Ooh, good one

I love the mysteries that involve treasure or lots of expensive stuff! I have to start the next book to see if anything more about valuable goodies are mentioned. Great book.

I love this book series, even though the writing isn't perfect and the editing is awful. Despite these very obvious flaws, the characters are funny and engaging and you're sucked into their world. Utterly impossible things and extremely unlikely coincidences happen every single month to Danielle Boatman and the other people of Fredericksport, but the mystery presented in each book is well-enough crafted that I am always shocked by the whodunit at the end.

I don't know if the author ever reads these reviews, but I'd like to point out two criticisms I have. One: Every single character in the book uses the word "rather" um, rather too much. Not everyone uses rather in that way, especially younger characters like Lily & Danielle. It makes the characters seem like they all have the same voice, at times, which comes off as poor dialogue choices.

Two: There is a scene in this book where Heather, the gothic neighbor, is out running and she is described as wearing a tan or sandy colored running suit. Goths don't wear tan nude, sandy, etc colors. EVER. Unless it's a work uniform, or something. Any real goth would rather die than wear neutral colors.

Another awesome about Danielle, Walt and the rest of the gang. I really really love this series.

This time Danielle and the rest of the town are baffled by the sudden appearance of a shipwreck on the beach. That is until Danielle sees a new ghost.

My first book in the series....book was screwd up, chapters ended with a dangling sentence, pic of cover were in odd places....I was able to keep the thread going but I will say there were a lot of characters to keep

straight....going to try another book and see what happens!!????!!

FANTASTIC!

I don't understand how anyone could create such a complex story with even more complex community relationships! It would help to have a family tree as a guide. More books, please

So far, every book has been better than the previous, which is unusual. Most of us look forward to a sequel, but don't expect it to be better than the first. This series seems to be the exception for me.

In the previous year, Danielle Boatman has lost her husband, but found he was cheating on her. The pain of this betrayal has her selling the company they started and looking for a new start. It doesn't help that she can see ghosts who haven't moved on. However, she finds her new start in an unexpected inheritance from a Great Aunt by marriage, The Marlowe House. But Marlowe house comes with secrets and the town, a wide variety of characters. The main character is Walt Marlow, a Ghost, excuse me, a spirit (Walt does not like the term ghost) who died in his own attic at the age of 25. He has decided he doesn't want to "move on" to the next part of his journey. There's a touch of romance in the air, but where can a Spirit and a live woman's relationship go?

Danielle came to Marlowe House to start over. And she has. There are new friends, a ghost in residence (Walt Marlowe), and a place where she feels at home; she has even helped reunite lost siblings. But there have been set backs. Her cousin was murdered, her best friend nearly dies, and the local police wonder why she keeps finding herself in the middle of all these murders. Then, a man Danielle hated is murdered in her home.

The relic of a ship is washed up on shore just blocks from Marlowe house. First it is learned that the ship was Walt Marlowe's, but Walt isn't happy for the memories. His best friend disappeared about the same time that the ship was lost at sea along with gold coins from their business. Then, Danielle finds a ghost on board and the Police determine the boat was scuttled, meaning the people on board were murdered.

The ghost of Walt's best friend, who swears he didn't steal the gold is sure he hid it. If true, why was he on the boat? And how did all of the passengers' jewelry get back into the ship, in a box that is only a few months old? As Danielle investigates and questions the Ghost, it becomes obvious that someone has been tampering with the ship and its contents. Can Danielle find the gold, solve the mystery of the ships sinking, and help Walt's friend move to the other side? Or will others find the gold first?

Wonderful journey

I am really enjoying this series. Each book and it's mystery is so different from the previous one and yet each book let's you see the same characters progressing. I hope when the last book in this series is written as are given a satisfactory conclusion to the relationship between Danielle and Walt. Sometimes I think about skipping to the last chapter of the book just see what possible romantic gesture will occur.

Danielle says

Possibly the best book in the whole series so far! The plot line was fairly easy to follow, and we got a little look back into the life of Walt Marlow, as well as learned a little about characters that were only briefly mentioned in the previous books. And now it looks like this may be the beginning of a budding romance, and long as that dream kiss doesn't cause too much trouble. ?

Loved it!

As the past 7 books this one was great as well. Things are happening! What will Danielle do? What will Walt do? On to the next one!

Great Mystery

This novel has the right elements necessary for both the best ghost stories and the best mysteries. Parts of it are quite poignant, while other parts are truly hilarious. So far, this one in the series and the CHRISTmas one are my favorites. Bravo!

This was very enjoyable to read. I'd have given it a 5, if the gold hadn't been so easily found. I had to shake my head over that little scenario.

I said after the last book I would not purchase any more in this series, but once I start a series I feel compelled to keep reading it. I loved the beginning books- 1-3 were pretty good. Engaging, fun, interesting mysteries. At this point in the series, the characters have grown boring and trite. I don't like Danielle. She's rude and poorly written. She's not a believable character. The love triangles are absolutely vapid. I do not like Lily. Enough with Lily. Walt is the best character, and he's dead. The plot was thin, in fact see through. The dialogue is ridiculous. People don't actually have conversations like are in this book. I am over this series and done with it now. I understand cozy mysteries are corny, but this series is full of poor writing. It can be a cozy without poor writing (and editing!).

I love cozies. But, this one fell completely flat and the plot was unoriginal and unenjoyable. And, the lack of editing- it was enough to make it completely unreadable. Steaming pile of doo doo.
