I picked this up thinking it would be weird based on the art and description. But this is actually a good, suspenseful book that I couldn't look away from! It is funny, bloody, and sweet all at the same time.

The demon Ushitora is a respected assassin who kills Kuruizaki no Hana (Flowers out of Season), the name for children who have a parent that is a god. But one night, after killing a young girl, he discovers she had a four-year-old brother named Masato. In that moment he decides to give up his life in the demon family and takes the boy away to raise him. Later, they find a cheeky orphan girl named Nao, and she becomes part of the family too. Ushitora never told Masato about his sister, Ushitora's old job, or the fact that neither of them are human. So Masato is surprised when demons show up to kill them all...

Half the story seemed boring and parts seemed like filler it was ok i will not finish
Dont get into this series they never finished it at all

A little slice of spiky, homoerotic heaven. From the author of The Demon Ororon, the twisted tale of a demon who abruptly quits his job hunting down the children of gods and humans (the demons feed on their powers, doncha know) to care for a little boy whose sister he's just slaughtered. Fast forward to several years later--the boy is now a teenager, the unconventional family has acquired a feisty but fragile little girl, and the demon (Ushitora) has never told Masato the truth about the night he was "adopted." Will their relationship survive the revelation? The graphic, stylish drawing makes this manga, but the affection between the characters and the flashes of humor take it beyond fashion statement.

At my public Library, we have a very small selection of mangas. They did have the first 2 Demmon Flowers books, though. I read them and fell in love. Overly obsessed, I bought the 3rd and 4th books.

There are only two things I didn't like about the series. First is the art style. I am very intrigued by it but at times, I could not tell what exactly was going on. Some scenes confused me and till I looked closer.

The other thing I don't like about the series is the last book, volume 5, has yet to be translated. The 4th book leaves you at a cliffhanger and I have been dying to finish the series.

I really like this manga. It was different and unique.

I liked this book. This is about a Demon that is sent to take the soul and destroy this one family. The little boy stops him by talking to him and giving him a hug. The Demon decides to take off with the little boy and create a new life (where he doesn't kill anymore). Along the way the pickup a little orphan girl. The three of them live together and are on the run for the people looking to kill the boy and get the Demon back into the family.

I wanted to start this series despite the fact that I got burned with tragic end to *The Demon Ororon* because I really do love Hakase Mizuki's art style.

spoilers

The basic premise to the story is that a demon assassin named Ushitora is sent to kill a family of 'Kuruizaki no Hana', the offspring of ancient Japanese gods and humans. However, he finds himself unable to kill the little boy called Masato (in the summary it says because he falls in love with him but to me, he just seemed intrigued) and he goes on the run with him. They met an orphan girl called Nao and adopt her too.

Now I'm curious as to how this 'family' dynamic is going to progress, and whether Ushitora and Masato do actually end up in a relationship. However the end of the book ends in a terrible cliffhanger and I'm afraid that this series is going to end tragically again *looks around for a shoulder to cry on in advance*!

I'm really not too thrilled by the minimalist, exaggerated art style in *Demon Flowers*. There were a couple of

panels that took me a few minutes to figure out what was going on in them.

As far as the narration goes, there's just enough tension to keep me curious about what will happen in the second volume.
