Dark Wolf Kimber White
Wolf Shifter Romance

A standalone full length romance novel of sexy, shifter werewolves!

Luke Tully has a dark side. He's spent a decade under the control of a powerful, ruthless Alpha who made him do things that would have broken lesser men. Though he found the strength to break free, he knows he can never live under pack rule again. He comes to a far off outpost on Wild Lake lands to see if there's anything left of the good man he knows he once was. But, when he meets Tamryn Kane, she stirs his wolf and long buried passions within him that just might bring out the darkness inside him he's tried so desperately to contain.

Like Luke, Tamryn knows all about life as an outcast. With her Irish roots and flaming red hair, she never quite fits in with her mother's people, the proud Odawa of Oodena, Michigan. What's worse, she's been warned about men like Luke. Her grandfather calls him Wendigo. A demon. But, when Luke's lips brush hers, when his tortured soul calls out to her, she can't turn away. Though their love may be cursed, the pull between them feels like fate.

Can this beauty finally help quell the beast inside of Luke? And when Tamryn learns the truth about Luke's past, can she love him anyway?

Reader's Note: Each book in the Wild Lake Wolves series is a full length, standalone, cliffhanger free, super sexy, werewolf shifter romance. You can read them in any order but the smoking hot events within each happen chronologically. These wolves like it rough! If you're not into that, you might want to sit this one out. However if you like hot, dominant, alpha male werewolf shifters and the kickass heroines who will do anything to please them, then one-click away and enjoy the ride!

From Reader Review Dark Wolf for online ebook

Amy Willis Lloyd says

I can't say enough great things about this book! Luke's kind heart has grown on me since his introduction in Claimed By The Pack. A tortured, lost wolf held captive by his family who kept him away from the rest of his family that he needed. On the verge of permanently losing the man to the beast, The was able to see enough good within himself to stay for Tamryn.

Tamryn may not be a full blooded Native American, but she still embodies their cultures loyalty to their families. Sent away by the only family she had left, she too knew what it was like to feel adrift. She already had strength but she needed love, security, and welcoming understanding. Everything she needed she could find in Luke and his Pack family. She just had to help Luke learn to live in harmony with the beast that lived inside of him so in return, he could give her the family she lost.

A definite 5 star for the emotional carnage this book tore through my heart!

Jennifer says

Great read

This story had me from the beginning. I could put it down, it had me reading into the wee hours of the morning. Wonderful read.

Laure says

Wow, sexy shifter romance! Tamryn Redbird has returned to Oodena after many years. She is determined to care for her elderly grandfather even though he is the one that sent her to live with her father's family. She meets Luke Tully in the woods, in a snowstorm, when she needs help with her unconscience grandfather. Tamryn and Luke belong together, but Luke in particular will fight his attraction to Tamryn because of past events. Tamryn knows that Luke is the man she wants, but her grandfather and the townspeople will try to keep them apart. Fantastic book, I love these characters, this story is sexy and exciting.

I received this ARC free from the suthor in exchange for an honest review.

Runningrabbit says

Kindle Unlimited

This was an enjoyable read with a good background story and a fine end that didn't hit you in the face a third of the way through the book. I liked the heroine and her hero was pretty damn dark, brooding and sexy.

I'm enjoying Kimber White's Wild Lake Wolves series as sexy read with plenty of supporting story well written with a good vocabulary.

I'm definitely on for the next stand alone novel.

Gil says

Highly recommended Paranormal Tale

I love a well-written story, and this one was full of my necessary components. Love and romance, action, and this story additionally threw in mystery and suspense, much to my delight! I had to be patient, at times, wondering when the puzzle keeping the two main protagonists apart was going to finally be solved. Recommended!

Bookbesties says

Still good

While this book, so far was my least favorite, it was still good. This book had the same fight for what's right save the damsel in distress feel as the last, but the fight was more of an inner fight and a lot of inner dialogue. Still good and I am still a fan!

♥? Paulette says

TITLE: Dark Wolf: Book: 2
SERIES: (Wild Lake Wolves)
AUTHOR: Kimber White
GENRE: Romance- shapeshifters
PUBLICATION: January 27th 2016
MY RATING 5 Stars

This is the 2nd book in the Wild Lake Wolves Series, but it couldn't be read as a standalone. I know what the blur says... but for you to fully enjoy this book please read Rogue Alpha Book 1... You'll love it... But if not, your loss...

After reading Rogue Alpha I knew Luke had to have his own book. I knew it would be special, cuz Luke is so special. There are some turn of events that are in Rogue Alpha Book 1, which made me happy I read it

Tamryn Kane: lost her parents when she was eight years of age and had to go live with her grandfather. He was one of the Original Nine to settle Oodena. For some reason unknown to Tamryn why her grandfather had sent her away to live with strangers. There were secrets that Tamryn was not told about her family or the town. Now 10 years later she's back to look after her grandfather who is suffering from dementia.

"What happens to the women of your family when they don't do what they're told?"

Luke Tully: has a dark side & after having lived under his ruthless half-brothers' reign for years, he's defeated and Luke is set free. He finds a place, away from everyone and everything he knows, to see if there's anything left of the good man he once was. When he meets Tamryn Kane, she stirs his wolf like no other but

he still struggles to contain the darkness within him.

This book is filled with suspense, Lies, Twist & turns- Most all loyalty and a Lil romance. I found this story fast paced and an exciting read.

The Wild Lake Wolves Series has been one continuous great read after another looking forwards to more books about these wolves. Keep up the good work Ms. White

Can't for Primal Heat with (Bas)-Sebastian Lanier

Angie Peoples says

I thoroughly enjoyed this werewolf paranormal action packed suspense romance novel. The characters were well developed and the setting was beautifully described. I am looking forward to the rest of this series.

Erin says

I got this book for an honest review.

And I am so happy I got it. I also read the other books in this series, but this is kind of different.

The difference is that Luke is a lone wolf and not a member of a pack anymore. He has a terrible past and struggles to keep into his human form.

Tamryn has her own problems, living alone with her grandfather. Being back after so many years. Not fitting in really well.

Luke helps her with her grandfather one time and from that time she keeps on getting pulled to him.

Logically, because she is his mate.

But Luke is afraid of his own demons and to turn into one he keeps her at a distance.

Tamryn is a strong woman and doesn't let Luke get away with that. She fights for him and herself. Against the town and against her grandfather.

Things turn for the worst when Luke runs and her grandfather is in the hospital and the bad police guy is still after Tamryn for his own reasons.

Lots of emotion, adventure and erotic moments in this story.

Loved it. The moment when her grandfather leaves the hospital and something bad is happening (not want to spoil by saying what did happen) and the moment her grandfather thanks Luke for his help was so touching.

Looking forward to read more in this series.

Denise Dow says

Enjoyed

I enjoyed this story by Kimber White. It is the first I read, and I liked that even though I haven't read any of the other "Wild Lake Wolves" Series, I didn't feel lost.

I would recommend this book, and plan on reading more of the series.

Kiera says

This was the best one of Kimber's I've read so far. I completely devoured Luke and Tamryn's story. It was suspenseful, powerful, sexy and dangerous. Both of our main characters are outsiders and don't feel like they fit in with anybody until they meet one another. Tamryn & Luke's connection is strong from the beginning, but their journey to make their relationship work is difficult.

It has been a while since I read the first book of this series and I'd forgotten how good it is. This is only book 2... there are 5 others to go and I'm sure things are just going to get better as I read along. This is a great way to send off 2017, with my final 5 star read of the year.

Angel says

Sigh. After reading Mel's story one just can not help but fall in love with Luke.

A lot has happened to Asher's pack since we met them back in the Claimed by the pack series.

As Luke struggles with himself and his wolf the last thing he needs is to find his mate. How can he claim her when his wolf is taking over? Would she still accept him when she finds out his darkest moment?

Loved this story.

Della Jackson says

Wow

This book is as good as the first. It has more twist and turn. With a big mystery, lots of drama and suspense. I laugh and wanted to cry. I felt like I was in the story, I wanted to slap a few people. I am glad it ended the way it did. I will leave the spoilers for other people. I would recommend this book. So grab your copy, and your favorite drink and turn the world off so you don't miss anything.

Jason Bunnell says

Sizzling intense page turner

I'm a major fan of this series so far... I think I just got started with the first book as a great read just to find out that the second book, this book, was better than the first! A great blend of action and romance that draws

you to read each page faster than the previous page.

SHIRL D LLOYD says

Exciting, suspenseful

I wanted to keep reading, I wanted to know what was going to happen next. Want to read the rest of the series.
