Bolt Saga: 3 Angel Payne

Bolted...and bonded...

Happily ever after is a much different experience when the whole world is along for the ride—especially when life is racing at Mach speed and the prince is a real-life superhero. But Emmalina Crist is doing her best to keep pace ever since being swept off her feet by the charismatic Reece Richards, bad boy billionaire turned world’s most electrifying superhero.

She’s the most envied woman on the planet, but also its most confused. How does life ever return to “normal”? She’s captured the globe’s most renowned bachelor and she’s the media’s new darling because of it—but thanks to the Consortium’s relentless pursuit, the idea of losing Reece at any second is her new reality.

There’s no instruction manual for dating a superhero. But when a girl is bolted by true love, she must find the courage to reach beyond reality, expectations, and even herself, in a fight for the ultimate power. Everlasting love.

Holy cow, this chapter is seriously HOT! Reece is the epitomy of alpha male and the telltale glow. OMG! His actions continue to tether Emma to his side, but Reece is soon to find out that he has met his match because his "bunny" is a badass all on her own!

Mary says

Solid 4 stars!

Ok, here is the thing.... This story has superheroes in it. I wasn't sure if it would work for me, but IT DID! Reece AKA Bolt.... He is a handful and couldn't care less about responsibility until his wicked ways caught up with him! A secret agency takes him and experiments on him and now he has changed. His life has been laid out before him and he feels that he has to do better so Bolt is born. Bolt has super powers due to the experiments and he turns into the cities hero!

Emma wants to rely on no one and work to pay her dues. But, Reece and her instantly ignite their passion and there is nothing they can do to stop it. Emma helps balance Bolt's outgoing personality.

I hope we get to find out more about this secret agency and can see more character development between Reece and Emma. There is so much potential for them! There is a LOT of hot sex in this story! Get ready to get Bolted!

Angel, I am so in love with Bolt!!! Bolt Saga: Part Three was another great read by Angel Payne. Now that people know who Reece is and that he is with Emma, things change drastically. It isn't always good either. I absolutely love the way that Reece and Emma are growing as people but also as a couple. This was a great read and I can't wait to read more by Angel Payne!!! Love it so much can't wait to read part 4

Krystal Lambert says

Love the way it ended. Cant wait to start next one.

Belle says

Reece announces to the to world that he is superhero Bolt and proclaims his love to Emma! They try to lead a "normal romanatic" life as Emma continues working at the hotel and Reece goes off doing more superhero stuff! As they both know the bad guys are out to get them, Emma worries about losing Reece but Reece plans to retire and gives Emma something special that makes her happy. It's great knowing they are so happy with each other and I wonder what Angel has in store for us on the next part.

Bellereader says

Reece and Emma have sparks flying with their wildly sexy, funny and intriguing HEA! Emma job at the Brocade was one that she needed to prove to her family that she was more than just another pampered OC trust fund kid. She wants to make it on her own and working the night shift at this luxury hotel is going to be the way to do it! She never for a minute expected her life to turn into an amalgam of a Harlequin romance and a Marvel Comic - but all that changed when she locked eyes with her boss Reece Richards. Reece was a cavalier reckless playboy until one fateful night led him astray. The circumstances would forever change him and now he sits and waits for his demise while occasionally making amends for his reckless past behavior. When Emma Crist walks into his life he knows it's just one more glimpse of a life he cannot have and he really does try and stay away from her but the pull of her is just too strong to ignore. Reece will give anything to have Emma forever but he won't risk her safety and the people that changed him are dangerous. Can this Superman have his cake and eat it too?

I voluntarily read an advance reader copy of this book

Thank you for giving us a small break from all the action packed hero saving, ass kicking, electrifying hotness for just a fraction of a second! While this book was just as hot as the other, this book does slow on the action giving your brain time to comprehend the previous amazingness!

Struck by Lightning...

Offer me a story that is sci-fi, has a Super Hero dressed in leather and a mask and is 100 Shades of Hot, and I am jumping on that train in a heartbeat.

Reece Richards is much more than the head of one of the most cutting edge hotels in L.A. He sheds his 3-piece suit for a super hero ensemble when low life criminals call. Up to this point he has had no choice but to accept this life of isolation with no hope of ever having a chance to find someone to care for or fall in love with. That is until Emmalina Crist.

Emma works at Reece's hotel and is smart, savvy and has a spark plug personality. Reece and Emma share an electrifying night of passion that changes both their lives and rethinking everything they have ever believed in. When together they make a very powerful couple and a force to be reckoned with. Angel Payne has made this closet dweeb full of anticipation to find out more about Emma and Reece's future adventures together.

I was a little worried that I wouldn't like this book because I am not really into SuperHeros. But I loved this book!! Angel Payne really knows how to write a book!! Reese(BOLT) and Emma are great together. I loved how Bolt was trying to rid the town of lowlife scum!! Emma works for Reese in a swanky Hotel and they end up falling in love!! I can't wait to read the next installment of this series!!

Wendy says

I had already read Misadventures with a Superhero so I was pretty sure I was going to love this one too. Emma works at one of the hottest downtown LA Hotels which happens to be owned by Richards Resorts and managed by Reece Richards. There is chemistry between these 2 from the very beginning. Reece was kidnapped about a year before and used as a science experiment for the Consortium. His body now has electricity running through it that he can harness and use. He is hoping in his spree to stop criminals that someone will kill him. He has a playboy reputation but no one seems to realize he has changed. Emma knows that deep down Reece is a good man but can she make him believe it. The beginning of the book is from Misadventures with a Superhero. Angel took the original book and gave it more details and a bigger storyline.

If you love hot sexy superheros then this is the book for you. I loved it and am looking forward to the rest of the story. I highly recommend this fun read.

Bethany says

Reece and Emma what can I say. There is just something about this book. It is awesome on so many levels. I am a super nerd girl so this satisfies all the nerd girl in me. But the mix of the super hot sexiness and the super heroines is beyond epic. All the characters are well written from our boltilous stud, the finding herself lead female, the bantering coworkers, even the tourists. I have been able to read this book 5 times and I catch new stuff every time I am able to pick it up. I can't get enough and I am on pins and needles for the next part of the saga. Will leave you with a fav line that helps set the tone for how Reece thinks:

The angel I trusted to take me to heaven has instead handed me a pass to hell.

Buckle up buttercup because you're about to get bolted.

Phuong says

In this installment, Reece reveals to the world that he is "Bolt" and that he is in love with Emmalina! Both of them are working on their relationship while Emma continues to work at the hotel and Reece does the superhero thing. Their relationship continues to grow and they are both happy with each other. Emma, deep down, is scare that something will happen to Reece and he won't make it out of a situation alive, especially since they both know that the Consortium is after Reece. Reece makes Emma's dream come true when he does something special for her and then also wants to "retire" from the superhero business. I can't wait to find out what's next for these 2 people!

She Abshire says

Shock and surprises are in store for Emma in this segment of Bolt. Reece is doing things she never believed possible and making her see that even if he is not kicking serious bad guys butts he is still every bit a Superhero! As they try to figure out a new way to just be they are growing and expanding as individuals. Giggles and passion lead the way to these new adventures in their lives.

Note: I read all three parts in an ARC prior to release.

Amanda Taylor says

Wow, this series just keeps getting better as the books go on. Can Emma and Reece overcome the pressure that Reece has placed on them? You cant help but find yourself hoping that they overcome this like they have so many other obstacles. This book will leave you on the edge of your chair reading from start to finish. It doesnt disappoint either between the adventure, drama and sex... its another swoon worthy story

Amanda McCalip says

My expectations for this book were HIGH, and I was NOT disappointed! Angel Payne absolutely slayed this book and I cannot wait for the next installment! Reece Richards is a rich playboy by birth, turned Superhero by a case of being in the wrong place at the wrong time, or was it? Bolt had me turning pages as quickly as possible!

Emmalina (Emma) Crist is running from a life of privilege so she moves to LA and takes a job as a Reservations Manager at Hotel Brocade. Reece just happens to own these hotels. Reece and Emma meet while working and it is like SPARKS, INSTALUST, WOWZAAA, KABAMMMM! (Seriously it is!) I have absolutely enjoyed following Reece and Emma's journey together and cannot wait for the next installment.

Bolt comes from The Misadventures With A Super Hero book from the Misadventures Series. I had read the Misadventures version first and was hooked! Angel Payne is rocking the Bolt Saga and I need more!
