Liddia Sanglton says

I have these...i bought them the other day at the dollar tree...i went back to get more but they were gone...

Ash †Reviews of a FearStreetZombie† says

Actually I got these YEARS ago.

Why these are labeled under actual books, I have no idea. They are journals for you to write in. Not real books.

Anyway, I was stupid back then and actually opened the box because I was curious to what they looked like. They are extremely beautiful by the way. I just wish I had kept them sealed. (I'm trying to keep things as collectibles)

Avery C says

These journals contain hundreds of special and iconic quotes from the Twilight series. Stephanie Meyer includes both inspiration and relatable within each of them, making these journals a fun, quick, and easy read.

Anissa Rose says

I got these journals for my 12th birthday .. They were in a metal box that said the twilight saga . They were just so pretty and I loved how inside , they have sayings from the book.

Brandee Terry says

I love these journals. I picked them up at the dollar store!

Raegan Ralls says

These books are so pretty! I am never going to write in them!

Felicia says

well I didn't read them as much I wrote in them. I write poems, ideas for my own stories and cute quotes from my kids in them. I almost have them all filled but I always have lots of journals around for that reason.

Devyn says

I've had mine for years, and ironically never written in them. When I first got them(around 14 years old) I planned on writing dramatic and angst filled poetry with elegant penmanship similar to John Hancock's signature, but that never happened because my penmanship has never been anything but chicken scratch or a Doctor's scrawl.

Some notebooks are just too pretty to ruin writing chicken scratch in.

Emilie E. Faye says

I've had this since 2009 and I still refuse to write anything in them. As much as I didn't love the Twilight Series, I love these journals. I wish less dramatic and more talented authors would do this with some of their books.

Catharine says

These journals are so beautiful and I took so long to convince myself to write in them. Every time I wrote in them and screwed up, I felt as if I ruined the beauty of the pages. I ripped out about three pages from each

book because of screw-ups before I realized that would wreck the beauty of the book even more. So I gave up on mistakes and I got over it and now I have four very beautiful journals filled with the story of my life. :)

Xyra says

Very easy reading as these are journals for us to write in. LOL
