Bossing the Virgin: A Steamy Office Romance Lila Younger

He can tell me to do whatever he wants...

Becoming an executive chef straight out of culinary school was just a dream. One I'd worked my whole life for, but I didn't expect it to happen just like that. But when I somehow land the interview, I knew that I had to do everything I could to land the job. What I didn't prepare for was how I was going to react when I walked into the office of Logan Leary.

This guy was a girl's wet dream.

He was ripped, tall, and *devastatingly handsome*.

I know I shouldn't feel this way. After all, he's my boss, and this was my dream job. So why is it every time I see him, it gets harder and harder to resist? And what happens if I can't say no?

Carrie says

This is a quick read about Mikayla & Logan. It's sweet & steamy, but not really what I would classify as "insta-love." There is a solid background given to both characters, they take the time to get to know each other a bit before letting their passions overtake them, and there is a little bit of drama, tho not with the relationship. All in all an enjoyable read! :)

Lynne M says

3.5 stars.

It's a cute (very) short read. Mikayla is not a doormat, which I liked, and Logan was okay. The story was a little too insta-love for me, which is something I usually try and avoid. I'm not sure I really bought that the two characters fell in love, since the whole story was quite rushed.

Finally, this title is awful, and makes zero sense with the story! First of all, it's not what I would call an office romance (the obvious reason being they're in a restaurant). The cover also makes me think of an alpha male boss on Wall Street, which isn't the case at all.

Lyndi W. says

Cute little porno.

Jenny says

Note to self: no epilogue with babies.

Stefanie says

Loved the chemistry between Logan and Mikayla and the plot and storyline were good....just wish it were longer.

Bookloverme says

4.5 Stars

I've read one of Lila Younger's books aside from this one and both books have great stories. I felt connected with the characters and I just can't stop reading it. It would have been perfect if not because of one thing. See safety tag.

The story is about Logan and Mikayla.

She'd just graduated from Culinary school and applied to different restaurants. She got a call from Red Canyon Steakhouse for an interview. She didn't expect the owner and CEO will be the one to do the interview.

Logan's father died recently and he stepped in and took over the business. He wants to update the restaurant. Make some changes. And Mikayla has a big role in it. She was hired as the new chef that day and proved she's right for the position.

The story is a light read. It has no drama between them and they're good together.

There's an epilogue and extended epilogue (view spoiler)

Loved

I have been a fan of Lila Younger since her first book and I have to say that she is getting with every book that she writes. I loved this book, Logan and Mikayla are great characters! The two definitely brought heat to the kitchen! I can't wait to read her next Book! Keep them coming Lila!

Karin says

Mikayla is a aspiring chef who wants nothing more to run her own restaurant, Logan is looking to change up

his family business. The second Mikayla sits down in her interview with Logan she immediately starts fantasizing about her possible new boss.

Even though Logan is apprehensive about hiring someone fresh out of culinary school she sees his vision so he takes a gamble on her in more ways than one.

This was a super quick, sweet, steamy & low angst read

I voluntarily reviewed a arc of this book

Jennifer Finn says

To follow

T Van says

A She-Chef and Her Boss

Newly graduated chef Mikayla is given an opportunity of a lifetime to rework the menu of a restaurant chain. The position comes with a side of man candy; boss Logan. It's a bit steamy, and not quite instalove, low on exposition and sort of lurching the plot along. Not bad, but without much to distinguish it from other short reads.

DawnMarie Carpintero says

Cute

4 stars

I really enjoyed this book though it was really short and really fast-paced the characters were believable but yet too fast-paced for me this story had a great storyline that could've went further in my Opinion but I didn't and that's fine that's Author had me hungry in the end and that's always a plus.

For me the characters didn't really mesh well together though they said he did but in a different way. The sex was not planning for him but it was fun and it was quick.

Happy sexy reading

Linda says

This was a sweet short romance. I love food so the fact that this was centered around a restaurant chain was a

plus for me. Mikayla had just graduated from school and had large aspirations of being a chef. She was hired by Logan to help him revamp the failing restaurant. It goes on from there on a budding romance with a little bit of drama added in, but nothing to over the top. It was a quick read and can be read in one sitting.

nicklein says

THE GOOD

- the heroine, Mikayla, is likable
- she is driven
- she has a goal
- she's actually good at her craft
- & she's not a doormat
- the hero, Logan, is not an asshole
- *hooray*
- he knows the word 'sorry'
- actually both of them do
- & they're humble enough to admit their mistakes
- *hooray again*
- has an actual storyline
- definitely not all about sex no matter what the title implies

THE BAD

- THE TITLE
- that's all
- but seriously it's absolutely cringeworthy it's not even funny
- & doesn't do the story justice

All in all, my heart is happy with this and I totally recommend it to everyone who wants some light and fun short story that will make your heart smile. Just don't let the title fool you.

Caz says

Loved this book. I have been reading some really emotional heavy books and just needed something sweet, sexy and sassy couldn't have asked for more.

Bossing the virgin was such a great story and Lila Younger's writing is just getting better and better.

Mikayla was such an inspiration of character, she was driven, determined and knew exactly what she wanted.

Logan was left with a down and out business and needed it to pick it up. He was great, passionate, loving and also determined.

The chemistry and determination between these characters were sizzling off the pages. I loved the story and was something different with Mikayla the chef and in a way being the hero in the story.

If you're looking for a short, funny and fast paced book then I recommend this one of sure.

Astraycat says

Received an ARC from the author.

Great short read for relaxing during break or on the way home after working whole day. No drama, and a sweet epilogue.
