Wings & Destruction G.K. DeRosa

First the vampires attacked.

Then the angels came.

Humans thought they were saved.

They were wrong.

In less than a year, the Vampire and Angel War ravaged the country and decimated the human population, razing lands in golden fire and pools of crimson blood.

Seventeen year-old Liv thinks the immortals have stolen everything from her until a warrior nephilim drops from the sky and snatches away the only person she has left. Now Liv must risk everything to rescue Asher from the dreaded angel tower.

Even if that means trusting Declan, a gorgeous stranger who saves her from a pair of ravenous vampires. As much as Liv hates to admit it, she needs him to survive the perilous trek south. Declan's cunning, strong, and charming, but he's definitely keeping secrets.

Those dark secrets, once revealed, will force Liv to question whether Declan will be the key to rescuing Asher or her ultimate downfall.

I first came across G.K.Derosa back in April 18 when I read and enjoyed her “The Vampire Prophecy Series”. This quickly put her in my favourite authors list. Now with Wings & Destruction she has moved up in her ranking. For me, to have an author make my list, they need to show and sustain their creative abilities, keeping me engaged in the storyline, showing me a new world that can be as believable as my next breath. Emotions? To me, I need to connect to the characters, I want to feel their every fear, happiness, joy & grief. I want to become invested in their lives, hopes & dreams. Then to me, they become a person, not just fictional. G.K.Derosa has hit everyone of my hopes, that turns a story writer in to an “Author” She has taken the words on the story pages of Wings & Destruction and breathed life into them. She has brought originality & existence into a dark world, making her characters jump off the pages, with you hot on their heels. I became invested from chapter one, in the hard life and impossible world “Liv” the main female lead is part of. She has been surviving and hiding with the support of her best friend. Now because of her, he has gone. Now she has to start “Living & Fighting “ everg step she takes. Every fear & horror she feels, you are right there alongside her. She then meets a guy who has been living in the same way, but in a totally different world. It will be a way that will either make her take flight, or stop and fight alongside him. He has so many secrets that will break or bond them, or maybe both. This is war !! One they found, could have an ending, if only they can find the beginning. A long the way you will become enthralled with their stories, their fears, hopes & dreams. You will feel the first buds of a love story, but in a world full of secrets & lies, will there ever be a time for it to flourish. I also had a feeling that there is something about “Liv” that even she is unaware of. The introduction to this new series from G.K.Derosa is inventive, sensitive and unprecedented, it certainly keeps me wanting more. I can’t wait to see where this journey takes me next.

This is the first book I’ve read by this author. It won’t be the last. The first page grabs you and doesn’t let go. I would recommend it to anyone.

This was an amazing story to read , it has strong characters and a wonderful story line. I am so glad I read this story and I highly recommend this story to everyone.
This is my honest and unbiased opinion of the story.

DeRosa writes urban fantasy very well. I enjoy the Mortal Instruments vibes I get from this book, because that series is one of my all time favorite.

At first I was having a hard time with this book, it seemed like Liv was just going to be scavenging in for food after the angels and vampires decimated the earth. Her dog is so cute though so I did love him the whole time. When Liv has to try and save her best friend, there’s a cute stranger who’s more than willing to

help her. The romance isn't rushed between them so this works really well because it's just a lot of tension and waiting to see what was going to happen. This series is off to a great start. I can't wait to see what happens next.

Thanks to the author for a free copy.

Stepping out of my norm and glad I did. This was an unexpected story that you'd not expect when talking about Angels. Vampires! Yes, but to have the human race on the short end of the stick? Declan was another surprise, and Liv wasn't what I'd call a kick-ass heroine since she blamed Declan for all the bad. You'd have to read the book to understand what I mean.

I received this book as a free read for an honest review and glad I took the leap. Definitely not boring or something read before, so no similarities with other books. Kudos!

This is the first book I read from this author, and I will definitely be reaching for the rest of the books in this series.

I loved the premise of this story. The twist on the idea of angels was fascinating, and I am looking forward to what she does for the vampires. This is the first book in a very long time that I read start to finish in one day. It held my attention.

However, if I could give half-stars I would, and would give a 3.5

There were just some things that really frustrated me that I couldn't let go.

1. Liv couldn't do anything without the men in her life.

Seriously, there are absolutely NOOOO women in this entire book except Liv until the very end. Even the NPC's she runs across are all men (save for 1 vampire).

The female we do meet at the end, who I believe is supposed to take on the role of Wise Mentor, is NOT a good role model for Liv.

2. Liv is along for the ride in her own adventure. Liv has all these ideas of what she wants to do, but it's everyone else around her who figures out how to implement those ideas, and then takes her along for the ride. She offers absolutely nothing of value, which is incredibly frustrating.

3. Liv's personality is confusing.

One minute she is pining over her lost love/bff and making plans to rescue him, the next minute she's jumping out of her skin at the tiniest sounds. Liv has zero bravery, and then the next minute she does? But she doesn't do anything with it. So, does she need all these men to do everything for her or not?

4. The romance moved too fast.

If the person I had a crush on for years suddenly kissed me (and incredibly passionately), and I am on a quest to save him, I highly doubt I would be so easily swayed to having feelings for someone else, no matter how handsome or "angelic" they might be, and so quickly.

I think something about this may be revealed in future books based on what Sammarah said at the end of the book, but I wish this had been explained just a smidge.

5. I honestly think this book would have benefitted from a prologue - which is pretty rare. This would have given the author more time to focus on better character development instead of having to explain about the war.

6. Duke was adorable, but he also added nothing of value to the story. I honestly thought she would have been better off leaving him with the FBI agent at the beginning. He just proved cumbersome, and it was like the author had to figure out ways to incorporate the dog to keep it in the story. It became incredibly annoying and didn't add value to the plot since Duke doesn't really do anything. He doesn't tackle vampires or find a hidden clue. So, why is he there? He's not really comic relief either, so I don't understand his continued inclusion.

Overall, it's a good book, and I am looking forward to the rest of the books in the series.

Wow. Vampires and Angels are at war. Everyone thought they were saved, but not at all. Couldn't get enough of this book.

G.K. DeRosa says

The Vampire and Angel Wars are starting soon! I can't wait for you all to meet Liv, Asher, Declan and all the new characters from this dark fantasy series! :)

Tanya says

Vampires has started a war with humans and she thought that when the angels came that they would save them. But no the war got worse. All her family are dead and then they take the only other important to her. She needs to save them and she has a stranger who offers to help. Who are they? See if she can save them I received an advanced copy and I enjoyed it so much that I want to review

I love GK DeRosas books and I wasn't disappointed with Wings & Destruction. I'm not going to give any spoilers but will say that once I picked the book up, I couldn't put it down.

A huge thanks to the author for providing a digital ARC in exchange for an honest review!

Wings & Destruction is about a war of Vampires vs Angels and the declining population of humans because of it. I found this premise quite interesting but thought it was slightly lacking in both vampire and angel

action as well as having minimal plot development until the very end. Despite these things it was an easy read with a good flow and the MC's Liv and Declan were very likable and have great potential to evolve and kindle a romance in the future books.

Janice perry says

Great apocalypse story. Loved the characters and the storyline. Can't wait to read more.

Lena Muo says

I'm sorry but I really hate Liv. How could she do this to Declan?

Derek Williams says

The earth has been devastated by a war between vampires and angels and mankind has almost totally been wiped out. That is a great start to a story line, but it gets better. A girl, her dog and her best friend set out looking for food. The best friend gets taken but then appears a mysterious stranger who joins the team. I will leave things there so not to ruin your reading of the book. Great characters and a well developed world and story make this book one you will not want to put down until you finish it. I honestly believe you need to read this book. I received a free copy of the book but my review is completely voluntary and unbiased.

This is an epic series starter! It didn't take me long to fall in love with this book, there are so many elements in this story that i just love! The characters are amazing, they are strong and somewhat mysterious. I enjoyed following Liv and her trusty dog along in their struggles with the vampires and the angels with the help of their friends. There is plenty of action along their way, and when you are done reading you can't help but want to know what will happen with them next!
