**I started the Spring Break as a v\*rgin. But I agreed to something I surely never would have done in my right mind. Maybe it's too late to back out now...**

Spring Break was supposed to be Fiona and I living it up in Miami.  
Of course, we got a little too drunk our first night out on Ocean Drive.

That's when I met Mark and agreed to something no v\*rgin would dream of doing.  
He proposed the idea of me being not with one person – but all of his colleagues.

I was both thrilled and horrified by the idea.  
Conflicted, because it'd be like accelerating from 0 to 100 in seconds, and thrilled, because it fit right in with my best fantasies.

But what kind of girl would agree to something like that?

Turns out, this one does.

*This is a 35,000 words novella with an HEA.18+ Only. Enjoy!*

#### Owned By The Casanovas

A great story but I was hoping for more. I would recommend this book to everyone. The book just ended and I thought there would be more.

### Elaine Sturgill says

#### Mark and Hannah, instant attraction

Good read. What starts up as attraction between Hannah and Mark leads Mark on a journey to find his happily ever after.

---

### Erin says

Hannah is going on spring break with her friend and have fun.

On their first night out she gets an offer she can't refuse. Mark is going to take her to his hotel room with him.

Hannah is still a virgin and does want to do something with that.

But before he takes her to his room, he explains he shares a suite with three more men and the plan is to share her too.

Hannah is intrigued and decides to go for it.

While taking hot care of her, the men discover she is a virgin and take care of her even more, giving her lifetime experience.

An hot experience they want to do again some other night during their holiday, giving Hannah even more first.

During this all Mark is taking extra care of Hannah and sees she gets what she needs.

But Mark is no relationship man or will he change that for her?

For that you have to read the book.

If you are into a story with more man taking care of a woman, you certainly won't regret it.
