## From Reader Review Ultimate X-Men: Ultimate Vol. 3 for online ebook

### **J says**

Liked the artwork. Story line was fine. Good read

---

### **Drakonflight says**

This one does have a cameo of the Ultimates in it, but it's still a great story. Loved it.

---

### **Aaron Swensen says**

Still not great, but it was the better of the Millar run of this series.

---

### **Sofia says**

Any X-Men comic that brings Scott Summers pain and wherein Henry McCoy gets the girl brings me immense joy.

---

### **Matthew Willis says**

pretty dang fantastic. best volume yet.

---

### **Josephine (biblioseph) says**

Can I say, awesome? Haha, maybe I'm over hyping it now. But uh, perhaps Magneto's increasing dorkiness is endearing him to me. And, as cool as Prof X is? He's creeping me out, which is apparently the intended effect.

Ehehe, I'm such a fangirl for all the mutants. More detailed review is forthcoming.

---

### **Holden Attradies says**

A pretty solid volume. Nothing bad, although nothing that blew me out of the water. I really enjoyed the seamless inclusion of the Ultimates in here, really made the X-men feel like they were part of the Ultimate world, as well as tying the wasp's mutant status all in.

---

Not sure how I feel about the phoenix force being dragged along. I was really disappointed in how quick and shitty that story arc went in Ultimate X-men so I'm hoping it's being kept alive to do it proper credit. I'm afraid it's just being kept around to be used as a dues ex machina like it was used in here...

---

### **Fugo Feedback says**

Nifús nifás en estas dos megasagas faltas de ideas verdaderamente buenas, nuevas y/o sorprendentes. Y en el aspecto visual la verdad que tampoco ganan mucho. Mis opiniones de cada una ya las vertí en las reseñas de Ultimate War y El regreso del Rey respectivamente.

---

### **Amanda says**

3.5 stars.

---

### **Allen says**

Continued good writing, some deft touches and a raising of the stakes, proving one of the better 'Ultimate' series

---

### **James Hyman says**

Not a bad take

---

### **Ronald says**

At least the art improved. But otherwise the story/plot/characters of this run of X-men sucked. It was so bad I will not be checking out further issues of this series. Bleh.

---

### **Justin says**

Marvel struck gold when they launched the Ultimate X-Men series. By unshackling the popular characters from four decades of convoluted continuity and starting fresh, they were able to let new fans and old in on the X-Men from ground zero. I've been following this series through these deluxe hardcover collections, which contain roughly a year's worth of individual issues and at least two full story arcs.

The third Ultimate X-Men hardcover collection includes the following issues:

Ultimate War (issues #24-27 and Ultimate War #1-4) - Magneto is alive, contrary to what everyone thought (thanks to Professor X). No one is madder than Nick Fury, who sends his Ultimates after Magneto, the

Brotherhood of Mutants and the X-Men. The clash between the X-Men and the Ultimates is epic, and reminds us why we love comics in the first place. Mark Millar's writing is sharp as always, and Chris Bachalo's artwork is incredibly dynamic and stylized.

Return of the King (issues #28-35) - Magneto is back, doing what he does best - killing civilians on a biblical scale. He's got a willing army and nearly unstoppable powers, and the only thing standing in his way are some very battered X-Men...oh, and the Phoenix. Millar has really set the standard for all future Magneto stories, and has personified evil in a way that is truly frightening. Artwork on this run is by David Finch (who keeps getting better) and Adam Kubert (not his best work, unfortunately).

This is easily the most intense and action-packed of the early Ultimate X-Men hardcover collections, and one that all serious X-Men and/or Ultimates fans should check out.

I highly recommend Ultimate X-Men, not only to new X-fans who might be bewildered by the continuity of the older series, but to old school X-Men fans like me. If you keep an open mind, you should find this series quite enjoyable.
