Four shifter siblings with a debt to pay.

300 moons.

A brand new series of standalones from USA Today bestselling author Tasha Black.

Derek Harkness is a billionaire who plays by his own set of rules. By repressing his inner bear, Derek keeps every aspect of his life under his iron control. But now it has been 300 Moons since a spell was put on him that helped him restrain his bear. Derek is finding it harder and harder to focus... Especially when an accident throws him in the path of a curvy stranger.

Hedda Lane is a strong, independent woman, but a single mistake in her past has put her whole life on hold. She is determined not to mess up again by falling in love, especially not with the startlingly gorgeous stranger she meets in the woods on a cold fall evening.

When the you-know-what hits the fan, Derek and Hedda will have to work together if they want to get out of Copper Creek alive.

Now that Derek's 300th moon is upon him, can he restrain the bear inside long enough to make it back to Tarker's Hollow? Or will he give in to his passions and lose his only chance at control?

I loved this book its full of action and emotion that grip you and keep you turning those pages until the end .Derek has always kept a tight rein on his inner bear .He has used it to help him make judgement calls in business but otherwise denying him .Hedda a witch is living alone patrolling and guarding the mountain against evil .She is fine with being alone after the last mistake she made by falling in love she has no intentions of letting it happen again .She doesn't think any man can see the real her past her gifts .When Derek's plane crashes near her home he and Hedda find each other sparks fly .They have to band together and fight for their very lives as they both fall deeper for each other .The spell that was placed on Derek as a child to help him control his inner self is fading and is bear wants out will they come to terms or will one be pushed aside forever.

Different

This is a shifter story but a little different in that it involves young shifter children who are early shifters and too much for their parents to handle so they are shipped off to a lady who loves them and looks out for them like their own mother. When the children arrive they are put under a spell for 300 moons to help them control their animal so they can shift when they want instead of the animal controlling them. This story is about Derek, a bear shifter, who has never truly accepted his bear and how his life changes when his plane crashes and kills the pilot. It's unusual and has an interesting twist to it.

As usual, every time I open a Tasha Black book, I can't put it down until I reach the very last comma. This story is a great continuation of book one, but at the same time it can be read as a stand alone story. The action scenes were awesome, as well as the shifter scenes and the erotic scenes. I had a ball reading this book and I hope that you will as well. If you love bear shifters, awesome paranormal fantasy, incredible erotic scenes and a story that ends really well, this story is for you. But be warned, you will not want to put this down once you started.

This harvest moon is Derek's 300th moon and Kat/e expects him to come home NO excuse. Derek is returning home for his 300th moon when his plane crashes and the pilot is killed. Hedda goes to the crash site and finds Derek. She is on the mountain to protect the mountain and to keep the mime sealed against the moroi demons being released on the world again.

Paranormal galore! Hedda & Derek are totally opposite when you look at their bank accounts but money can't fill an empty heart. Hedda has powerful magic and uses it, Derek has a bear that he denies at every opportunity. Although their have a lot of opposites, they powerfully attract. Derek's denial opens up a dangerous twist which eventually brings them closer together. I felt sorry for Hedda because she carries a burden and is punishing herself with isolation. I felt sorry for Derek too because of his abandonment issues. Sparks fly between these two instantly and they quickly accept their fate and team up to protect each other. I like both of these characters, they have very realistic issues, I enjoyed their story because of that, their adventure, their equality in spite of their differences. I hope to hear more from them in future books in this 300 Moons series.

I've heard this was a good series so thought I'd give out a go. I swear I was on the verge jabbing my eyeballs out. This story makes no sense to me and the excitement factor is a big fat negative. The sexy factor is a giant subzero. I honestly don't care what happens to the bear or the witch. Maybe just maybe one of them meets a horrifically bloody end to hype up the interest for anyone who managed to read through to the end. It was a DNF for me.

Bear Falls Out of the Sky and Meets a Witch

What happens when a bear shifter (who hides his bear) meets a lovely witch in the forest after surviving a plane crash? They protect each other against a shadow demon. They have endured many obstacles trying to reach her cabin. Derek and Hedda slowly fall in love. To find out what happens next, you'll need to read this

book. This is the first book in the series. Great story and characters. I definitely recommend this book. Enjoy!

Derek Harkness had live a very good life due to his bear. He was now a billionaire. Women fall at this feet but only wanted him for one thing and that is for his money.

Derek had a spell put on him when he was a kid. It was to help him control his bear and it will last for 300 moons. Now his time is up and his bear will not be denied. His bear wants out and wants to mate.

Hadda Lane was a witch that was protected the a mine to keep the evil in. She had to be lonely be there all by herself. She has seen an omen letting her know something bad was going to happen.

Hadda probably could not believe there was this hunky man that crashed near her. She could not believe he could be attacked to her. Seems like if there was something going to go wrong it would happen to Derek.

These two have secrets they are keeping from one another and they will have to eventually come clean. There is danger among them and they will have to work together to defeat the danger.

Derek will have to battle with his bear. His bear tells them that Hadda is their mate and if Derek can not make the move then the bear will. Derek will have to learn to work with his bear. Derek will find this difficult.

Great story and glad I got to read the book.

I absolutely freaking LOVE anything by Tasha Black, so when I first heard about a new series Tasha was doing, I jumped at the chance to read it. 'Bait This!' is book 1 in Tahsa's new series "300 Moons", which is connected to Tarker's Hollow. I'm uncertain still, even after reading 'Bait This!' if you should read the previous series from Tasha or not... even though Tasha says it's a stand-alone.

Have you ever wondered what happened to the shifters who shifted to young?? Well one way or another, they would end up in the home & heart of Kate Harkness at Harkness Farms, then sung a magical song of welcome & protection by Gloria Cortez. The children would then grow up loved & learning the value of

family, a continuous process for Kate & Gloria, until the 300th moon arrives. This is the story of Derek's 300th moon since arriving at Harkness Farms.

On a flight home to Harkness Farms in celebration to his 300th Moon, Derek's plane crashes on a Mountain, he's the only survivor. Trying to get service on his phone, Derek happens across a woman whom his bear would do anything to protect.

I was entranced from the first chapter, until the very end of 'Bait This!'... I couldn't stop reading it, I had to find out just what the price of the magic that Gloria used on the shifters when they first arrived. Now I can't wait to read the other shifters 300th moon stories... I can't wait.

Tammy Sowards-Sanchez says

loved it

This book was really good. We meet a witch who is trying to correct a wrong she did. We meet a shifter who has some issues with his bear because he arrived early and made his parents abandon him as a child. He was raised by a loving woman whose friend put a spell on him for 300 moons. What will the requirement be on him? What will happen next? Will they defeat her problem?

Carole says

Loved it! First book I've read by Tasha Black, but it won't be the last. Really enjoyed writing style with quirky characters. The story was amusing with several laugh out loud moments, and it was also romantic at times and characters had an interesting range of magical gifts. Off to read another book in 300 Moons series ASAP...Final Rating: 4.5 Stars

Sarah says

Derek is a business owner and foster child of Kate Harkness and when he flies back home he's in a terrible accident and his shifter bear awakes and saves his life.

Hedda is a witch living on her own trying to protect the world from a demon trapped inside a portals.

Did enjoy the last bit of this book but struggled through start to the point where I was gonna stop.

I think I've read a book in the Harkness family which I really enjoyed. Would love to read about that series
