## From Reader Review Nyankees, Vol. 1 for online ebook

### **Bentgaidin says**

A cute little manga about street cats depicted as yakuza gangs. A little disappointing, in that the plot's pretty thin, and they more often act like yakuza who are occasionally drawn as cats -- most notably, there's only one woman, and she's the tiny token girlfriend rather than being the one who runs things while the boys hiss and swipe at each other. (My experience with barn cats has been that the ladies form a group together, with the boys being accepted or wandering off based on how well they can behave in the existing order.) Also, none of them are cuddly enough together; I really wanted to see yakuza grooming each other. So yeah, right now I probably won't buy the second volume, but I'll at least take a look at it when it comes out -- who knows, maybe they'll introduce a girl gang and redeem themselves.

### **Rita Mar says**

Hilarious and totally out there premise with a good flavor of characters. Story is kinda simple but doesn't mean I didn't enjoy it at all. This manga literally combines my two favorite things, cats and the Japanese delinquent trope ??

### **spacecowboytx says**

The first thing that drew me to this was definitely the art style, I had never heard of this and had a blind date with this book.

And boy was it a good date.

I love cats and I love cats that's are shown as street thugs.

This takes me back to GTO and very popular classic tough guy story.. something that's seasoned manga fans will get!

Quick read, smooth panels and I look forward to future volumes.
