Wife for Hire: A BWWM Fake Wife Romance Cristina Grenier

Cole O'Donnell always wanted to be a hero.

Unfortunately for Cole, he never got the hang of bravery and he was born with two left feet. So, instead of becoming a hero, Cole became an actor. He was good at it too until someone murdered his stunt double and sent his life spiraling out of control. Haunted by a sinister presence, the former child-star and present-day America's sweetheart is desperate to uncover the threat to his life before it's too late. But with no proof and the production of his latest film on the line, Cole will have to go to extremes to protect himself while remaining in the spotlight.

Violet Monroe wouldn't exactly call herself a killing machine. She's more of an entrepreneur who knows martial arts and carries a gun. As the owner and sole employee of Elite Security, Violet is desperate to get her company off the ground. What she needs is a high-profile client and no one is more high profile than Cole O'Donnell. Pretending to be the action star's wife might be extreme, but the move could be just what she needs to put Elite on the map.

Highly trained, sensual, and deadly, Violet is the perfect bodyguard and all too soon Cole finds himself falling for the mysterious femme fatale. But to protect Violet he'll have to step into the line of fire and give being a hero just one more shot. Luckily for Cole and his two left feet, Violet hasn't lost a client yet and she sure as hell isn't about to start with the man who stole her heart.

With a target on them both and neither willing to back down, will Cole and Violet be cast for a romantic comedy or will tragedy strike and leave them scrambling to pick up the pieces?

A Full-Length Fake Wife Romance steamy romance novel. Absolutely no Cheating and a guaranteed HEA. Also **includes a never before published bonus - "The Billionaire's Secret"** after the main story.

Interesting take on two people coming together under false pretense.
Cole is an actor who has a huge attitude and is hated by most. He is a man whore and he is rather entitled.
Violet is a bounty hunter who agrees to help Cole stay alive when someone tries to kill him.
These two are thrown together and as the twist and suspense of who is trying to kill him builds, they find themselves attracted to each other.
Violet doesn't trust herself or Cole since she's said been burnt before.
Read how two people who didn't get that warm loving feeling from their parents find it in each other.
I was given this book for an honest voluntary review.

Wow, this was good to me!! Violet is a warrior princess :), she brings the total man out of Cole. With her as his fake-wife, he automatically steps into his alpha. As the danger level rises, they perfectly fall in sync. Denying their attraction in close proximity is impossible. I like Violet because she is bold enough to not only protect him but also brave enough to come to terms with her attraction to him realizing his reputation...very realistic example of what a man will do if he really loves a woman. Engrossing tale, full of action as the puzzle pieces pull together the mystery, revealing betrayal and opening hearts to love.

I personally found this book quite boring for me. It took a really long time for me to get into the book at all and then I thought the story fell flat. Now that I said that, it doesn't mean that this book isn't for you. Please read all the reviews as well as the synopsis to see if this book is for you.

I enjoyed the different take on a Love story. He (Cole) was the beautiful spoiled Diva and she (Violet) was the strong, smart badass bodyguard hired to protect him and resolve the murder attempts on his life. They both had childhood issues to work on, but they accepted each other and had an HEA. A different type of Love story

Wife for Hire: A BWWM Fake Wife Romance Cristina Grenier
She's H€LL Bent On Saving The Day!!
She's b@d\$\$\$, highly trained, & totally H€LL bent on keeping him safe...

Now, if only he'd keep himself outta the line of fire!!

Hey, you can't believe what you read because he's not America's sweetheart; in fact, he's egotistical, self centered, & hated by everyone who actually knows him, which makes it virtually impossible to track down who's trying to KILL him...

So what's with the new impulse for putting himself between bullets & his Bodyguard?! Has he simply lost his mind or is he losing his heart?!

I was granted an ARC of "Wife for Hire: A BWWM Fake Wife Romance" by Cristina Grenier; while this is my 1st time reading her work, I found it well written & enjoyable. She offers a good balance between steady building Romance & intriguing drama with a touch of mystery to solve. I highly recommend her book as a One-Click favorite you'll read many times. All opinions expressed within this review are uniquely my own & freely given!

Until next time... Happy Reading!

Such an adventurous story. Cole has a deranged stalker on his hands and has to hire Violet after his stunt double is killed in his car. The difficulties of trying to find out who was hiring the men out to kill him is stressing everyone out. It's hinstly the last person I would have expected. Great read! I'm voluntarily reviewing an advanced reader copy of this book.

Merry Jelks-Emmanuel says

This is an intriguing story that grabs you right from the first page. Cole is an actor who has lost his stunt double to murder. Violet is brought in to protect him disguised as his wife and this is where the fun begins because every one has it in for Cole. With all the drama that is going on in Cole's life he has you laughing one moment and wanting to wring his neck in the next. As these two get close feelings start to develop between these two and Violet has something else she has to guard her heart. I voluntarily agreed to receive an ARC of this book for an honest review.

Christina says

I enjoyed this book immensely even if Cole appeared to be a douchebag in the beginning. As the story progressed, I began to see that he was a deeper person than I originally thought. Violet was tough as nails and no-nonsense as well. But it was clear to me that Cole grew on her. There was a suspenseful element as well and I was surprised at who was trying to take down Cole. All in all, a great read! I voluntarily read this book in exchange for my honest opinion.

Bonus Book~The Billionaire's Secret

Gillian sort of drove me crazy with her OCD..lol and Logan proved that he wasn't the cad Gilly thought he

was. Interesting twist about his true identity. Fun read though.

Shauntavia McIntyre says

A really good story to read!

This book had me guessing so many times as to who could be behind killing Logan and Jess, all of the times when Cole's life was in jeopardy. I love that Cole and Violet. It was sad how Michael didn't make it. I still don't have an answer as to what Karen got in the whole Sean's plan to kill Cole and frame his wife so he could get the company and the money.

Daniella says

Cole is a popular actor, and Violet, a bounty hunter. Their orbits wouldn't normally cross, but they do when it's discovered that Cole's life is in danger. From the very first there is an attraction and chemistry that pulls them together. As Violet works to keep Cole safe, their connection is building. Their love grows, but we get a real wow of an ending as things come together and the mystery is solved. It's a must-read for sure and I highly recommend this book, and have enjoyed several books by this author in the past. This is a voluntary review of an advance reader copy.

Wonderful 4.5

This book is truly wonderful, the characters and the storyline are so well written that they're lifelike. And to top that off. This is the first I've ever read anything from this author. I've even read the bonus book, something that I don't usually do. But I was compelled by Wife for Hire, that I continued reading.

I am looking forward to seeing more from this author in the very near future.

Any opinions that are expressed are solely and uniquely of my own, and I am happy to leave this review

The best way I can describe my experience with Wife For Hire is struggle. I am generally one to finish what I started. Unfortunately for me, I pushed through to finish, also unfortunately for me, I didn't enjoy it very much. The saving grace was the potential behind the book. It just seemed to try too hard. Too scheme-y? I received this book for a voluntary, completely honest and non incentivized review.

Anika says

Bailed on this one around the 5% mark. The hero came across as an immature jerk, wasn't really interested in read a story with that guy. Ironically the author introduced another character who came across as sympathetic - now that guy I would have read a story about. Maybe the hero improved once he actually met the heroine. I don't know, life is too short, I wasn't going to continue reading on the hope he got better.

Patricia Baxes says

Okay...this story just didn't work for me. The storyline had potential; however, the characters really seemed more like cartoon characters. Everything seemed to be just a bit contrived...read more like a comic book. Hopefully others will enjoy the story a lot more than me. ? (I voluntarily reviewed an advance reader copy of this book and just didn't care for it....)

Tonesha Reese says

Meh

I finished the book within the same day but I can't say it had me breathless with anticipation. There were a few grammar errors which can be easily fixed but it made me pause and squint for a second and the stories seemed a bit abrupt with their endings. Plus there were hints of something's in Violets past and unless I flipped by it, it was never mentioned so I felt like I couldn't connect.
