# Fluffy

*Simone Lia*

## Fluffy Simone Lia

Originally published by the author in four volumes, *Fluffy* is described by Simone Lia as 'a story of unanswerable questions, love, despair, adventure and happiness'. Fluffy is a baby rabbit who is being looked after by an anxious, single man called Michael Pulcino. Michael tries to make it clear to Fluffy that he is not his daddy, but Fluffy appears to be in denial. Michael is being pursued by Fluffy's nursery school teacher, and partly to escape her, he and Fluffy set off to visit his family in Sicily. Will Michael escape her? Will Fluffy come to terms with the reality that he is not a human being? All is at least partly resolved in Simone Lia's utterly irresistible graphic novel.

## Fluffy Details

Date : Published February 15th 2007 by Jonathan Cape (first published 2007)

ISBN : 9780224080484

## From Reader Review Fluffy for online ebook

### Charlotte says

Don't worry Fluffy, you're always a real boy to me :)

Adorable.

Utterly.

---

### Shivam Kalra says

This book is too cute.

---

### Paul Bryant says

Fluffy is a iddle rabbit who has a big miserable loser daddy who's a teacher with girlfriend problems. Fluffy is a sad sweet gurgle of a graphic novel in which awkwardness is elevated to the level of a minor art form. It's a little bit sicky sickly sentimental. All right, since the main character is a iddy liddle rabbit, quite a lot really, if you want to be picky. Big men who can tell cars from each other may not like Fluffy.

---

### Joshua says

Aaaaah! Heartbreakingly weird and adorable! Tractors are good!

---

### Greg says

I can't believe I'm the first person to rate or review this book. How can that be? Why are other people not reading and rating *Fluffy*? Do people not like bunnies obsessed with farmers and tractors who poop all over the place and who don't realize they are rabbits? I hope this is only temporary and soon many other people dangerously nearing middle-age will read and love this book about a man and a little bunny who follows him around like it was his own child.

---

### Gary Lee says

Many words could be used to describe this book.

None of them would do it any justice.

---

## Blair says

Fluffy is a bunny who doesn't realise he's a bunny. Michael is his 'dad'. Michael is involved in a 'relationship' with Fluffy's nursery school teacher; actually she's more like his stalker, but he's too anxious and awkward and to tell her to get lost. When there's a lot of exposition to be delivered, the narration is taken over by a sentient dust particle, who sometimes has arguments with his rival, a sentient flake of dandruff. *Fluffy* is an absurd, funny and incredibly heartfelt graphic novel which combines innocent, childlike humour with grown-up themes: the struggles of single parenthood; loneliness; problematic family and romantic relationships. It made me smile and tugged at my heartstrings, and Fluffy is as annoying-yet-adorable as a cute little bunny who acts like a 5-year-old kid would probably be.

## Nidhi Srivastava says

Fluffy is ridiculously cute. And weird in an unforgiving honest depressing way. But mostly cute.

---

## karen says

this is one of my favorite bunnies ever. this book is funny and charming and just all-around great. highly recommended. yesterday i managed to convince 2 people to approve of it despite earlier pooh-pooing it - one for reasons of "too whimsical and not liking graphic novels as a rule", and one because "why would you read a graphic novel without sex or violence in it." conclusion - everybody loves fluffy. science.

---

## Kate says

Fluffy humorously and sweetly details a few days in the life of a forlorn Michael who has a painfully cute rabbit for a child.

This book is lovely. Really, really lovely. Fluffy is a wide-eyed bunny child who greets the world with questions, a hunger for steak and ice cream, and tiny bouts of identity crisis. Her owner, Michael, has problems. It seems like his life is not what he wants, he's in a rut. His job is so-so, his romantic life is dominated by a harmless stalker. He doesn't have the guts to stop giving mixed messages or to tell her to go away. Michael and Fluffy journey to Sicily to go on holiday and hang out with Michael's parents. There are uncomfortable moments, realizations, and bunny turds.

The drawings in this book are made of smooth, sweet, delicate lines that make me want to pick Fluffy up and never let her go. The whole package is charming from the people, to the buildings, to the deliciously adorable sounds that Fluffy makes. You don't have to like cute stuff to enjoy this book. It will get you either way.

### **jess says**

this book is the loveliest book EVER!  
i don't want it to end!

---

### **Isabel G L says**

Esta novela no puede partir de una premisa más loca y tierna: Mickey es un hombre soltero e inseguro que vive con un conejito que se piensa que es su hijo. Todo esto da lugar a un sinfín de situaciones cómicas y disparatadas, pero el mérito del libro es presentarnos una historia subyacente sobre el amor y la soledad que no podía ser más realista y adulta.

Ya había leído Fluffy hace años, pero está bien revisitar los clásicos personales de vez en cuando para volver a ellos con otro punto de vista. Le pongo 5 estrellas, pero si pudieran ser 6 también se las pondría.

---

### **Lizzy says**

I read Fluffy while working a slow register shift. When customers came over, insinuating that they might like to buy something, I would attempt to puff up my body in a menacing way. That's what animals do sometimes to try and get you to stay away from them. It mostly worked. Fluffy's the kind of book you just don't want to put down. The only reason I didn't give it five stars is because I have the feeling that Simone Lia is capable of even more. A short while ago, an elderly lady whose first language was not English came into the store and asked me if I knew anything about comic books, and more specifically if I thought Fluffy would be appropriate for her 12-year-old grandson who was also learning English. I felt so torn. This is not a book for a 12-year-old. And yet, who was I to deny anyone the pleasure of Fluffy? In the end, I think I made her buy Moomin. I will live with my choices. And God will judge me for them.

---

### **Melki says**

He's constantly asking annoying questions.

He whines a lot.

And he leaves turds everywhere.

If Fluffy was a child instead of a small, cute bunny, the internet would be teeming with Fluffy-Hate-Groups.

I know, I know. Everyone else thought the little rabbit was charming.

God, I'm getting old and cranky. I now have more in common with Mr. Wilson than Dennis the Menace.

(Seriously, Dennis. Leave the man alone. It's unnatural to be hanging out with him so much. Go play doctor with Margaret instead.)

---

## **Utkarsh Bansal says**

Stylistically innovative, but I couldn't get invested emotionally. The protagonist (not Fluffy, the other one) was unlikable, and not even in an interesting way.
