The Infinity Tattoo Eliza McCullen , Laurie Cameron

A suspense thriller you won't want to put down...

Meg Goodwin fears for her life when her best friend Alex disappears while reporting on the political unrest following a Latin American coup. Meg thinks her dangerous life as a journalist is behind her when she settles back in Arizona.

Jack Cunningham must get out of town in a hurry to avoid the dogged pursuit of unknown assailants who seem to think he has something, something so important that he is nabbed off the street and taken into the desert to be interrogated and left for dead. He takes refuge in Meg's shed.

As Meg and Jack travel from Arizona to Central America, confronting villains, and uncovering crimes that stretch over 25 years, their passion ignites.

From Reader Review The Infinity Tattoo for online ebook

Janet says

very good

Michele bookloverforever says

cloak and dagger involving secret police in central America, torture, abduction of an American journalist and the hunt for proof of what happened.

Mical says

Not my usual genre'. Lots of suspense a little romance. Enjoyed.

Anita Kronowitz says

Started out exciting, but fizzled out by the end.

Anita Rappe says

Very good

Loved the CENTral AMerica part but fairly predictable. Easy reading. Are there other books by ms. McMullen? Keep writing mysteries and love stories.

Peggy says

It was ok

Nothing to write home about but I read it to the end. I haven't read anything else by this author so maybe it gets better.

Catherine Merritt says

The Infinity Tattoo

There were a lot of grammatical errors in this book, which made it a little difficult to read. But it had suspense and romance that kept the story moving.

beverly says

Fascinating

The first few chapters you may question if you want to continue reading this book, you should! The story has a twisting plot and well written characters. Mystery, suspense, adventure and a love story all in one

Alan Borley says

Unforgettable

I had to read this book right from the beginning to the end. A cleverly crafted story that had me really involved in the story. After reading about the authors career it becomes obvious why the storyline is so wonderfully realistic.

Anja says

I liked the book a lot - great vacation read that kept my attention through the end. I liked that it was fast paced and interesting and wished there were more books available by the same author. Meg is a very likable character - and I recommend the book to everyone who likes a good thriller/mystery book that is not too violent

Kim says

I received this free e-book from Amazon and I am voluntarily writing a review. DNF only read 72% and could not maintain interest too boring.

Sandy says

The Infinity Tattoo

Military misconduct, spies, contract killers, truth seekers and romance all in one very intriguing novel. This is one that I highly recommend

Nic Adams says

The first of my recent holiday reads.
Kept my attention till the end.

Kary says

good storyline fast read

Jo says

I enjoyed the is Meg and Jacks story I wasn't sure if I would as I am not usually keen on stories interlaced with politics of a country as I tend to find it gets boring when the politics are explained but I was pleasantly surprised how easy it was to read
