I fell for this series with the first one, Captured By Cowboys and I can honestly say Im looking forward to the third one which will be released tomorrow. I enjoy the steady romance, steamy love scenes and two HOT cowboys dedicated to their beautiful sub. I enjoy the whole BDSM theme immensely. Its not too rough nor too tender, its just right for the light BDSM which is my kind of thing in these kind of books. Very enjoyable.

3 STARS

While this wasn't a bad little story, it was almost a stock formula, and a bit amateurish.

Brothers Eric and Scott Knight, self made billionaires, are suing Megan Lunceford for \$10 million, claiming she is trying to sabotage their business. But as soon as they lay eyes on Megan, they are convinced of her innocence and put the blame where it really belongs-on her husband, who was arrested by federal agents five years ago and left her life a mess.

The brothers, both Doms, start to introduce Megan to BDSM when she informs them she is a virgin. Her husband never consummated their marriage and she has been in such a downward spiral ever since that she has not had the time or interest in relationships. That changes when she meets the Knight brothers and they begin a loving relationship. But danger is still waiting in the wings...can the brothers save their woman and their business?

The main problem I had with this story was the heroine was such a victim and her husband was such an evil menace. Megan never took any action to save herself, instead relying on her two boyfriends. And having her husband be a serial killer as well as a computer hacker is over the top.

Otherwise it was a fun little read with some hot sex scenes and not one but two hot wealthy Doms.

Thoroughly enjoyed reading this one. A well written menage erotic romance with a twist. I can't wait to read the next instalment.

Lyre says

The heroine has been married for 5 years and still remaining, not mention she's as beautiful as godness (from

the brothers' reaction).
How persuasive.

Catherine Iriarte says

Megan, Scott, Eric. Megan comes to town totally broke and gets the proposition of a lifetime. I really liked this story. The two guys were a woman's dream IMHO.

Lindsey says

Amazing

I loved this book. for the genre, a lot of attention was given to character development. I loved that the heroine wasn't perfect, though I wish there was more conflict with the husband. he is portrayed as a Hannibal mini me without the cannibalism, and is really quite fascinating. I think a sequel with the same three main characters dealing with kip would be great. for all the tension, the climax is a bit of a letdown. but it was really refreshing to not have the bad guy be a stalker who is obsessed with the Martyr heroine...as much.

Great second book!

Chloe Lang is the real deal folks. I'd give this book more than 5 stars if I could it was that great. this is the story of Scott and Eric Knight and the woman that they are suing, Megan Lunsford. Her husband is an self-employed of theirs who steals a code from them. But when they take her to court.they quickly see she's innocent. So they come up with an unconventional plan and vow to keep her safe from harm. They also vow to make her their sub. Even with danger from her ex, and dangerous moles, they find time for love.

I loved this book just as much as I loved the first one, Captured by Cowboys. I am definitely looking forward to more stories out of Destiny.

Tja..... niet echt indrukwekkend.

Cyn Mistress Kitty says

I'm really liking this new series and want to read about all the other citizens in Destiny.
I thought Eric, Scott and Megan were perfect together.
My only complaint was that the guys fell in love with Megan at first sight and especially when they thought she was involved in hacking their business. That seemed unrealistic. Other than that, I enjoyed the story.

it was a nice read but parts lacked depth for me

Sheri says

I really enjoyed this story. It starts off with Megan Lunceford having her eyes open to the harsh reality of her husband, fast forward five years and she's being sued for his crimes. It's pretty obvious to anyone who sees her that she was duped by her husband and innocent. Watching the way Eric and Scott Knight instantly fall for Megan made this a fun and delightful love story.

There is a bit of suspending of reality because billionaires don't just show up to sweep you off your feet every day, but with the way Ms. Lang writes her billionaires, I'm going to keep my eyes peeled. With a twist I didn't see coming, Ms. Lang blew me away with this story.

I would definitely recommend Destiny, Colorado to fans of ménage romance with a bit of BDSM play. It's a place where both sexy and sweet meet and love definitely blossoms.
