respect, the victims of both deserve. Finally, as a sucker for romance I can't help but fall in love with the idea that we all have The One, Beyond or Between, waiting for us. And I think I have found mine...

In addition to being a thrilling paranormal romance, The Space Beyond story tackles real-life issues of domestic violence and substance abuse in a heartfelt and realistic manner. This story took me through the entire realm of emotions. I laughed out loud, cried tears of heartbreak, and forgot to breathe with the raw emotions and suspense. Really a brilliantly written book. Please, if you're comfortable doing so, share this story with the world. It deserves to be read.

The Space Beyond is the 2nd book in Kristie Cook's Book of Phoenix series. In usual Kristie Cook fashion, she did not disappoint. She actually outdid herself! This book left me, quite literally, breathless!

We're already familiar with Leni and Jeric from The Space Between (Book One of the Book of Phoenix) but then we also get to know some other people like Bex, Brock, Asia, and Mason. The romance is smokin' hot but there are also some delicate issues that Kristie tackles in this book that are definitely not for the faint of

heart. As always, Kristie writes about these types of issues with grace and she's done an absolutely beautiful job. My exact words when I finished the last sentence of this book were "HOLY SH*T!" and I sat there stunned for several long moments!

The Space Beyond is HIGHLY recommended and I give this 5 HEARTS!! I am so excited for everyone to get their hands on this book and I am very impatiently awaiting the release of The Space Within (Book Three in the Book of Phoenix) in July!

Jeric and Leni's journey continues in the second installment of The Book of the Phoenix.

Jeric and Leni have a lot to learn. They are living in the mansion, and taking turns with Asia and Brock to guard the gate. Practicing their fighting skills, something happens at the gate that takes them by surprise...which leads them to their first mission.

Is Bex their mission? Leni feels a strong connection to her, but isn't quite sure why. She is told to go with her instinct, and the others will follow, but how can they when she is unsure herself? Leni keeps searching in the Book of Phoenix for answers.

The Space Beyond revolves around Bethany, aka Bex. We learn a lot about her past, and her struggles through life at such a young age, it's enough to make anyone go dark.

This second installment still holds a lot of mystery. Which makes it fantastic because there is still so much to learn. The story picks up the pace fast, and never stops. The whole plot is completely brilliant and creative, and you can't help but get lost in the world that Kristie has created. It has those hot and steamy moments that builds the warmth inside, however is not in any way limiting the excitement of the action and climax. Certain moments, wow, leaves your heart hurting and puts you on that emotional roller coaster.

This series is a must read. You can't help falling for all the characters. The writing is smooth, and I was easily thrown into the story with the visual popping in front of my eyes with the descriptive writing....the actual words just disappeared.

You MUST read this one!!

The Space Beyond is the second book in 'The Book of Phoenix' series and gives us a much different story this time around. In book one, we had met Jeric & Leni as they find out that their souls are connected in a big way and they will always share that connection & always have. It's through 'the book of Phoenix' that they are able to remember some of their past lives with each other and what they fight for. Now that things have settled with their transformation into Guardians, they try to remember more from their lives in an attempt to unlock any possible powers/gifts to further their strength as guardians and in doing so, come across another

pairing that could be important to the group – Rebethannah & Nathayden – but something isn't right with them and with no other clues, they have to go where they're needed and that is back to Lake Haven where the Darkness is amassing.

In Lake Haven, Bethany/Bex remembers Leni & Jeric (which is unusual) and Leni is sure this Bex is Rebethannah, she feels the connection and the Darkness is hanging around... but does Bex feel the connection too and does she feel the pull of a soul mate? Bex is at risk of succumbing to the dark with her early years being so troubled, her mother currently dying of the consequences of the lifestyle she led and the cost of that lying solely on Bex's shoulder but she has two men willing to be her 'knight in shining armour', the problem is which of the two is 'the one'?

Leni knows that she has things to learn but the biggest thing is to believe in herself..... can she do that in time to save Bex and reunite another pair of twin flames to help in the fight against the 'Darkness'.

I really enjoyed this sequel and as I said, it had a different feel to book one because in this it wasn't all boy meets girl, they clash, realise they're soul mates, evade the bad guys, connect and live happily ever after....there are real issues here, very serious issues that are addressed and made this journey a very emotional one. Bex is a girl all too familiar – dragged up by a mother hooked on drugs/alcohol, forced to become the caregiver to her sister who was only a year younger only to be abandoned by her mother at age 8 into the care of her Grandmother where her life did get better, but only slightly. Her life is hard, living in a trailer, working 3 jobs to pay for her mothers' care even though it goes against all of her principles to give the woman anything – so she is definitely ripe for the picking when Darkness descends upon Lake Haven and it's easy to see how she would fall for two men that would promise her the world because she wants 'the one', she believes in soul mates but is disillusioned with life. For all that she is down on her luck & had a rough upbringing, she is still a fun character with a great attitude and you can see what type of girl she could be shine through now and again giving us a glimpse of the Bex that could be. It was a surprise to see that Bex was back in Leni & Jeric's lives following their 'misunderstanding' in book one but it was great to be back in a familiar place and was a great way for Leni & Jeric to start believing in themselves and their capabilities. I liked that even though most of the focus was on Bex, that we still got quite a bit from those two aswell, seeing the problems and progress they're making in their new position as guardians. There were still some hot moments between them were we could feel their love shining through too. The focus of this book is obviously on Bex and what she goes through, not so much the romance this time around as her drama more than makes up a big part of the storyline, yes she does get some sweetness but she also gets a lot thrown at her too and as a reader, I totally went through that with her – so be prepared for a rollercoaster ride of emotions. It's hard to give away the slightest thing when it comes to her 'soul mate' because as I mentioned – there is more than one vying for that spot – plus when you have the background of Rebethannah & Nathayden, you will understand how that will interfere with the present but I will say that it was different to book one in a big way and it opens up the world a bit more, it also brings 'the book of phoenix' back into the light and we learn a few new things about a special group of guardians that Leni & Jeric must learn to lead. I thought the issues that were dealt with throughout were handled very well and created a very emotionally charged finale that will leave you both devastated and hopeful, connecting to Bex on another level..... but also leading to a cliffhanger that will be felt by all and leave you desperate for book three.

AnnMarie says

This is definitely not your normal run of the mill paranormal story. It's deep, it's meaningful, it really gets you thinking about life after death, and about soul mates. It also broaches the subject of domestic violence, and substance abuse, all within an amazing story that will keep you hooked from beginning to end. Speaking of ends, what a cliff hanger!!! I can't believe I have to wait until July to find out what happens next! The whole Book of Phoenix series is amazing and I have no idea where author Kristie Cook gets her ideas! As long as she keeps getting them, and writing amazing books, I will always be a fan and recommend her

books!

My review:

Kristie has done it again! I have loved all her published books and she keeps surprising me. Whenever I think I've seen it all, she truly takes the story to the next level.

When the first book in The Book of Phoenix series, The Space Between, came out, I was excited and I really waited for this one, for The Space Beyond. It's well-written, heart-wrenching, thrilling, captivating and has great developed characters.

Plot:

The Space Beyond takes off from where the first book ended.

Jeric and Leni have still a lot to learn about what it means to be the Guardians and there are so many unanswered questions. The Book doesn't give any obvious answers to them and neither do their guides. It comes out, that Leni and Jeric are to lead the Guardians and the Phoenix, but Leni is insecure and Jeric doesn't really want to lead others. He just wants to be with Leni and make her happy.

When Leni and Jeric go back to the place they have once visited, Lake Haven, they meet with Bex, Ty and Dr. Mason Hayes. Leni has doubts if Bex is the one the Guardians are supposed to protect, but there are signs which refer to that. What is even more complicated is the process of finding out who is her other half, her Twin Flame.

What I loved about the book:

I loved the beginning of the story, the way the author refers back to the first book to fresh up the readers memory.

I loved the serious topics Kristie handles with care. There are emotional parts in this books which are very hard to read. It's not because of the writing, but it's because it deals with domestic abuse.

I loved how the author doesn't give everything away right from the beginning, so I kept guessing about the Twin Flames and generally, about how the story will end. I love surprises and that the plot wasn't obvious. It was well composed. And trust me, there's a lot of that!

I think different points of views from different characters were well-written. Every POV was recognizable and had its own voice.

I enjoyed the writing style, the descriptions of the places, feelings, emotions and people were very good. The author made you feel pain, love, anger.. it was again the true art of writing which Kristie seems capable of delivering every single time she writes something. She is one of the authors whose writing I call art! She doesn't just tell you, she shows you!

I loved the ending of the book. I did not see that coming! Kristie masters the art of cliffhangers, so be warned!

I loved the characters!

Characters:

Bex was my favorite! Her point of view (there are several of them) was the most significant of them and most fun to read. Bex is a girl you will love. She didn't have much of a childhood and she had to learn from very early years, how to take care of her sister, so she was hard working fun having woman. Work hard, party hard! When taking care of her younger sister and having three jobs to manage everything, she had forgotten about herself. She needed to love and to be loved, she was desperate for it and that made her making some mistakes, especially with men. I loved seeing her grow, becoming more self aware and getting higher self esteem.

I loved that Jeric had his hearing back and that he was slightly confused by all the emotions created by the sounds around him. I enjoyed, that Jeric didn't like the idea of leading somebody. It's very him, wanting to protect Leni more than anything.

Brock and Asia. You meet them very briefly in the first book, but here in the second book, they have an important role to play. I kept wondering about Asia's and Brock's relationship because it wasn't the typical Twin Flame love. The author left quite few questions open for the reader to guess. Asia was fierce, stubborn and easily lovable. I can't give much away about Asia and Brock without giving away spoilers, but trust me when I'm saying, that there are scenes in the book where you want to applaud for Asia!

You will meet two interesting male characters in the book and both of them had an interest in Bex. Tyson is a local guy, coming back from the military. He is hoping to win back Bex's heart. Mason wants to take Bex with a storm and he is quite convincing.

Generally:

Reading The Space Beyond is an exciting ride to take! The author captured you from the first chapter and keeps you literally in her hands until you have turned the last page of the book! I can't wait to read the last and third book of the series! I highly recommend it!

HOLYY CRAP!

Kristie Cook has done it again. The Space Beyond is a great second part to The Space Between. The journey with Leni and Jeric continues with new characters Brock and Asia and also Bex. The pace gets faster and the book gets more exciting with every page you turn. This book also brings in real life issues into the supernatural world and Kristie has wrote them amazingly. The third part can not come quick enough, which is out in July, I can't wait to continue the story of some of my favourite characters ever. This is definitely a 5 star must read. Kristie you never fail to amaze me well done.

If you haven't read any of Kristie's books you must starting with The Soul Savers Series first book promise.

The Space Beyond is out May 19th so go pre-order now.

Char says

I do not even know where to begin with this review. Have you ever read a book that gave you what is

referred to as a “book hangover”? A book that stayed with you long after you have finished reading it, weighing on your thoughts for days! This is what Kristie Cook does to me, don't get me wrong it is not a bad thing at all. If you have not read book one The Space Between, I highly recommend that you read it first. It will help to understand this book better.

The Space Beyond picks up pretty much where we left Lani and Jeric in The Space Between. They are learning more about what it means to be a twin flame again and what their mission is in helping others find their other half, soul mate or twin flame. But they have to find out more of who they are or should I say have been in their past lives, all of this will help them to become who they really are and what they are capable of doing. Part of being a twin flame and living multiple lives trying to reunite again as one they remember little bits of their old lives and the people they knew before. When a soul is reborn into a new body they still keep the soul that was them in all of their past lives. Their souls are recognized by one another, but it is more like a feeling of déjà vu. But by remembering memories they learn to recognize the soul thus remembering more of who they are.

There is a mix of paranormal and spiritual beings in this story, also some real life situations. This story had me on an emotional rollercoaster, part of the story could have been my life. I felt the emotions and the physical feelings of one of the characters, not something too many books I have read have ever accomplished. To many some parts may be too much to bear, but they are real life situations. These parts can help to bring awareness to those that maybe a witness and do not even realize it. You can be the help that someone so desperately needs. I feel this story is more than fiction, it can be an eye opener to many readers.

Sue M. Van says

In this sequel to The Space Between, The Book of Phoenix series, we find our lovers embarking on their first mission to save a soul in danger of going dark. Leni and Jeric have no idea who the Darkness is after and finding the person before it is too late is harder than Leni and Jeric ever imagined. This story is a roller coaster ride for the reader and you should be warned of serious violence in the story. Can Leni and Jeric reach their target in time to save her from the darkness? Only way to know is to read this book.

Josephine Militello says

An emotional roller coaster with many twists and turns that will leave you with the wow factor. Kristie is an amazing writer who delivers this new installment with a darker edge than book one. Real issues such as domestic violence are written about so well that they provoke emotions while reading. However counterbalanced with the thought process of making the reader question what the true definition of soul mate is and how anyone could handle losing them.

I received a copy in exchange for an honest review.

Lisa says

This book blew me away. It was like there was a book within a book. And like the subject of souls mates intertwining and merging , so did the stories within the book. I have always wondered if soul mates actually do exist. Then Kristie Cook brings soul flames into the mix. Soul flames are two souls that were once one whole. What a new and awesome concept! She wrote this book and the previous one in the series, 'The Space Between', in such a convincing and realistic way, that I now feel like soul mates and twin flames actually do exist. Its as if Kristie experiences being a soul flame herself and is now passing on the knowledge.

We begin the book with Jeric and Leni. They are recovering and trying to adjust to this new bizarre world they find themselves in. Not only that, destiny has chosen them as guardian leaders. Neither of them , especially Jeric, feel they are ready to take on this role. They still have so much to learn about being guardian and twin flames. There are still so many unanswered questions when they are sent on a mission. A mission which is unclear. Basically, they are given a puzzle, but all the pieces were scattered across the universe, in way.

Then we move on to Bex. The book within a book, in my eyes. Bex is a character who had a rough life. She is just trying to stay afloat by working three jobs to support her sister and dying mother. A mother who doesn't deserve her support. Bex yearns for love, so when an ex, Ty, who hurt her dearly, walks back into her life, she has to fight old feelings. She doesn't have to fight them off too long because another man walks into her life and sweeps her off her feet. But she is still torn between her past love and her new one. She begins to ponder if soul mates really do exist.

While Bex glows in love, something sinister and evil takes over her world. She didn't see it coming and couldn't ever fathom something this horrific lurked on the earth. Neither could I. O.K., this part of the book was extremely hard for me to read. For many reason, besides the obvious. Bex suffers unbearable pain by the one she loves. The one who she believes to be her soul mate. He is evil, cunning, and a disgrace to humanity. I am still cringing at what he does. The sad thing is, I know there are actually real humans on this earth that are so cruel.

All in all, I loved this book! I love the characters. I love the concept of soul mates and twin flames. It is a very powerful read!

Heather andrews says

I actually focused on the romance aspect of the book (as I do all books) because well I don't have a romantic life and need to live through other peoples, and I have to say one of my favorite couples to live through is Jeric and Leni, I just really loved how passionate Jeric is when it comes to his woman, "the vision of my Twin Flame filled my mind several seconds before her physical self would fill the doorway. I couldn't tell you which was happier to see her - my soul or my di**. Both swelled to greet her." It's also apparent how much Leni has the hots for her man, "she sat on the closed toilet seat, though, and reached behind her for a towel. She stood up to hand it to me, and I couldn't control myself, especially as her sea green gaze raked down my naked body and lingered at my junk. It came to attention with no thought of my own." It's good to see that someone has self control when it's needed (hint it's not Jeric) "they're on their way right now," she said, before turning and sauntering out of the bathroom, her perfect a** swaying as she pulled the door closed behind her. Damn. The girl would be the death of me. Or at least of my di**. It wasn't used to not getting it's way every single time." I hated the ending, I wasn't expecting it to end that way, okay maybe I was just a tad as there is another book coming but Kristie is just always surprising us with these damn cliffhangers.
