I gotta say that I love Kenzie. From the start she trusted her three mates even before she knew how important they were going to be to her. And those three have always been there for each other. But now they all must choose to accept the bond or not. How do they fit together? Can they handle their pasts and can she? Add in an unknown and known enemy and you have plenty of action and detective work. Things will also start to heat up as feelings become clear.

#### **Foxing amazeballs!!**

I LOVED this book so hard. Awesome follow up to book 1. Full of character depth, emotion, mystery, snark and hot, hot MF and MFM (and even some MM themes) scenes.

I really liked how the book picked up where we left off and had a very reluctant Kenzie moving in with her foxes. Through more mysteries, trials and magical messes, they 4 of them get even closer to accepting the mate bonds. I seriously cannot wait to read more from this series and author!

#### **Can't wait for the next book!**

Slow burn with enough twists to keep you spellbound! 3 mates? Yes sexy fox shifters who offer Kenzie a future of fun, gaiety, and love. Great book .. great author ..

#### **Yes! Yes!! Yes!!!**

Action, intrigue, and hard fought love.

This book was so good. The plot clips along at break neck speed and never lets you go. I finished it in one day! The steam this book packs draws you into the chaos. The twists in this book are as surprising as they are refreshing. I only wish book three was out now because the wait is going to be killer.

### **Mind blowing!!!**

It's an understatement when I say this series keeps getting better and better. This second book was mind blowing! Totally blew me away with the twists and turn of events. I don't know if it was just hormones, but I laughed, I cried, and I held my breath at almost every turn. Let's not forget the romance is definitely hot and spicy.

I can't wait to see what happens next with the new development. I wish there was more of Gram Gram too. I like her. She's funny in a no nonsense kind of way. Also, I can't wait to see how things unfold between Kenzie and Hunter. The next book can't come fast enough!

#### **Oh. My. Goodness!**

This book. So dang good. I enjoyed the first one, but this, this one just has left me feeling some kind of way. It started off the fun, lighthearted read I found book one, For Fox Sake, to be, but then it dove deeper. Deeper into the guys' past, deeper into thoughts on forming relationships and why they held those beliefs, but mostly just deeper into the feels altogether. And that ending!!! I can't wait for this next installment and find this absolutely deserving of five big stars

#### **This Chaos is Hot!**

I am loving this series and these Fox shifters are HOT as Hades. Kenzie is one seriously amazing character, she's strong, resourceful and smart as hell. I can wait for the next book to come out because these sexy men know how to have some steamy fun in between all the chaos and danger.

I read this one because ... the author did such a good job on the first one. The plot-line was continued perfectly, even though it took me about 15 minutes to catch-back-on what was happening. I love the characters even though I had to jump past some of the action. The story still fascinates me. I will read the last book in this series because I want to know how everyone fairs. I recommend this book to everyone with working legs.

#### **Heartwarming**

There is something heartwarming about this universe - a softness even amongst the chaos and pain that surrounds it. I noticed it with Alpha Wolf and Broken wolf, and the same holds true here with the foxes.

Charming, really.

Pros:

- sweet yet undeniably sexy.
- flows well
- Hunter, I just love him.
- the big reveal, took me off guard, I was expecting something else.
- Can we get Samuel's story next?
- good exploration of emotional pull

Cons:

- felt a bit short?
  - these can be read without reading anything else in this universe, but it may help a touch.

I'm working on writing my review right now. It will be posted here sometime after release day and after it goes live on my blog. I am absolutely loving the foxes.

#### **A FANTASTIC sequel!**

Book one was fantastic... book two surpassed my expectations! It picks up right where book one left off with Kenzie moving in with the foxes as promised and continuing to try to take down Brad. There are a few questions left hanging at the end of the story that I'm sure book three will pick up and answer for us. But I love the chemistry of the foxes and finally getting a better inside peek at hunter and his chaos! Plus — hello! — the sexy times and playful banter are amazing!

### **RH & Romance Review says**

This is the second story in Kenzie and her foxes' tale (ha). Kenzie is moving in with her guys, and they are carrying on with the plans from the last book (trying to avoid spoilers, sorry it's a bit vague!). While there is action in this book, it's nothing like meeting Kenzie in the middle of a heist, like in the first book. To be clear, it is in no way lacking in action. It is much more developmentally key, this book. We get to see how Kenzie settles in with the foxes, but we also get to find out so much more about Ash. Finnick is also still there, being Finnick, and we get to find out bits more about Hunter, but this is definitely Ash's time to shine, and boy, does he. This book has everything - there's action, there's emotion, moments of slice of life, sexy moments with all the foxes, and twists. Holy crackerjacks the twists. I did not see the coming, not really. This was a fantastic and entertaining sequel in an ever-expanding book Lost Girls universe that I have fallen in love with. I cannot wait for book 3, but also the other stories that are due to take place in this universe.

## **Dharia Scarab says**

Great start to the series. Love that it's set in the same universe. Characters are well developed and interesting. Can't wait for the next book in this series.

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more, But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

### **Little Bit of Chaos**

I had forgotten how much I like the world these books are set in but it really is an interesting place. I enjoyed seeing some of the bigger picture come together in this book, especially where the demon godfather is concerned. All the characters are well written and quietly loveable, too. Overall, this was a good, worthwhile read.

## **Kayla Pipkin says**

I was pretty excited to see that this book was releasing so soon after I had finally gotten around to reading the first one.

I was instantly hooked and I wanted to read more about this trio of foxes and their non-witch witch mate. And poor I wasn't disappointed with the second book.

Kenzie's sister is fading fast, her powers being stripped causing her body to fail.

In an effort to save her, she makes a deal-two of them actually.

One with her trio of foxes and one with the Alpha of the West Coast Pride.

Each want something from her that only she can provide.

This story is also action-packed and full of budding romance.

Focusing on a different mate this time though.

We still see her relationship with the other two, and watch those grow, but you learn more about one in particular.

His story is a sad one and I'm not going to lie-I shed a few tears during the retelling of it.

It is so heartbreaking, as well as soul-crushing when you hear it.

To me at least.

I loved watching the relationships grow between all of them.

And we even see two of them accept their bond with Kenzie.

It's after a life-threatening attack, but what more could you expect?

That's how their relationship seems to work.

There is so much going on in this series.

So many attacks from different sides.

It's crazy.

But I love seeing the guys and Kenzie work together to solve all the problems.

I can't wait to see what is in store for them in the next installment.

Overall, this is a fantastic read.

I would definitely recommend others to read it.
