Empress in Lingerie

Penelope Sky

Empress in Lingerie Penelope Sky

I'm Vanessa Barsetti, the daughter of the infamous Crow Barsetti.

My father taught me how to fight. If a man lays a hand on me, I'll put him in his grave. As a Barsetti, I'm proud, stubborn, and don't take nonsense from anybody.

I walk home from a bar and take the wrong path.

And witness a brutal crime.

The murderer won't let me go. He's handsome, lethal, and terrifying. With tattoos on his forearms and a presence full of threat, he's a shade of evil I've never encountered. And then he tells me the most terrifying thing of all.

His name is Bones.

Lauren says

Holy shit.

Like many others I've been a true and loyal Penelope Sky fan. I've read all the Button's books and The Scotch King series. I've read all Conway and Sapphire's books and before I picked up this book today, after finishing Lingerie #4 last night, I thought-- how much am I going to like this one....

...well dear god. Amazing. Absolutely amazing. I loved it! I loved loved loved it!

Screw Crow, Cane, Conway and Carter--I am all about some Bones #2.

For real!

I think this book is honestly one of the better books of all the Barsetti books, and I know I can't be the only one that thinks that. I was completely and totally hooked from the very first chapter and let me tell you why...spoilers ahead.

Like all the other previous books (Buttons and Lingerie) the men are always in this predicament where they have captured or somehow had a woman fall into their laps that is running for her life in some way. Pearl from Bones. Adeline from Tristan. Sapphire from Knuckles...and they have become these controlling guys who pretend they don't care but they really do (well Cane cared) ...but this shit was instantly different.

I love how Vanessa wasn't running from anyone or in any predicament where she was saved from someone who treated her vile so it would make her appreciate her capture more...she just so happened to be in the wrong place at the wrong time and so happened to be Vanessa Barsetti.

Difference #1

I loved that within, what the first chapter? They were already making out and it was hot... she put a bullet into his arm after he dumped a body into a lake and BOOM they were sucking face on the side of his van.--I wasn't expecting that.

Difference #2

I loved that Bones was going to kill her. He laid out the tarp, turned on the video camera, stripped her naked and held a knife to her throat, asking for her final words. Cane, Crow and Conway never did that, they may have been assholes but they never were about to execute their ladies.--so that was fucking awesome.

Difference #3

Bones is unlike any of the Barsetti men. He is actually very sweet. Taking her out to breakfast, cooking for her, face timing her, giving her a painting room, making her promises, comforting her and wiping away her tears, asking her what positions she wants during sex, and even giving her confidence CONSTANTLY....---ah I would fall in love too Vanessa don't feel bad.

The Barsetti men liked to hide behind closed doors and never really gave their woman much-- except for fancy clothes and a nice view--they kept them under lock and key. No you can't get a job. No you can't go into the city...and I am talking about at the beginning too. They were pricks..I am not getting that vibe from

Bones. I get that they both "hate" one another because of the blood war but this connection between them and how he treats her, I am digging it!

Difference #4

Wow. I am done. I am getting so worked up I can't even think right now..so I will leave with these parting words.

June 17th is ten days away and I will be on to the next book with pure excitement with my unanswered question---I will update you with my new review on what I think may or may not happen and my questions I want to know the answers to but for now I need to turn my mind off.

Natalia says

3.5 stars

2nd part of serie with Vanessa Barsetti story

Skipped the 1st part of the serie because Sapphire was TSTL, but Vanessa is her mother daughter and Pearl is one of my favorite character ever!

Vanessa is an independent woman, strong, resourceful and tough! Just a month after escape a kidnapping because of her brother dumb girlfriend (Sapphire), she is in the wrong place at the wrong time! Fate brings her face to face with the son of her mother greatest ghost!!

Bones, like his father is a hard, cold man! Afters his father is murdered by Vanessa mother, he and is mother where let with nothing and his mother ends ups in prostitution to pay the bills, she was killed by a client and he blames the Barsetti family for his childhood in the streets!!!

Vanessa is one tough cookie in the first time they meet she managed to shoot him in the shoulder without hesitation!

Bones is confused with such strong beautiful woman and ends up using her family to blackmailing her into being his "sex toy" since their attraction and sexual chemistry is of the charts!!!

The story drags a bit in this book i was just hoping that something actually happen! The push/pull was to much and to little story development!!

Chronique d'Audrey :

<https://followthereader2016.wordpress...>

ATTENTION SPOILER TOMES PRECEDENTS !

Impératrice en Lingerie raconte l'histoire de Vanessa, la sœur de Conway. Vous pouvez lire ce récit indépendamment des autres, mais vous seriez spoilés sur l'histoire (ainsi qu'en lisant cet avis). Un conseil : les autres tomes valent le coup !

Alors que Vanessa se remet de son enlèvement, elle va être témoin d'un meurtre... et embarquée par l'assassin. Loin d'être dégoûtant comme Knuckles, celui-ci est beau, viril et déstabilise complètement Vanessa. La jeune femme, pourtant très habile et formée par son père, n'arrive pas à s'en sortir face à cet homme taillé comme une armoire à glace (et avec la police dans sa poche).

Nous allons alterner entre le point de vue de Vanessa et de Bones, qui n'est pas insensible au charme de la belle italienne au caractère bien trempé. Pourtant, la vengeance est la chose la plus importante pour lui, il s'est construit autour de cela. Il pense que les Barsetti sont à l'origine de sa vie de malheurs, il reprend donc la guerre familiale et tuer la fille chérie de Crow et Pearl est un bon moyen de faire mouche à ses yeux.

J'ai adoré le personnage de Vanessa qui se découvre complètement dans ce tome. Elle est honnête, elle n'a pas la langue dans sa poche mais elle reste intelligente et souvent pleine de jugeote. C'est un personnage très fort qui forge l'admiration ! Elle est totalement lucide et fait la part des choses entre les réactions physiologiques du corps et le véritable désir. D'ailleurs, il se pourrait bien qu'elle soit attirée par Bones et son physique d'Apollon, d'autant qu'il est le meilleur coup de sa vie ! Il y a une puissante alchimie entre eux, qui les dépasse, elle est très bien décrite par Penelope Sky.

Bones, lui, est un grand malade. Le mot psychopathe est faible pour le décrire ! Rien ne semble pouvoir empêcher sa vengeance ... sauf Vanessa. Malgré tout ce que sa famille lui inspire, les actions et les paroles de la jeune femme le forcent à la respecter. Voire plus que cela ... Il va se rendre compte qu'il la désire, différemment des autres femmes qu'il a pu croiser.

C'est à celui qui arrivera à tuer l'autre en premier ... mais le souhaitent-ils vraiment ?

Les récits de Penelope Sky restent du Penelope Sky : nous frôlons toujours l'univers de la dark romance et du syndrome de Stockholm avec des scènes qui ne sont pas loin du viol. Néanmoins, j'ai aimé son univers et ses personnages toujours très riches et travaillés. Moi, petite fleur bleue, j'ai totalement succombé à ce tome qui m'a fait ressentir mille émotions ! Elle a su mettre l'intensité qu'il fallait pour nous tenir en haleine et complètement nous captiver. Vanessa a une force et un cœur incroyable, je me mets à rêver d'un happy-end avec le torturé Bones ... Vivement la suite car c'est un coup de cœur pour ce tome !

Toni K. says

Love this book and this series. But....

Six chapters....really? This is expensive for six chapters that leave a reader hanging. I had rather pay more a get a real story.

Penelope is an extraordinary writer. This book is an example of that. It is dark, and hard to believe, but then it is fiction. Vanessa is an extremely strong heroine who in spite of herself, succumbs to attraction that is terribly wrong. Bones Jr. is a troubled, dangerous psychotic man. We know that, somehow, Vanessa will redeem him after a lot of hot angst.

10 *s if you gave us more at a time.

I waited until the Buttons series was finished to read it. Conway and Sapphire's story was almost finished when I started it. I promised myself I would not start Vanessa's until it was finished, yet I did and find

myself very frustrated.

Penelope you are a fantastic writer, yet I am afraid you lose a lot of readers because you drag out the stories.

Elizabeth Roth says

There are seriously not enough superlatives to describe this book. I thought the Button books were great, then I thought the Lingerie books about Conway were great. This one tops all of them. You can feel the angst that Vanessa is going through. You can feel how torn she is in so many different directions. The lines between good guy and bad guy are totally blurred. I found myself even feeling sorry for and attracted to Bones. He is just as torn as Vanessa is and neither one of them is able to see a way out. The only way they can see is the one way that neither of them is able to take. Not just that they don't want to, but that they are physically incapable of. I am in awe of Penelope Sky. I can't wait for the next! I want to know how they are going to get out of this situation to their happily ever after. I find myself so into the story that I am having trouble seeing a different solution.

Jeannette says

This is the 5th book in the Lingerie series and like the rest it left us wanting more. In this book Vanessa is taken by the son of the man who killed her aunt. Vanessa is her father's daughter so she isn't afraid of Bones. It's clear to see the love/hate relationship between those two characters. I would have loved the love connection more if the name Bones didn't leave a bad taste in my mouth. That monster wasn't a man and I just don't see the difference between him and his son. They are both cruel and I hope they share the safe fate in the end. For the first time Penelope gave us a strong woman who could take care of herself without the help of a man who treated them badly then fell in love with them. Vanessa is a woman who knows her own strengths and she uses it when necessary. This series is getting better with every book. Penelope Sky delivered another work of art. I only wished it was longer. I can't wait for book 6.

Blonde&Blue says

Empress in Lingerie is the latest release in The Lingerie series except this time this now follows the story of Vanessa Barsetti (daughter of Pearl and Crow, sister to Conway) and her tumultuous relationship with Bones, (son psychopath in the Button Series 'Bones').

Straight from the first page I loved Vanessa however my feelings for Bones were off and on, with his decision on staying on the path of revenge, but even at the moments of when I hated him, I have to say I think I might even favour this toxic couple to Conway and Sapphire...

This book is filled with revenge, hearts at war with themselves, sensual moments that might make you need a moment to cool off and an ending that leaves me excited to see what happens next in Fantasy in Lingerie! Highly recommend to fans of Penelope Sky and of hate/love romances!

Braveheart says

Vanessa and Bones , this book is crazy good but the most abrupt ending . You are simply left hanging makes me wonder what is really going on. They both want to kill each other but the sexual pull between them , is too great , they just can't . It's a very complicated relationship , Bones has most of the power but Vanessa wants it, she wants to protect her family above all else , Bones threatens to wipe her family out as justice for killing his Father and turning his Mother into a whore . He controls Vanessa totally by having this power over her . Bones asks Vanessa to paint a portrait of herself for him and she does , then realizes he wants it was a remembrance and she decides she must kill him but is unable to pull the trigger.....slowly ...very slowly they are obsessed with one another and falling in love

Lory says

I tell you this series just keeps getting better and better. Vanessa is the epitome of all things Barsetti and just as strong as her mother Button. I have to say I'm addicted to Bones and Vanessa story. I'm not sure how I'm supposed to feel about their ordeal but in some strange way their love-hate situations fascinates me. A part of me is kinda rooting for them I want them to work it out. I mean we already know that's it's going to be messy and nothing good can come out of there relationship. Also was I the only one getting strange vibes that maybe that Vanessa dad has a idea on what's going on with her I felt like he was talking in code but she wasn't getting it. Anyways I'm super excited and anxious to see where this are going to go from here between Vanessa and Bones. When that ball drops and her family find out what's going. Overall enjoyable and entertaining read. I voluntarily read and review this ARC no monetary compensation was received the opinions I have expressed are my own.

Donna Wilson says

Penelope Sky caught me completely off guard with this new installment to the Lingerie series “Empress in Lingerie. We are now talking about Vanessa Barsetti, the daughter of Crow and Button’s and sister to Conway. In the last book she had been held captive and saved by her own tactics and her mother desire to save her daughter.

Our new character is Bones, son to the man that kill her namesake/aunt Vanessa and brutalized her mother Button’s. His father’s death left him and his mother with nothing having her die at the hands of a client when she was trying to get enough money to support them and buy him a toy for Christmas.

He hates her and all her family. She hates him because even though her heart sympathizes with the horrible things that has happen as she says, “Get over it”. Of course, he can’t and wants to kill her but can’t do that either.

Stockholm syndrome, maybe, but I see love, great sex and mutual respect. I loved this book. I was not cookie cutter and brought something different to the series.

It has been an honor to belong to the ARC group for Penelope Sky’s books. I love her writing and the smoothness the stories flow.

Dora Koutsoukou says

4,5 ?????????s♥♥♥?

Wonderful!!!! Barsetti vs Bonus!!!! ?????

GLNBooks says

Wow. Okay...where to begin? This book. Man THIS book. You know how you start some books and you just KNOW that they're going to be ones you never forget? Like, you're just reading along and then...bam!...it hits you that you're reading greatness? Well, that's how Empress in Lingerie is. The book grabs you from the very first page and doesn't let you go. This fifth book in the incredible series by Penelope Sky begins the story of Vanessa Barsetti and Bones. Their story is one that I've been looking forward to the most since it was announced that the Buttons series, also by Ms. Sky, was getting a spinoff. (While you don't have to read the Buttons series to enjoy this one, I'd highly recommend you read it as well. It's one of my all-time favorite series.) Man, this book did not disappoint!!!

After witnessing a murder, Vanessa is taken by the mortal enemy of her family, Bones, and from the moment these two meet, it's undeniable, inexplicable fireworks. Vanessa's spirit matches Bones's malice inch for inch and they find themselves blurring the lines between hate and passion, attraction and annihilation, and ultimately, life and death. The inner struggles both Vanessa and Bones face in light of such combustible erotic energy will leave you empathizing with and rooting for, albeit in very different ways, each of them. There is a seemingly impossible connection, yet it's undeniably there. We also get a visit with the rest of the Barsettis, as Vanessa comes to terms with the long-held truths that her parents have hidden from her.

I could not put the book down and this one is, by far, my favorite yet in the Lingerie series. Penelope writes in such a way that you feel a plethora of emotions for her characters. You relate to them. You hate them. You love them. And you love to hate that you hate to love them. Who is a true villain and who is a true hero? Can a villain become more? Must children always pay for the sins of their parents? Penelope will make you questions all of this and more in this explosively charged fifth book in the series. I truly am counting down the days until the release of Fantasy in Lingerie, as I MUST read more about Vanessa and Bones. They are both volatile and passionate and theirs will become a love story for the ages. This is where it begins. You don't want to miss one of the best books of the year so start reading. Now. Trust me. This one is NOT to be missed!

Sharon says

I can't get enough of these Barsetti's! This is book 5 in the next generation and this book starts a new couple...sort of. The main character is Vanessa who has appeared in the prior books as a side character, but this is her first true book. I still advise it is good to know the background of the prior books as it does have spoilers for the prior books.

This story is so unexpected. I mean we should hate Bones, right? But somehow we don't. Can I dare say that

I'm hoping Vanessa stays with him?!?! Yes he is dark and twisted, but considering his past you can't blame him. There are a few times that you think it's going to be the end for one of them and there is still a lot of conflict between them even though they are clicking in the bedroom. Overall it was a rollercoaster ride and it kept me turning the pages.

I am on the edge of my seat to see what happens next.

Monique Marshall says

This book has me drawn in!! This whole thing with Bones is crazy! Did Conway and Carter really not think that he would try and avenge his father?!?! Or why not continue to keep eyes on him at least after finding out he existed?!?! I've been torn as I read the book - do I want Vanessa to kill Bones? Or better yet, her family find out about him and kill him? ...OR do I want their relationship to turn into something more and the blood war finally end?!?! Their whole relationship is crazy, stupid, and severely dysfunctional, yet enticing, smoldering, electrifying and erotic all at the same time! I'm trying to figure out how she could be so attracted to and obsessed with someone who keeps saying he is going to kill her, and who speaks constantly of murdering the people she loves the most! I am in suspense, waiting to see what will happen next!! I can't wait for the next book!
