## Worth Fighting For Zoe Blake

**She wasn't interested in dating a domineering Marine. He wasn't taking no for an answer.**

When you agree to help your best friend break into her ex-boyfriend's apartment, you can expect a few complications. A half-naked, hot-as-hell Marine bursting in, demanding to know what is going on, is not one of them!

Sage is an intelligent, independent woman. The last thing she needs is some arrogant alpha male storming into her life and ordering her around. Yet that is exactly what she gets when Conner sets his sights on her. Despite their obvious attraction, Sage resists him at every turn, convinced he is not the man for her.

After three straight deployments as a Marine attack helicopter pilot, all Conner wants to do during his month of leave is sleep. But when he lays eyes on Sage, after stopping what he thinks is a robbery, the furthest thing from his mind is sleep. Drawn by her feisty attitude as much as her beauty, Conner is determined to make her his. Even if he has to fight her every step of the way.

This story was originally part of the "Hero to Obey" anthology but has been expanded (doubled in size) with additional scenes and sub-plot.

DISCLAIMER: This book is intended for adults only. It features power exchange and sexual scenes.

#### **Sexy,sweet and Freakin ADORABLE**

Wow,I got teary eyed with this one .Definitely a feel good love story not to be missed,steamy for sure with a bit of noncon(but not really because who really wouldn't want to be saved by a hero and thrown over the shoulder of a sexy as sin marine!) It is one Whirlwind of a story where a dominant,alpha male marine with a gooey sweet center and an admirable hero complex saves the heroine and her friend repeatedly .But Sage fights their sizzling connection due to inexperience,fear of the unknown and the overwhelming attraction she has for the bigger than life he man military stud .Love the surprising details of military family and social life and pageantry. Well written ,no typos or editing issue. Short and sweet with HEA. Want to go and reread from the..Beginning!

#### **Okay story**

This book started with a cute premise. The storyline, as it developed, was a little farfetched at times, but it was okay. There were several instances of wrong word usage which just interrupts the flow of the story. He pressed her against the "service" of the wall instead of the surface; her friend's actions "exacerbates" her father instead of exasperates, etc. And in some of the make out scenes were just a touch too exaggerated to come across as real. It was still an okay story, but I'm picky about certain things and this book pressed some if those buttons.

#### **Perfect Storybook Romance**

If you're seeking a few hours of romantic escape with your eReader, a handsome alpha Marine, and a sassy

independent woman, then this book is a must-read. It's got it all! Romance, heat, humor, suspense, friendship, and a HEA. Every woman's private fantasy put into words. Don't think I need to say anything more.

### **Fatimama says**

I really liked this book as Hero goes mine-mine-mine upon meeting the heroine. I also didn't feel so bad about his pushiness in pursuit of the heroine coz it was clear that she liked it and she wasn't afraid.

#### **Awesome ending!**

Conner and Sage were wonderful characters and this is one of the best books that I have read written by Ms. Blake. I can't believe I have laughed that much at the dialogue between two characters in a long time. Short story but very cute and definitely worth the read.

### **Sherry Westendorf says**

A great read. She is feisty, intelligent, loyal and so much more. He is tough, an alpha male and so much more. He catches her and her friend in an apartment he has borrowed for a few weeks. then has to go out and rescue them. He wants her but she is skittish and a lot more. It is exciting, suspenseful, hot, fun and so much more. I recommend it. I was given a review copy by book boast and voluntarily review it.

#### **Short & Sexy Reading**

A quick read and worthy of every descriptive word! I loved the entanglements of a sassy independent woman and a take charge protective Marine. All the "Respect" references and Military honors make this story extra special. Definitely one to read now or add to your TBR list.

### **Heart5 says**

This was a bit of a departure from the author's normal writing, but definitely worth reading. Conner is a super hot, alpha Marine. Sage is an independent, modern female. She knows better than to get involved with a man like Conner, but somehow can't seem to stay away. This was a short, fun, sexy read. I really liked the struggle as Sage desperately tries to resist Conner. I wasn't ready for the story to end, but will say the ending was perfect.

I voluntarily reviewed an ARC of this book.

Worth fighting for? Why, yes it is! But you need to take a journey through the pages of this book to find out what that is. No spoilers here. Definitely five stars for Ms. Blake.

Choosing to read this on Memorial Day turned out perfect timing but reading this anytime is also good. You gotta love a Marine when he knows what or who he wants and he wants his Spitfire. Such an enjoyable fun read. Knowing about Marines, having a brother who was one, it was great the way Ms Blake explained things so civilians would understand also was great! It was a great fun read as Mr. Marine gets to know his Spitfire!

## Tianna\*loves books\* says

This is an OKAY book. It started fine. The H and h's first meeting is nice but then when they meet again. He forcefully takes her to his home.

Fine with that.

But then when she says she doesn't want to go to his home, suddenly he puts his fingers in her p\*\*\*\*?.

:::::Turn offff:::::

And when they get home...

h- I don't want to come inside

H- .....

And when they get inside...

h- wow you have a beautiful house...

???

Like really? ::::Turn offff:::::

She is being forcefully HANDLED, and she is complimenting his house?

Okay....then when he tries to RAPE her.....

H- Oh...you're so tight

h- uh...yes it's been awhile.

?????

:::::Turn offff:::::

:::::Turn offff:::::

:::::Turn offff:::::

I like ott H. But this one was too much. At least a guy should have some respect. Forceful kiss is fine. But forceful touching ...actually forcefully handling her p\*\*\*\* is not done. This author is too dark for me. Not for me. Abandon..!!!!

## 100sweet says

This story would have been better if it didn't keep putting down the army and elevating the marines. I think

"respect" applies to all branches of the armed forces.

### **Sandy House says**

This is a well written fast paced story. Conner is a sexy alpha marine who helps Sage out of a predicament. Sage is a strong sassy woman which makes them click. Very enjoyable read. I highly recommend.
