The Goodbye Man Ashleigh Giannoccaro , Mary E. Palmerin
Dysfunctional empires were made to fall.

I am Caesar. Broken and conflicted. I am a man who gives false goodness to those who crave it. I provide solace to the ones who beg to be saved, giving them the goodbyes they want. But, my quiet little world is about to be shattered by the whispers from heaven and hell.

I am Mateo. Unlovable and unworthy. I am the boy everyone runs from. I keep love close to me in little jars of perfection, reminding me of a thousand goodbyes I never had to say, because I left them before they could leave me.

I am Svetlana. Dirty and Used. Birthed into brutality while still trying to comprehend my version of normal. I am an injured lamb, eaten by filthy wolves day after day. Just as salvation seems like it's within reach, a goodbye from this awful world is all that I wish for.

Physical and emotional abuse is also apparent throughout this book with graphic sex scenes, both consensual and non-sensual. Reader discretion is highly advised. It's been 2 days and I can't wipe this off from my mind therefore I decided to add a star to my rate.

This is SO NOT the usual dark read.

It is MUCH much more darker than my friends and I normally read.
Like

Taboo is taboo right? There is no such thing as extremely taboo, I think...
Still, I want to say that this is extremely taboo.
I am not talking about the usual step brother forbidden story. BTW, this is the gif on my mind for the step brother's stories we are use to read.

(view spoiler)

Think in not acceptable, forbidden, illegal, illicit and depraved.
Think in creepy and bizarre.

What was holding my full 5th Star? The instalove.
It never seems real to me in a story this kind of insta-obsessive-love. Real?! Are you going mad, Jan? This is not a normal story with normal people.
Well, back to the instalove...Remember I mentioned I can't stop thinking about this? I have been asking myself: Why not? Why couldn't Mateo fall in CRAZY love with Svetlana? He was a psycho! bat shit crazy! scratch that! Everyone was crazy!

So, yes! Instalove accepted.

5 Creepy Crazy Stars!

What a bunch of crazy people!

READ THE DISCLAIMER because it would be unfair if this book gets a bad review because of its content. If you can't handle reading taboo, do not read it.

"Make them feel safe and they will sign their lives over to you. Love a lonely girl and she will give you anything."

This is the **DARKEST** and most **DISTURBING** book I have read to date. The Goodbye Man and his nephew gather people from the streets that wish to die and harvest their organs in the Red Market organ trade. These two disturbed men take in a born whore, Svetlana, and things get even sicker as they both develop feelings for her. There is rape, murder, sex with the dead, and ohh so many things that will have me sleeping with a night light for days to come.

Still, I kept reading because well, it was a very well written captivating sick story. I'm thrilled that I'm heading to Disney World this Friday with my family because it's going to take a lot of rides on the Small World ride to undo flashes of this story in my mind.

"Love me and I will stay forever. It's only real if I can feel it."

This book does indeed end with cliffhanger and damn it I'll probably one click because these authors delivered a sick enough story that I'm still intrigued to find out more.

"This is as close to hell as you can get without dying."

TITLE: The Goodbye Man

SERIES: (Red Market, #1)

AUTHOR: A. Giannoccaro

GENRE: Dark

RELEASE DATE: August 7th 2015

MY RATING: 5 SICK & TWISTED STARS

So throughout I was sitting there reading this and thinking OMG these authors are sick 0800 THERAPY ASAP but then I kind of got really into this sick and twisted storyline..LOL!! Yes I am KAT and I am as sick and twisted as these two authors and all the other readers who ended up loving this as much as I did!!

Trying to add to my review and not give any key points of the story away is impossible so I suggest you go one clicking BUT heed that warning because this is NOT a love story..

****Graphic content warning**** including detailed depiction of brutal, bloody acts. Physical and emotional abuse is also apparent throughout this book with graphic sex scenes, both consensual and non-sensual. Reader discretion is highly advised. Not suitable for readers under the age of eighteen or those who are easily offended by the above mentioned acts. this story is an emotional mind-fuck that will have you questioning all your morals and your ideas of normal.

I tried reading this a few months back but struggled to get into it, but made a promise to myself that I would come back to it and that dark day has arrived, I'm only a few pages in naively eating breakfast whilst reading this and I just about puked in my mouth!! GAH!! Dry, finger f*ucked, blood and gore running down her legs, then told to lick his fingers clean (puke in the mouth) shudders!!

“He sticks his blood covered fingers into my mouth while ramming his dick inside of me” ~ Svetlana.

There's grey books, dark books, but this book is black, black as the night is dark, comparing to past reads that I thought were dark don't hold a candle to this book..This is as black as I have gone..There is no light bright enough to shine it's light on this book..

WELCOME TO THE DARKSIDE

I love dark, gritty, stomach curdling, mind fuck reads so I'm keen to see how dark this can actually push me..NOTHING has touched on black before like this book..

BE VERY AFRAID

I've not read or come across this author before but wanting to take a walk on the dark side needed me to see how dark this author would push me out of my comfort zone..

My comfort zone is non existant it's been kicked to the curb and stomped on!!

I'm guessing this book isn't about kittens and puppy dogs and all those cuddly things that melt your heart or unicorns farting out glitter this is one sick as f*ck book..

This book is like coming across a car wreck as you drive past you try really hard not to look but like reading this book no matter how sick it is and your completely out of your comfort zone you just keep reading..

4 stars!!

“This place is as close to hell as you can get without dying.”

When someone dares you to read a book you just have to...I mean I am no chicken when it comes to reading. I have certain genres that I just cannot read because they bore me to tears but dark is not one of them. There is something about reading a book that takes you out of your comfort zone, you get all those new sensations of dread, queasiness and that OMG does that really happen????

This book is disturbingly disgusting, it should have shocked me so much that I gave up but I found myself addicted, intrigued and compelled to finish, I couldn't put it down. I found that because I was consumed by the story the actual acts that were happening didn't really affect me as much as I thought they would. Yes they were horrible to read about, yes they churned my stomach, but I was so riveted to what I was reading I just pushed on regardless.

“Tears fall from my eyes as I come to the conclusion that this disorder is both disastrous and stunning. Chaotic and profound. Beautiful and decrepit.”

Underneath all this dark and disturbing, believe it or not there is a love story somewhere...three broken souls that you would think are beyond healing, yet maybe they may be each others salvation in some sick, demented way. Perhaps it takes two people that have gone through the horrors that they have to make sense of each other and understand each other, I don't know, I'm no expert, but I found myself hoping that somehow something could be done for these characters, especially Svetlana. Caesar and Mateo were their own worst enemies, in their own convoluted way they thought that what they were doing was actually saving people from a fate worse than death and in a way I agree with them, but I still couldn't have done what they did, but in their minds, they were helping.

“This isn't supposed to happen to me. I don't get attached to beating hearts.”

Please heed the warnings with regards to this book, think of any vile act and it is in here in some form or another, not limited to rape, child abuse, necrophilia, incest, drugs, organ trafficking, in fact there were so many taboo areas that I found that the more I read the less shocked I became.

“Cut my flesh, make me bleed. Give me the man that makes me burn with need.”

The trouble is though, I am sure that these things do happen in the real world and that is what saddens me the most, This book peels back those layers of misconceptions, that even behind the most inconspicuous of doors maybe just maybe something heinous is going on behind it. It may just look like an industrial building, with a perceived legitimate enterprise, but what is really happening? This book makes you ask yourself a lot of questions. I finished this book yesterday and I am still thinking about it, I just cannot get these characters out of my head.

“Kill them with kindness, slay them with a smile and murder them with a kiss.”

My heart was truly broken for Svetlana, from a little child and since the death of her mother she has known nothing but brutality, starvation and poverty, all she wanted was to be loved, cared for and wanted, not much for a child to want bearing in mind the expectation of kids today. It takes the kindness of a stranger to save her from near death, but is she just being taken from one dark, disgusting mess to another?

“You’d think that after five years of being in these situations, I could travel far away to a place where I could become detached. Too bad it doesn’t work that way. Every part of my sensory system is magnified by a million. My vision, hearing, taste and lastly, feeling.”

I really cannot go into this story, only to warn you to expect the unexpected. I honestly don’t think this book is for everyone, it is not a pretty read in any respect. It will take you beyond your comfort zone, it may make you physically sick and it will certainly mess with your head, but at the end of the day it was well written and disturbingly addictive reading. I did have a few issues with it though, it does need a proofread, there were quite a few errors but they didn’t detract from my “enjoyment” of the book. I really don’t think “enjoyment” is to be read in the same context with regards to this book. My other issue was some scenes were repeated in three different POV’s. This did become extremely repetitive especially when the same things were happening more or less verbatim.

So in summary, if you want to push your boundaries and your limits, you have the constitution of an ox and you like the dark and depraved, then this is the book for you. Being a romance junkie, I found it a refreshing break from the norm and something that I will not forget. With regards to the end I feel that there is another book coming and I for one will be reading. I need to find out what happens to these characters as sick and twisted as they are they certainly left a lasting impression.

4 'Almost too dark for me' Stars

Oh dear. This is one of those books, I have no idea how to rate. I wouldn't say I enjoyed this one, at all. It was not an easy read, but I have to give the author praise for this original, well-written story line. I also may be a bit scared of her.

"This is as close to hell as you can get without dying."

The Goodbye Man, tells the story of 3 people, and it's probably one of the darkest, nausea-inducing reads I've ever read.

Caesar

If you are on these streets, you are born into the world of the hopeless and you will die in it. If you are lucky, I will get you and you will say your goodbye, and if you are not, someone else will get you first.

Mateo

Life had lied to me. Needing someone is a lie. Real people don't exist. Everyone gets fucked by the world, thrown to hell, put through pain. Death is where it's at Death is beauty. Simple. Forever.

Svetlana

I am nothing more than a pesky cockroach that has learned the ferocious ways of the world. A whore birthed a whore.

Caesar runs a ~~human waste disposal~~ organ harvesting business, all part of The Red Market, along with his nephew, Mateo. They collect random street people, people broken down, disillusioned, people who wish for death - Caesar makes them an offer, death or he can return them to their life.

To save lives I have to take lives first, nothing is free. One life for twenty-five others and a large amount of money for me. It is a fair exchange; no one misses the ones I take. There is never anyone to say goodbye to, just me at the end of their miserable lives.

Now, when young Svetlana finds herself rescued by Caesar, things start to get even more disturbing. Caesar cannot say goodbye to her, and being faced with a truth he has denied for years, the feelings he has for her are destroying him. So he tries to convince Mateo to be with her, to see what it's like to be with a responsive woman, and not a *dead dolly*. With the attention of both men, Svetlana just wants to be loved. I did struggle with this one at times, it felt like a lot going on, and I found myself overwhelmed, more than once. Brutal rape, sex with the comatose, (view spoiler) - it was a lot. I'm still processing, I think. This is a very graphic read, I would suggest anyone considering this one, to **take the author's warning - VERY SERIOUSLY**.

Carissa says

I was first introduced to MP's writing in the Monster series, which I freaking enjoyed. Talk about brutal, uninhibited and grotesque writing. Absolutely superb dramatization of such a story line. So when I saw *The Goodbye Man*, pop up on Goodreads, with the added bonus of a second author's input. I was like 'hell freaking yeah' this can only blow me out of the park. So Ms. AG, I may never have read any of your previous books, but you just got a #1 fan out of me.

The Goodbye Man is a unique story, that encompasses some seriously dark and erotic themes. Rape, murder, suicide, death, gang rape and prostitution, drug abuse, necrophilia and incest. We're given three different characters, all intertwined within the novel. Each twisted and even darker than the other. In this book,

nothing will seem as it is and should be. It will twist you up and drop you hard.

Once upon a time, the little gypsy princess had dreams within the hellacious concrete jungle. But, dreams would soon turn into nightmares and darkness would be the only way she lived. The tarnished, unlovable girl promised herself she wouldn't remember the day she was broken, but like all bad things, it would sidle up as hopelessness snaked its way around her heart, killing her slowly.

Seventeen year old, Svetlana, was born into a life of prostitution. Her mother was a prostitute, pimped out by her father, in order to purchase drugs for his vicious habit. She was safe, as safe as can be, until the day her mother was murdered, and her father turned to her, as his new and fresh body.

Used, day in and day out, raped, beaten, with little to no food, no shelter, except cardboard boxes, or an abandoned apartment. Dirty, physically and metaphorically.

Hope. The one feeling a girl like her could never allow herself to feel. Hope slowly killed her. Hope, made her vulnerable. Hope turned a young child into a sex slave.

All Svetlana wants is love. She wants to feel protected and cherished.

"... Love a lonely girl and she will give you anything."

Caesar is a dealer in spare parts. Spare human parts, that is. His family business is profitable and he uses persons that no one will miss. Healthy organs for a hefty price. He is called The Goodbye Man because the last words anybody hears, is his whispered goodbyes. Caesar suffers from Misophonia - a condition linked to the hatred of sound, in which negative emotions - anger, flight, hatred and disgust- are triggered by specific sounds. Caesar hates whispering especially.

He uses Svetlana's father to bring him persons desperate enough, in their current situations, that they beg him for that final Goodbye. Painless, and final. When he goes to request a body, he comes across a dirty, bloodied and bruised Svetlana. The images and emotions she evokes from Caesar, scare him. He should not feel, he does not feel. But Svetlana is his final Goodbye.

I am Mateo. Unlovable and unworthy. I am the boy everyone runs from. I keep love close to me in little jars of perfection, reminding me of a thousand goodbyes I never had to say, because I left them before they could leave me.

Mateo is Caesar's nephew, his right hand in the spare parts business and a necrophiliac. He keeps all beautiful things, especially locks of hair, in glass jars. He believes he is unworthy of being loved, and so he leaves before anyone can leave him.

When Caesar first brings Svetlana to the warehouse, Mateo is confused, because she isn't a subject for spare parts. Mateo is warned off Svetlana, even though Caesar sees the way Mateo watches and lusts after her. She is living, and he shouldn't have feelings for the living.

As the story progresses, secrets are revealed, incest becomes abundant, and suicide is imminent. The darkness never stops and the euphoric feeling of salvation becomes a dream shattered by reality.

"This is as close to hell as you can get without dying."

There are some confusing moments for the reader, as each character recants the same scenes. Which can be difficult to follow. With that said, I overlooked this and continued on with my mouth hanging open.

My thoughts...

Its very hard to review this story without giving the plots away.

What I can tell you is **The Goodbye Man** blew me away....

The writers have created a ~~horror~~ psychological mind blowing tale of 3 broken characters.

Svetlana Just wants to be loved...

Caesar Cannot escape from his quiet world, whispers....

Mateo Keeps his things of beauty locked in glass...

So deeply twisted and disturbing that you find yourself questioning at times what your reading.

But also probably one of the most unique brilliant stories I've read this year.

Totally consuming me.....

I'm a huge fan of the darker side but rarely now do I find a story that isn't the same as I've read before... Its not a story I can recommend unless you are totally with the darker themes and I mean DARKER....

It does end on a cliffhanger but to be honest you would need a break in between books.

4.25 Hate/Love Emotional Read

Soooo...I wasn't going to read this book but my buddies Jahy and Carla raved about how good this book was but it wasn't until I read Jennifer's review that I knew I had to give it a shot.

Normally I can stomach some really sick shit, but this book....shit this book made me cringe so many times in the beginning that at one point, I really thought I would have to shelf it. I trudged on and was surprised how this story twisted into one I could really get into.

I think the biggest thing I have to share with you is how these authors took a character that I absolutely HATED at first (well not so much hated but just thought he was a sick fuck) and by the last 1/4 of the book, I fucking LOVED him and felt for him. I empathized with him, I wanted a happy ever after for him but instead we get a cliffhanger.

I want to stress the trigger warnings because this book delves into soooo many of them ---- but it's not just a book about some fucked up shit - this is a book about a girl who has been dealt the worst life you could think possible and is saved by the very man who has always loved her but didn't know how to show it.

This book will flip between many POV's and I promise there will be times you want to throw your reader against the wall or you will find your mouth hung open with drool dripping out but soldier on and underneath all the fucked up shit going on...you will find a true love story.

You will fall in love with Lettie and your heart will break for her....you will definitely hate Pavel...Ceasar will steal your heart and Mateo will have you second guessing your morals.

Let me love you.

My hats off to these two authors...I'm stunned how they turned my opinions around to a total 360.

4.5 Stars!!

This book was the sh*t. Really! First thing first I want to say this – don't expect hearts and flowers reading this one. This is not a romance. What to expect? To be disturbed. This was one of the darkest book I have ever read. It was gory, sick and more than once it made me cringe. Everyone in this book is fu*ked-up, crazy, sick, you name it. And the worst part is that I really enjoyed this little 'gem'. Now, it goes without saying this book is not for everyone. Not even for all those who love dark romance, because like I mentioned above there's no romance here. IMO, of course.

"The Goodbye Man" was a very unique read. It was like nothing I have ever read. And I have to say, personally I love this aspect in my books. This book left me with my mouth hanging open more times than I can count and kept my attention from start to finish. Needless to say I can wait to read the next installment in the series. Yes, this was not a standalone and unfortunately for me it ended with a cliffhanger. It wasn't so bad, since I expected it, but come on a cliffhanger is a cliffhanger, right?

"People don't tell other people's stories. Not when you are stuck in your own dread, spending forever trying to find a way to trudge out of a normal that is suffocating."

So...the story follows three characters, everyone one of them more fucked-up and damaged than the other. They are flawed, yet fascinating. Svetlana is 17 years old and she's a prostitute since she was 12. Her pimp is her own father and unfortunately for her he doesn't care about this aspect. After all he was the one who took her virginity. Her life is not easy. She's raped and beaten almost every day, sometimes left for dead. She doesn't have a home and she's left every day with little to no food. Svetlana wants one single thing – to be loved, protected and cherished.

"I am not the worst thing that can happen to you, but I will be the last."

Caesar is the *Goodbye Man*. He saves lives, but don't think he's a good man. He's definitely not. To save lives he has to take lives first. No one misses the one he takes. He's called 'The Goodbye Man' because the last words anyone who wants to be 'saved' are his goodbyes. Caesar doesn't have a conscience. He has no problem sleeping at night, he's not conflicted, confused or troubled. He is who he is and he owns it.

“Life had lied to me. Needing someone is a lie. Real people don’t exist. Everyone gets fucked by the world, thrown to hell, put through pain. Death is where it’s at. Death is beauty. Simple. Forever. “

Matteo is Caesar’s nephew. He helps his uncle, he’s his right hand. He’s not a normal person and he knows it, he finds pleasures in the most unconventional ways and he’s dead inside. He believes he’s unworthy of being loved, so he leaves before anyone can leave him. He doesn’t get attached to beating hearts, because he hates life and the emotions that come with life.

When Caesar meets Svetlana...again...he wants to save her, really save her. Everything gets complicated for all three of them when both men start to have some...inappropriate feelings for the young girl.

While the story was dark and disturbing for the most part, I have to say it was addicting. I enjoyed the way the story was written. There are some interesting twists and turns. Some of them I expected, but some of them left me speechless. At times I couldn’t believe what I was reading. I was not kidding when I said everyone in this book is fucked-up. There are many graphic scenes that left me more than disturbed. There is (view spoiler).

This is the perfect read for you if you want something dark&disturbing that will blow your mind, but my advice before you dive in, read the authors’ warning.

Amy says

DNF at 42%.

I'm not giving this a rating because I didn't finish it, but if I were going to then it would get 1 star. Why?

Because it is a bunch of fucked up, disgusting shit.

Reviewers keep stating to "read the warning" and that if you can't handle those types of things then don't read it. Really? Okay, fair enough. The issue I have is that the warning does *not* list what all this book encompasses. It says there are brutal and bloody acts, physical and emotional abuse, and graphic sex of both the consensual and non-consensual sort. Um, that is the *least* of what goes on.

For my friends who were wondering why I was so upset by this book and why it was too dark for even me, let me fill you in a bit.

(view spoiler)

That was absolutely horrid in itself, but I knew it would be rough before I started it so I continued the book. I assumed after that things could only get better from there. Yeah, ass out of you and me and all that shit.

Next, we are introduced to Caesar who (view spoiler)*That* should have been noted in the warning, which it obviously wasn't.

Still, despite all of that, I was willing to continue the book to see where it was all going. At the 42% mark, I thought I had figured out what *might* be going on so I did a quick search of a certain term within the book. I was right. (view spoiler)

What the fuck? No really, what in the actual fuck?!?

That's where I draw the line, and that is what REALLY should have been listed in the warning.

"Oh but Amy, the *fabulous* twist would be ruined with that warning!"

Twist? My ass. It's fucking sick. Warn your readers a bit better.

Di Covey says

5 Goodbye Stars!

"Readers, please note that this tale has graphic depiction of abuse including but not limited to; rape, physical torture, emotional abuse, murder, strong language, sexual degradation and humiliation, unconventional sexual practices, and detailed descriptions of several mental disorders."

If you decide to ride this ride, read the warning first. You have to be a certain kinda twisted to fully appreciate this story. Cover your eyes and look through your fingers, you know you want to.

No spoiler review. Advanced Reading Copy provided in exchange for an honest review.

This is an no holds bar, dark, taboo, twisted story. This isn't dark romance either. The characters are deeply scared, flawed, and completely original. I know you heard this before, but you have never read something like this before. I took this journey knowing that the authors took a chance, they went where the story took them, no matter the consequence. And I loved every bit. I can't help but want the unknown, I stand on the edge, I wanted someone to push my boundaries, these two delivered. Be prepared.

Nothing is easy in real life, the things we don't talk about, right? This book grabs fake and slashes it's throat. Let's get to the nitty gritty that people really do go through. What happens behind closed doors, or in broad day light, what happens in our worst nightmares. Never to say out loud. This is fiction, but it will make you think. Diving into the mind of the mentally unstable, the broken.

After I read this book, I researched the topics, the actual place, and I was shocked, slightly sick, and more intriguing than I had originally thought. The authors left nothing unspoken. They wrote a story that blows dark books out of the water, they went there. They set a bar, one that will be hard to top. Did I enjoy it? Yep, I loved the twistedness I felt in my stomach, the drop of my jaw, and most importantly the dysfunctional thoughts in my mind. This book pushed my morals out the window. Goodbye.

If you like to walk in a dark alley in a mini skirt, grab this, then let it grab you. Hold on and enjoy the fucking ride.

As soon as I read the warning I couldn't resist reading it. However it didn't prepare me for the depths of darkness these two authors would take me to. On several occasions while reading this I couldn't believe what I was reading.

I couldn't believe how much I wanted to devour this warped intense dark read. Does that make me warped??? Maybe it does lol however I read this as the erotic horror fiction that it is.

Have I mentioned the ending? Oh my dayz. Speechless!!!

Please read this warning before you 1-click. If you like the dark warped kinda read then give this a go. Be warned its a twisted read that will push your boundaries for the dark side.

Looking forward to reading more by these two fantastic authors.
