Storm Gathering Rene Gutteridge

An unexplained murder...

A life spiraling out of control...

A wall of evidence mounting against an innocent man...

When Mick Kline awakens in a woman's empty apartment, he has no idea how his life is about to change. Suddenly he is the prime suspect in a murder case. And his estranged brother may be his only link to the truth.

As Mick runs from the police - and his past - he finds himself entangled in the dangers of life on the run. Only God knows the truth. And only God can truly set him free...

Emily says

I was really enjoying this book, but the ending left me very confused. It's possible that had something to do with it being late at night when I finished it, I suppose, but some of it didn't make sense.

Tami says

I loved this book. I read it in one day! Can't wait to read the next one.

Angie says

A fast- paced read filled with intriguing characters. Looking forward to reading the other two books!

Micheal Hutchinson says

This book was spectacular, I thoroughly enjoyed this book throughout. The author brings you on a rollercoaster of emotions. I have always pondered the question.what would it be like if I was wrongfully accused of a crime? Well, this book brings you on that journey through Mick Kline, an assistant football coach at a local high school, struggling through his life, and his wavering faith in god. This is a must read if you love crime and suspense!

Gerda Jongsma says

Sterker dan deel 1! Ik geef het 3,5 *.

Dawn Traylor says

Very good

This was an action packed story. It was one that kept you wondering and even at the end wondering more. Even though you wonder it was still wrapped up pretty well.

Krystal says

Really liked this book. A quick and engaging read. I am anxious to read the next book in the series - I think some of the missing details will be filled in then.

Ellen White says

Mick's life is out of control, with anger on top of it. Nightly visit to the bar, his looks, easy to pick someone up. Seeing someone else drinking whiskey he approaches. Which leads to a night talking in her apartment. Hours later to find out that she is a missing person, and he is the last one to have seen her. Interesting, that the bothers may fight, yet, Aaron believes in him. Leaving no stone unturned Aaron believing there is more to the story than Taylor just missing. Good flowing plot, as we try to put the pieces together.

Carolyn Vandine west says

Been awhile since I read this one. But I loved it along with ALL the others books Rene has written

Stephanie says

Good series! Easy to read and a quick escape.

Margot says

This was a good book. I like the mystery that it had and that it brought in the message of the gospel. I couldn't wait to read the next one.

An unexplained murder...

A life spiraling out of control...

A wall of evidence mounting against an innocent man...

It all began falling apart in Sammy Earle's world in The Mekong Delta while in Vietnam during 1968.

It all began crashing down for Mick Kline in 1995, when attraction to a woman falling apart became the ultimate motive of a disappearance.

Mick Kline awakened to an empty apartment of Taylor Franks, a troubled woman with a heinous relationship with Sammy Earle, a Vietnam Soldier, a man who will destroy another to better his gain, a hangover strung above him and jumbled memories from the night before. Thinking to be polite, he leaves his phone number for her and leaves, oblivious to the mess left behind after she disappeared. Now, his brother Aaron must prove his brother's innocence when everything is pointed at him.

Their blood has wash'd out their foul footsteps' pollution. No refuge could save the hireling and slave from

the terror or flight or the groom of the grave. ~ Crawford walked to his front door. Carefully watching the street as he said, And the star-spangled banner in triumphed Roth wave, o're the land of the free and the home of the brave...

Working as a Ticket Collector at the airport, Taylor tries to walk the straight and narrow, never letting on to her previous abusive relationship, or even her life as a credit card petty thief when she was younger. Liz Lane, one of her closest friends, is the one who actually takes the time to remember to miss her and reports her missing, something that sets all the balls in motion.

Mick Kline had a troubled past, always seeming to know how to do the worst things, all the while dragging his brother down with him. Ever since he was little, he had a streak to him, something that led him to trouble with the law so many times to count, and to lose a woman he believed to be loved, Jenny to his brother. Angry and filled with white hot rage, he feels a void grow between them, before his entire life is flipped upside down, starting with his house being ransacked and then reorganized by Shay Crawford, something oblivious to him at the time. After getting wind of his impending arrest for the disappearance of Taylor, he splits, taking only a duffel bag and minimal amount of cash, before going on the run for ten days to create the link to a missing woman.

Living in abandoned houses, he stole his brother's police badge, using it to his own advantage after shaving his head to interview people the police wouldn't. As word was caught of him being sighted still within the city limits of Irving, does he do something completely thoughtless, and dive into a fifteen acre burn over of land, the flames covering him from the police on his tail, his stolen dirt bike long forgotten in the mud behind him. Burned with second degree burns on his calves, he manages to find safety in a creek behind the fire, barely conscious with the pain and feeling weak, the beginning of a life long fear of food poisoning setting in after suffering from it while scavenging for food behind a church in the dumpster.

Now, all eyes return to Sammy Earle, who watched his best friend in the war, Matty, get shot and killed by another U.S soldier, Patrick Delano back in 1968, who vanished without a trace shortly after his sentencing. Cruel to his ex girlfriend Taylor, they discovered a link between him, with his fingerprints at the scene where DA Stephen Fiscall was found murdered, a single gun shot to his head to make things appear as a suicide. After finding note of black mail, the police arrested Earle, setting Mick free, but not before his brother traced a max out credit card and \$62 back to his brother. A bus ticket from Irving to Wichita Kansas, where Taylor fled to after staging the kidnapping, attempting to save herself from Earle's constant control and pain.

Now, walking free, Aaron is questioning something Crawford told him when he went to visit, about how a bird hit his window, when there were no windows on that side of his home, but then again, but then again, there was blood from what was presumed to be of from a bird, smeared across Fiscall's office window several days prior.

Annette says

Pretty suspenseful.
