The Billionaire's Masquerade

Jeannette Winters

The Billionaire's Masquerade Jeannette Winters

Playboy billionaire, Trent Davis, never wakes up next to the women he takes to bed, and every tabloid in New York City knows it.

Elaine Manning's reputation means everything to her, and she refuses to be his latest conquest. All bets are off when she accepts an once-in-a-lifetime job offer, the only catch being the identity of her boss: Trent Davis.

Unable to separate work and pleasure, the two enter into a secret relationship. Elaine has a bigger secret, one she's been hiding for years, and Trent will do anything to learn the truth, but at what cost?

Karen says

I fell in love with Trent from the beginning. He was the mischief boy growing up, the only boy who didn't fall into the footsteps of everyone else in his family. He had himself so set for success no matter how he had closed himself off to the possibilities. Enter Elaine. Elaine had herself closed off because she didn't know who she was and felt that as long as she didn't know that how could she love someone else. She didn't know how to love because she didn't know why she was given away. Trent and Elaine clashed from the beginning....his walls meeting her walls until the unthinkable happened...Trent thought what if and Elaine thought maybe. While Trent tried to show her he cared for her by different things he did and said and taking her to meet the family without actually saying he wanted her to meet the family. Elaine was so focused on keeping her reputation clean she wanted NO ONE to know of the feelings she had for Trent let alone what they were doing between the sheets. Things blow up in their faces then they both realize what they are going to loose and they both together take down their walls. I am looking forward to book 3 so we can still get a glimpse of these two.

Lisa Pate says

Great read

Elaine is a smart 34 year old woman who is troubled by her past or lack there of. She grew up in the foster system and has spent most of her adult life searching for her parents and answers with no success. She has kept to herself in keeping to herself and not allowing herself to get close to anyone; that is until she accepts a job from billionaire Trent and his three friends. She is attached to Trent but she doesn't want a relationship and she doesn't want anyone knowing they are seeing one another.

Trent has never met anyone like Elaine. She beautiful, and smart. For the first time someone doesn't want a commitment from him and he's not sure what to think about that

It is a story and how she finds out about her past and how he helps her was worth the read

Tina Brimlow says

I said it before and I will say it again O-M-G. I swear reading The Billionaire's Masquerade you would think Jeannette would have 20 books already released. But no this is her second book. Now I loved her first book The Billionaire's Secret but this one just left the first on in it's dust. Once you begin to read it you are just more then captivated by the story, you live it. You begin to imagine yourself as the character in the story.

Elaine - Growing up never knowing her family I think made her a strong person. I think I would have done the same as she did in searching for where I was from and who my family was. I loved how she tried to avoid Trent but ended up getting together with him. They make a deal on where no one would know they are dating. He even tried to help her find her family, of course not the way he should have done it. Can they survive what happens? Read the book. I am sooooo not giving this away.

Trent - Look ladies he is MINE that is M-I-N-E MINE....Oh my blood roared throughout reading this book. Trent is sure a force to be reckon with. When he went for something he got it. And he wanted Elaine. Of course he never wanted that whole relationship. But those two were built for each other. Being the one who likes control he sure lost it. Will he get it back? READ THE BOOL, trust me you will love it.

Jeannette is an amazing author. I can not wait till her 3rd book for the Netting On You Series comes out.

Donna says

This is the second book in the Betting on You Series. In this book it follows Billionaire Trent Davis and Elaine Manning.

Meet Playboy billionaire, Trent Davis. Trent makes it know that he will never wake up next to the women he takes to bed. Especially when it hits every tabloid in New York City.

Then arrives Elaine Manning whose reputation means everything to her. Elaine refuses to be Trent's latest conquest. Are all bets are off when she accepts a massive once-in-a-lifetime job offer, there is only one problem and that the only catch being the identity of her boss: Trent Davis.

With Trent and Elaine unable to separate work and pleasure. Both of them enter into a secret relationship. But Elaine has a bigger secret and it's one she's been hiding for a very long time. Trent will do anything to learn the truth about Elaine, but at what cost?

Can Trent and Elaine work through their issues for their happily ever after?

I love how Jeannette Winters writes to help break the stigma of the rich and the poor in different worlds.

There should be an option for more than 5 stars as i would definitely give her more but have to settle for 5

Kristy Dean says

Very good story

This was book 2 in the series. I loved it as much as I loved book one. Then stories are very well developed and you can connect to the characters. This is a series were I could read the books over and over. This is a full standalone book in a good series.

Overview. Elaine has worked with a nonprofit company since she left college. In the process, she has caught the attention of Trent Davis. One of the top ten bachelors of NY. He is a player and well known businessman. Business, pleasure, and no commitments. But something is different when Trent met her at Jon's office for a business meeting. So when friends of TAKE ONE (Jon,Trent,Drew,Ross) decide that they need a new person to complete their charity work, Trent decided Elaine would be their go to girl and his next fling. That is until he see/feels the connection. He wants more, while she wants to keep it quiet. She doesn't want the next public notch on his belt or rune her job by sleeping with the boss.

Kerry Richardson says

This a 2.5? read for me. I quite like the story and characters but I find that the book was really drawn out with a lot of pointless dialogue and there were several grammatical errors in this particular book. I hope the next instalment will be better.

Jean says

Good book

This is the second in the series and while it is a stand alone it is best to read in order. I cannot say that the book held me in it's grips but it was an overall good book. It did have a lot of sex in it like book 1 so please keep that in mind when considering this series.

J.R. Washington says

Good read

This was a good book. I definitely am continuing the series. The author preps you for the next and includes the last. I like that I was able to see the progression of the prior characters. I wasn't left in the dark. It wasn't as predictable as the first one. So that's always exciting.

Sharon Rudolph says

This was a good book with good characters, but I preferred the first book over this one. I love a woman who makes the man fight for her, not give in all the time and that is what Elaine did. She never made Trent fight for her, she always gave in and blamed herself. Good book, but not my favorite.

Shy says

As this is Jeannette's second book, I'd say it was a huge evolution from the first one. I loved how she had woven Elaine and Trent's story. Also, I could feel their emotions better that I dd with Jon and Lizette's story. The title Billionaire's Masquerade was very appropriate, too and I like how that played into strengthening the intimacy and romance of the two characters. The conflict was also well played. I almost got carried away with the emotions running through Lizette when she went through it.

I am looking forward to seeing the other characters grow along with the author's craft.

Cynthia Gallaher says

Keeps on getting better.

Loved the 2nd book in the series. The 6 different locations are interesting in how they fit into the Plot. Miss Winters does not write a story with a typical ending. But it is a HEA that has a great lesson learned.

Diane West says

The Billionaire's Masquerade: Betting On You Series: Book 2

I enjoyed reading this book and give it 5 stars because it was a delightful book to read it also shows you that money can't buy you happiness.

Mayas says

You can try to give a woman everything but the one thing she desires was not in your plans until in the end it is all you saw yourself wanting.

That was Trent when he came across the spitfire name Elaine. Not only was she smart with a dedicated heart of passion and given but she was lost in a pass with no wind in sight. Trent found the end as well as their ending until deep thought and understanding won over her heart. I guess being secret or keeping up the masquerade is not the way to go and some secrets are to be told.

I enjoyed this story of not keeping a promise because your heart want more. The more hands in the jar the better the outcome of finding results. Family is not blood it's comfort and support.

Janna says

Jeannette Winters - The Billionaire's Masquerade: Betting On You Series: Book 2

Background: Four College friends life changed when their college friend Brad died in an accident 5 years ago. Trent, Jon, Drew and Ross found out that Brad was not as interested in making money as they were, he wanted to help those in need and had a vision on how it "Takes One" to make a difference.

Playboy billionaire, Trent Davis, is known to be a "player" and he has no intentions of changing. He is happy just the way things are. We met Elaine Manning in book 1. She is Lizette Burke's boss. She was orphaned and raised in foster care. She can only trust herself and at 34, she has worked her way up to the head of a not-for-profit agency that helps people in the community. Her reputation is important. Just one wrong move and she will not be trusted in her industry and lose everything. When the 4 billionaires offer her a once-in-a-lifetime opportunity to take "Takes One" globally, she accepts. She will be working with Trent Davis and refuses to be his latest conquest. When Elaine and Trent's attraction grows and they cannot deny each other any longer, they enter into a Secret Relationship.

Bette Hansen says

Another great read in the series! Commitment phobe Trent Davis doesn't know what hit him once Elaine Manning blows into his life. Never has he had to work to get a woman's attention but Elaine is proving to be different from every other woman he's known. Catching her is one thing, keeping her is quite another! I definitely recommend this one.
