Neelam Babul says

This book no doubt is very intense and erotic. It is a tantalizing read but most of the time there is too much going on that its hard to know who is doing what.

Its like a cycle where Gabrielle has steamy hot sex with five guys then they put her to sleep. She wakes up again and the same scenario is repeated.

An okay read.

:Yawn:

I couldn't keep track of who was doing what, and half the time I couldn't figure out how the positions were working. It was all sex, but for some reason not much of it actually worked for me. It was repetitive. They repeated the half a body kink from the last book. And at 80%, I was yelling, what the hell, they already did this word for word. (turned out it was the prelude, now it context...but it wasn't that hot the first time around, it didn't need a repeat.
