Taboo For You

Anyta Sunday

Taboo For You Anyta Sunday

Sam's freaking out. He's 30 in three weeks. And what has he done in his twenties? It's pretty simple math: nothing exciting at all. But hey, he has three weeks right? Maybe that's just enough time to tick his way through a *20s Must Do List* . . .

Luke's freaking screwed. He's come out to his family, and his friends. Except there's a certain someone who doesn't know yet: his neighbor of 7 years. Who also happens to be his best friend. Who Luke needs to tell the truth, but he just . . . can't . . . seem to . . .

Jeremy's freaking over-the-moon. It's the countdown to his 15th birthday, and his goal is simple. No matter what, he's going to spend heaps of time with saucy Suzy. But first he needs to get his over-protective, no-girlfriend-'cause-you'll-get-her-pregnant parents off his back. And what better way than pretending he's gay?

Sam, Luke, and Jeremy. Three guys who have a lot of history together, and a lot of future too—

—well, if they can sort out their issues, that is.

Bev says

This was a really cute story, the sort that leaves you feeling all warm and happy inside. 5 stars and from me!!

Sam is a father; he became a dad when he was 15, and has shied away from relationships ever since. His son Jeremy divides his time between mum Carole and dad, everyone gets on really well, and it would seem that Sam's best relationship is with his best friend Luke, who's a teacher and is always ready, willing and able to help Sam and Jeremy out, as a good friend should. Luke of course is gay and has been in love with Sam it seems like forever, but the only person who can't see what's staring him in the face is apparently Sam himself; in fact Luke once went away for 6 months to try and get over Sam...but failed miserably. As Sam's 30th birthday is looming, he jots down a bucket list of Must-Do things he wants to do before his 20's finish, and there are some really weird things on the list like swimming with sharks...God forbid!!

Luke finds the list, decides that he will help Sam realise some of his dreams, and carry on being a really good friend. What Luke doesn't realise is that Jeremy and Carole are only too aware that he's in love with Sam, and are going to do all they can to help him. Jeremy meanwhile is having teenage hormonal problems of his own, and to try and throw mum and dad off the scent and his secret 'meetings' with Suzy, pretends he is gay...with the help of his best friend Steven.

I'll leave this story there, it's a really lovely one, an ah bless one, and as to whether I get my Happy Ever After, you'll have to find that out for yourselves. Many thanks Anyta. x

3,25 stars

I liked this one. It was so sweet.

My first book by Anyta Sunday was a pretty good one: rock. Then I've read True Colors and I loved it too. When I dived in Leo Loves Aries I wasn't expecting the sweetness. This author knows how to create wonderful fluffy stories, but also angsty and sad ones.

Taboo For You was a fluffy romance. I don't usually enjoy rainbows and butterflies in my books, but when I love the writing I get to love the story too.

I was surprised by this sweet love story, mostly because I didn't expect to laugh so much. Clueless characters are not my favorites, but I liked Sam's naivety. And Luke, well he was hiding his feelings pretty well from Sam, but it seems everyone saw right through their friendship.

I'm all for a good slow burn romance, friends-to-lovers and GFY, so this one worked for me.

Wendy says

I have been going through my long long TBR list looking for great books that have gotten lost on there.

I have been reading some great Anyta Sunday books lately so I figured I would finally give this one a go.

This is a very sweet "friends to lovers" story, with a gfy element.

Sam is 29, about to be 30 and father of Jeremy, who's about to turn 15. Sam lost his virginity and got his girl pregnant at the age of 14, making him a dad at 15. He and his baby momma are not in a relationship, but they are still great friends though. They are co parents and Jeremy spends equal time with them.

Turning 30 is hitting Sam pretty hard. He never got to be a teenager and so all the stupid stuff that teenagers do, because he became a father at such a young age. He is going through his own sort of "midlife crisis" and he has even made a list of all the things he wants to do before he turns 30.

Luke is Sam's 36 year old neighbour and best friend. They have been pretty close of 7 years, but what Sam doesn't know is that Luke is gay and has been in love with him for a long time. After finally coming out to his family, Luke figures it's time to tell Sam the truth about himself. He also hopes he can maybe convince Sam to give him a shot, especially when he finds Sam's "list". It does have **Do something sexually taboo** on it after all.

He also wants Sam to have everything he wants though, so he tries to help Sam out wherever he can.

I really enjoyed this story and I loved reading about Sam's son Jeremy as well. This book has pov's, Sam, Luke and Jeremy's.

Now even though this book was cute, sweet, hot and even funny, I could not give it a full 4 stars. The reason for this is Luke and his secret. I really don't get why he waited so long to tell Sam. In my opinion he waited too long and took things too far. I get that in the beginning he was scared to come out and maybe push Sam away, but after or even before their first kiss...he should have told. He kept making excuses for himself and I didn't like that one bit. It started to drag and I just wanted him to get it out !!

Other than that, I really did enjoy this story. The best part for me was Jeremy though...His pov really made me smile ;)

Gigi says

Now this was an absolute *delight*! It is a great comfort story when you are in the mood for something calm and low key and emotional with being over-the-top. There are no car chases or gunfire or werewolves or

aliens. Just a hard working, decent down-to-his-bones young father named Sam of a teenaged boy named Jeremy who never had a chance to enjoy *his* teenaged self. They live next door to a lovely, generous man named Luke who has become a father figure to Jeremy and a best friend to Sam. With his 30th birthday approaching, Sam decides to make a "bucket list" of sorts and do the crazy things young people often do that he never had a chance to do because he was busy being a responsible father to his child. He wants to complete this bucket list in the 3 weeks before he turns 30.

This is a gay-for-you tale of the highest quality and with the biggest heart. Sam and Luke do not have to fall into bed right away to give the book that sexual payoff so many of us look for and love in our M/M romance. In fact, the sex happens quite near the end, but I hardly noticed, and I'm a tough customer when it comes to books with little to no sex in them. This book was more about family and love and it gave me the *best* possible case of the warm & fuzzies.

Highly recommended to all M/M romance lovers and fans of the GFY genre, this is a **must read**.

Thank you for the recommendation Eva!

DW says

So cute... I was grinning ear to ear while reading Taboo For You!!

Sam and Luke were just so adorable together as friends and then as lovers!!

◆*Arianna◆* says

First you have to know that "*Taboo for You*" is not a book with a forbidden theme or anything. The taboo here is being gay and that's it.

"*Taboo for You*" is a sweet and sexy friends to lovers GFY novel who tells the story of Sam and Luke.

Sam and Luke are neighbors, they know each other for seven years since Luke moved across the street. Sam became a dad when he was 15. All this time he was responsible, but he missed a lot of stuff. He's freaking out, because he is about to turn 30, but he decides to live a little so he makes a list with some things he wants to do before turning 30.

Luke is a teacher, he's 36 and he has a secret – he's not only gay, but he's in love with his friend and neighbor, Sam.

One day, Luke finds Sam's list and he steals it. He wants to help his friend with this to-do list and he wants to help especially with the last thing "Do something sexually taboo".

This was such a cute, entertaining story! I really liked the idea of three points of view. I enjoyed the storyline, even if everything is predictable with a premise like this. The main characters and the side ones are lovable and even relatable. I liked how they interact with each other and their relationships with each other.

I also liked the list and all the numbers.

The sex scenes are not too many, but they are hot and I liked all the sweet moments between Sam and Luke. I enjoyed the slow build relationship and the sexual tension between them is done very well.

I also liked the angst in low here and there's no stupid drama.

Overall, I liked it!!

Heather K (dentist in my spare time) says

Everyone has a type.

Some people love books that have established couples, some love enemies to lovers, some love sci-fi or YA or non-con. Everyone has something that makes them go, "*Yes! Yes!! 1,000 times YES! This book has my name all over it!!*"

That is what a gay-for-you is for me.

Nothing gives me that nudge, that feeling of butterflies in the pit of my stomach, like a slow build GFY. You can have your mysteries, your romantic suspense, your military men. Keep 'em, I don't need them. But a GFY... yeah, that is my comfort zone. **And this book was an adorable, scrumptious, beautiful GFY.**

I felt like crying I loved this book so much. I loved how Anyta Sunday made me *wait for it*. I don't mind dense MCs that need a conk on their heads to smell the roses. I want that tension, that hesitation. It is like food for my greedy, mother-f-ing soul!!!

Don't be confused by the title. **This book is only "Taboo" if you think delicious man sex is taboo. And if you do, why the F are you reading M/M, you nutter!** This book is sweetness all the way, a lovely friends-to-lovers story that reminded me in a small way of Bear, Otter, and the Kid.

A few warnings for you readers out there. This book contains sexual situations with a minor (a teenager gets it on a bit), but it wasn't anything I found objectionable. There are also three POVs here, switching from chapter to chapter. That being said, **I wouldn't change a thing about this book.** I think this author made some fabulous choices and for once, FOR ONCE, Anyta Sunday gave me some *ever loving sex on page!!!* I could kiss you, Anyta, KISS YOU!

So, in conclusion, if you like sweet GFYs with lots of tension and buildup, give this little gem a go. It truly made my day.

Kaje Harper says

This is a light, sweet, gay-for-you story that is just full of warm fuzzies. It's about two men, Sam and Luke, who are next-door neighbors. Sam had sex with a girl when he was 14 and by the time he was 15 he was a father. His son Jeremy is now 15, and Sam is turning 30 and wondering what happened to the life he was

supposed to have had. He loves his son dearly, but as he sees Jeremy passing the point where his own life went off the tracks, he's a little jealous, a little regretful, and determined to do *some* of the things he missed out on by not having a crazy youth when he should have.

Luke loves both Sam and Sam's kid Jeremy. Jeremy is like a son to him, after years of shared times, from neighborly meals together to adventures Luke secretly funded because Sam is always broke. (Don't let one odd moment of awareness from Luke about Jeremy near the beginning fool you. Luke feels fatherly toward Jeremy and there is no weird incest/age gap/whatever in this story. "Taboo" is a game, a challenge, not a content warning.)

The way Luke loves Sam is a whole different level. He's never made a move on Sam, never even told him he's gay, but he's been falling in love for a long time. He's just returned from 6 months helping his family back home, and that time away opened his eyes to how much he wants Sam and the boy to be at the center of his life. But after so long as just friends, he doesn't know where to start. The lovely, easy friendship they have now is very precious to him, and he doesn't want to risk it. However he's seen the list of things that Sam wrote up to do before turning thirty. And one item in particular might give Luke the opening he needs...

I really enjoyed this story. Occasionally the obliviousness of the characters seems surprising (particularly that Luke could guard himself so well for so long that Sam never guessed he was gay.) But it's fun, lovely, sweet, with the adventures of Jeremy to add some twists and highlights. A favorite and comfort reread, for sure.

Mandapanda says

4.5 stars. One of my favourite Anyta Sunday books. This is a sweet combination of *friends-to-lovers* and *gay/out-for-you*. Sam, father of 15 yr old Jeremy, has made a list of things to do before he turns 30 in a few weeks. His 36 yr old best friend and neighbour, Luke, accidentally finds the list and sets about fulfilling his wishes, especially the one about doing something taboo. Because Luke has been in love with Sam for years.

I love stories that make you feel like you've been on an emotional journey. And that's what this book did for me. By the end it felt like everything had come full circle with a very satisfying and romantic conclusion. I loved all the special elements, the list (view spoiler), the numbers, the whole fear of turning 30, and the great secondary characters and their little stories. Good to see a nice normal female character too.

I'm usually wary of a kid's POV in romance and was all prepared to skim through those parts but Jeremy was fun and natural and his perspectives were kept brief and served to push the main romance forward. Maybe his final romantic interventions were a little unbelievable but I was enjoying the book so much that it didn't bother me.

I have to mention the sex scenes. There's only about 3 of them but they were EXCELLENT! So full of tenderness and (initially) unspoken love. There's loads of UST in this relationship which I adore in my romance. (view spoiler)

Looking forward to the next book in the series! Just a question to the author though. Is this the first book in a new 'Friends to Lovers' series (which is the series name on my kindle copy)? Because the other books are listed in the 'Enemies to Lovers' series on Goodreads.

Kat says

I think the experience of reading *Taboo For You* comes closest to floating around in a warm bubble-bath. I had a serious case of warm, fuzzy feelings when reading this cute story. Considering that I usually only have a sweet tooth when it comes to food and not to my books... What can I say? The author did a great job. She wrote a heartwarming and amusing gay for you book -- and wrote it well! My cheesedar didn't detect much to bitch about.

Taboo For You in a nutshell: Two neighbors: Sam and Luke. Sam accidentally knocked up a girl when he was only 15 and has been playing the responsible parent to his son Jeremy ever since. But now that he is about to hit the 30, he can't help but think of all the kickass stuff he's missed out on. Like swimming with sharks and doing something sexually taboo... Luke, on the other hand, has secretly been in love with his straight neighbor for years and helps him out with his son where ever he can. There's only one problem: now that Sam's BD is lurking around the corner, Sam has decided to step up his game. Meaning that time is running out for Luke, who snatched a copy of Sam's bucket list and wants nothing more than to be part of his neighbor's taboo fantasy...

I already mentioned the cuteness of *Taboo For You*. So let me just add that, while this story gently flows on and is pretty much angst and heartbreak free, a lot of stuff happens. You will be entertained the entire time. I smiled on many occasions, experienced a few feels and rooted for the sympathetic MC's. The unreleased sexual tension (UST) is strong in this one too. UST mostly drives me crazy in a good way. As long as the tension isn't kept intact by artificial plot-devices and doesn't become too unbelievable (since Sam came across as the friendliest, but not the brightest bulb in the box, I'll give the author the benefit of the doubt here ;)). And as long as I'll get rewarded eventually, of course!

I'm not Mother Mary! Psht!

Rewarded I did get. Although I have to say that one of the sex scenes made me raise my cyber eyebrow. You see, it included a bar of soap going a place where I think bars of soap aren't supposed to go. And then it was used as a lubricant too? Ick! Seriously? Believe me, the last thing I want to do is chat about rectal suppository's here, but they kind of illustrate that everything you put in there is absorbed by your body reeally well...and I don't think your health will benefit from soap much?

Weirded out. Yeah, that's what I was. Weirded out that apparently no one of the mentioned beta readers and editors climbed on their soapbox because of this scene.

Something else I didn't like were the numbers. It's likely that it had something to do with the fact that Sam turned 30 and his kid 15, that emphasis was put on every single number in the text, by making it bold and 3 times bigger than the normal text. But the joke got old fast. And during certain scenes (if you get what I'm getting at), bold, inflated numbers have no business popping up. I suppose you can ignore them fairly easily though. Or crack up about them. Maybe it's just me thinking it was a lame trick.

All things considered, bubble-baths are pretty damn wonderful every now and then. And this one in particular will definitely put a smile on your face.

Anyta Sunday says

Yeah, so I'm working on Jack's story. Understood For Good (Love And Family #2)

This book has:

- romance
- family dynamics and shenanigans
- a lot of wood (er, in all senses)

July 2019

Eva says

Another GFY gem

I loved the characters and their relationships. I loved *the numbers* and the list. I loved seeing things from all three boys' POV. I loved seeing how the feelings blossomed...

I loved the story and ... gosh, the emotions... *sigh*

The whole **TABOO** thing and everything following the discovery was gentle, delicate and ... steamy.

Loved the ending.

Great book. Recommended to all GFY fans.

Line says

FREEBIE at the zon.com right now: <https://smile.amazon.com/Taboo-You-Fr...>

Anyta Sunday was one of my first (and favourite) MM-stories with her book rock, and this one followed not long after.

She writes oblivious MCs and slow-burn like it's **NOBODY'S** business. And Taboo For You is no exception.

So; Sam **IS** freaking out! He's nearing **30**, and his son Jeremy turns **15** at the same time.

Sam feels he's inadequate as a father, since he hasn't experienced the youth Jeremy is now set to experience, and to catch up and be a better father, he creates a list of all the things he should have done, partly to know what Jeremy is facing and partly to actually experience something.

Their neighbour Luke finds said list, and sets out to help Sam experience his **20**es.

Luke has been a part of Sam and Jeremy's life for **7** years, and he has done **SO MANY THINGS** for them that it should be clear to everyone involved, just how *in love* he is with Sam, but as these things go: Luke doesn't know how to tell Sam, and Sam is basically a **15** year-old stuck in a **30** year-old's body...

Completely oblivious to his own body, mind **AND** heart.

I have to say that I loved this story.

I'm sure some people might find Sam's obliviousness, irritating. But this resonated with me so hard, because it is not always **EASY** seeing what's right in front of you, when life and obligations get in the way.

I loved Luke's heart and I loved how completely *'selfless'* he was in regards to the needs of Sam and Jeremy. You could argue that his willingness to be *"taboo"* with Sam, without telling Sam of his orientation might be deceitful, but I think Anyta did a wonderful job of showing how Luke tried to tell the truth, while letting Sam 'drive' the *"taboo"*-part of the list.

Sam in turn made me smile so many times, because he was so fucking *'good-natured'* about all of his own crazy ideas.

No regrets! seemed to be his motto, and he just went with it, making me smile, and remember that sometimes, it's cool not to be so self-conscious.

Also kudos to Jeremy and Carole for being pretty spot-on representations (at least in my mind) of a teenage-boy and a decent mother of Sam's child.

This was not an OTT representation of happy-go-lucky-family, but a decent picture of people with their own worries and issues, while **STILL** being supportive.

As always Anyta writes with humour and warmth, and I loved reading Sam and Luke's story (again)... These two sure know how to turn up the heat, when they get around to it<3

Ami says

When you have a couple of friends, whom you consider as "part of tough crowd", give this sweet book 4 stars -- well, you tend to pay attention

I haven't read many of Anyta Sunday's stories before, in fact this was only my second of hers. The idea of best friend turned to lovers with addition of a teenage family intrigued me.

As an *only for you* theme, the transition of Sam from straight to be in love for his best friend, Luke, was totally believable. Maybe because they have been best friends for 7 years and Luke has been so deep in part of Sam's family, including like a second Dad for Sam's son, Jeremy. These two men were adorable! Their sexual tension was really good, and that massage scene?!? Sooooo sensual, I got tingly worm in my skin all

over.

Since I am also a fan of family or kids in my story, I also enjoyed Jeremy's perspective. I thought he was portrayed well -- a fifteen year old teenager who was on the verge of wanting to have his first sexual experience. The Golden Condom Rule with the banana made me giggle. I did think he was being slightly a brat when it came to his Mother's new boyfriend -- and I was a little disappointed that the issue of Greg was not solved -- but Jeremy was a good character, nonetheless.

Oh, and we also have a normal non-bitchy-non-villain female character, someone who is just normal and being in a good relationship with Sam, and co-parenting for Jeremy, and my heart was just shouting "THANK YOU SO MUCH ANYTA SUNDAY!"

I did feel that the issue with Luke hiding his feeling from Sam felt a tad bit too dragged out after awhile. Also, that emphasis with the numbers became slightly annoying to read. Since the title was about "*Taboo For You*", why did the numbers that get the spotlight?!? I didn't get it.

But my annoyance was nothing in the grand scheme of thing. It was a wonderful read and I guess I really should pay more attention to Anyta Sunday's stories next time :)
