Fairy Dust Elizabeth Laura Sutton

On the last day of school a substitute teacher tells the legend of the pink moon that occurs once every one hundred years. Paprika has always been magnetically drawn to the moon. Will she be the special child chosen to join the fairies on the moon? Discover the mysterious and magical secrets of the moon fairies and the legend of the pink moon.

Kshitij says

Really cute and fun. Great read. For little kids I mean. I wasn't reading this... my, umm... nephew loves it. Yup. Nephew.

Debra says

I won this book in a Goodreads Giveaway.

It was a cute book. I got it for a friend's daughter and will update this review with her thoughts and her daughter's reaction to the book after she reads it and gets back to me.
