Keep Me Going : An Office Romance

Mia Ford

Keep Me Going : An Office Romance Mia Ford
Seattle meant safety. A new start for me and my little girl.
I didn't anticipate falling for a new guy.
Especially not my boss.

It was the dream job - in a city miles from my jerk of an ex.
I just wanted to get on and work, make a fresh start.

But Alex is the kind of guy you can feel in a room.
Perfect body, dark tousled hair just begging for my fingers to entwine in the curls.
Sultry blue eyes that send electric shocks to my core.

Nah-ah. We're not going there, girl.
I've got baggage - the perfect kid... and her abusive dad.
I don't need the complications of an office romance.

But... what if this man is my future?
When things get tough he picks me up.

When the calls start, and danger stalks me, will his love keep me going?

Really like Mia Ford books but this didn't do it for me, seemed like it was hurried up and be in relationship, but there was no substance at all with the characters. You really didn't know that Soledad had a past.

Melissa says

Not the Best!

I can't say that I was a big fan of this story. I really wasn't a fan of the writing style to begin with. And I also wasn't a fan of having unnecessary ow drama, it wasn't necessary. Alex has a ons after he apparently already met the h. Soledad overhears him talking about it to a friend. He then uses a former hook up to get Soledad a place to live who she has to meet and converse with. I just didn't feel a connection between the two, I didn't feel their chemistry.

This story is safe. Their are no scenes with op. It is a romantic suspense and their is drama from h's ex.

Tiffany says

If you like instalust/instalove storylines and boss/employee office romance storylines you will likely enjoy this one. Soledad and Alex have some good chemistry, it is well written, with some drama and a stalker ex. Overall, I thought it was a good story and enjoyable.

Soledad and her young daughter Lindsey are living in a hotel in Seattle after leaving their hometown to get away from Soledads ex.

Soledad gets a job with an advertising company and we meet Alexander her hot player of a boss, being an office romance book it all starts from there.

Of course even office love doesn't run smoothly so there has to be a few hurdles which come in the form of the dreaded Ex.

There was some elements of the book didn't quite gel with me.

I liked the character of Rosie and her relationship with Sol, Alex and Lindsey, maybe the time scale of their relationship was a bit off at the beginning of the book tho (I wouldn't be that close and leaving my daughter with someone after only 2 weeks of knowing them).

Also I felt like a lot more of Soledads past relationship could have been explained in more depth the exact kind of things he did to scare her, her emotions at that time etc rather than her just explaining briefly why she left town and that he scared her. She told different people throughout the book about there relationship but

we didn't actually hear it, was more just I explained to Alex all about my past or I told the police all about my past while Brent listened on etc

Apart from that I did like all the characters in the book and their relationships with secondary characters Alex and his friend Brent, Soledad and her friend Millie and Alex building a relationship with both Rosie and Lindsey.

I received an arc of this book for an honest review

Another great story by the infamous Mia Ford,,,,, another bullseye,,,,

23 year old Soledad Fleury has just moved to Seattle with her 4 year old daughter, Lindsay,,,, she is living with a fellow intern Rosie, who is older than Soledad,,,,, she finished her degree in University in Ad work and now, she's got a job interview with an up and coming successful ad agency,,,, her mom and step father life in Oregon, not far from Seattle,, when she was pregnant her baby daddy abandoned her before Lindsay was born,,,,, he was verbally and at times physically abusive to her,,,,, she left Keith and ran to somewhere he wouldn't find her,, but it never works out like it should,,,,,

33 year old Alexander, "Alex" Callahan went to college in Chicago but moved back to his hometown of Seattle Washington,,,, He bought this ad agency with his trust fund and has made mega on it from there,, he hires good staff and they work hard for him,,, then he meets his new assistant, Soledad, and he starts to feel things he hasn't felt in years,,,, he has a mother and a sister Allie, 22,,,, now, he needs to take things slowly as not to scare Soledad off at the same time protecting her from her ex,,,,,

I really enjoyed this book by Mia Ford, I didn't want it to end,,,,, I would very much recommend this book to anyone,,,, !!!

I had high hopes for this..... It was terrible. Too cheesy. I hate insta love. There's no natural development of feelings. The story was too rushed and boring at times. The plot was kind of all over the place. Too much stuff going on, but nothing really happening at the same time. I find it hard to believe that some billionaire dude who never had the inclination to date a woman with kids or have kids, to be so quick to play daddy.

Ehh

It was okay, nothing special or touching. He & a panel interviewed her, he was attracted yet that same night he spent f*** someone random. Next day thinking how meaningless his friends are when spent f*** around. How he wants more meaning, hear the hypocrisy yet? Simply put found him distasteful, he was just hours ago with another & now lusting after her. Ewww, really who wants a contaminated person who was just in a stranger's bodily fluids. But that is just me, dislike those type of persons; for whom sex is meaningless, who are with someone else constantly. So in her part, she was strong; a single mother doing everything she can for her child. But fell way too quickly into his bed. The story ended good, he proclaims to love her & her child. He protects her & wants only her & they HEA.

This is a beautiful love story about an successful alpha sexy man, Alex and Soledad his new Personal Assistant and single mom. Sol moves to Seattle to work in an Ad Agency to get her daughter, Lindsay away from her ex who has been abusive and a stalker. Once Sol starts working for Alex their attraction to one another is off the charts. Alex finds he wants to change his playboy ways and feels something special between them. Sol is worried about working together but Alex sets her straight telling her not worry about it! Alex takes to Lindsay and becomes very protective of them both. There are some unusual calls to the office and they increase with threats and Sol knows her ex is back fearing what he will do. Once Alex finds out he moves the ladies along with Rosie an older friend who watches Lindsay. Alex will do whatever is necessary to keep them all safe and to end the threat he brings. With the support of family they continue to protect everyone and once the threat is removed they discover how to become a complete family and to move on from the trauma that hit them. Soledad is a single mom trying to make a better life for her and her daughter. She moved to a new place because of a possible job and when she got the job everything started looking up for her and her little family. Alexander hired Soledad because her work background was amazing and he knew she would be a great fit with his company. However he didn't count on how hard it would be to fight his attraction for her. Even knowing about her little girl didn't stop him from wanting her. The more they are together the harder it is not

to give into temptation. When they starts seeing each other Soledad thinks that this move was the right ne to make. However when someone from her past reappears will it end things between her and Alexander? Can Alexander protect her from the threat?

This is a great story and once I started it I couldn't put it down. The chemistry between them is off the charts hot. This is a well written and very entertaining story. I would recommend this book to any book lover.

This was a great story. As always, I love a good story that involves a kid and this one didn't disappoint. This book focuses on single young mother who is determined to do right and knows when it is time to move on. Soledad ran from her hometown with her daughter of 4 years to Seattle to start a new life. She looked for a new job and within the panel of interviewers, was Alex. He was taken by her beauty and knowledge, and now she was offered the job, she would his new assistant. I don't believe Mia has ever delivered a story without a HEA, so you know this one is no different, but I won't give out much details so that you enjoy reading it but note that someone ends up in the hospital as there is drama and action involved.

I typically ask for an epilogue; but honestly this one doesn't need one. Mia did a great job ending this story, but I hope there is one with Brent and Alex's sister.

Soledad escaped a bad relationship with hopes of finding a new place to call home with her daughter, Lindsay in tow. Living in a cheap hotel while trying to find a job was challenging; however, she was fortunate to meet a woman who she adored and was willing to watch her daughter.

When Sol interviewed for an advertising company, she was fortunate to get hired. Things were looking up. The only set back was her boss, Alex. Sol was drawn to him which went against all her morals.

Alex was in a tough position. He was impressed and intrigued by his new hire. He was drawn to helping her find success, especially after finding out she had a child and was living in subpar living conditions. Little did he know he would fall helplessly in love with this girl. At first he tried to keep the relationship professional. When that failed Sol and Alex tried to be discrete. It wasn't until Sol's ex showed up wanting to kill her leading to problems.

Could the couple survive all the problems? Would Alex get fed up and move on?

Keep Me Going by Mia Ford.

I gave this book 5????, I wish I could give more.....OMG! it was just mouth watering, hot body fever FABULOUS. I loved everything about this novel, start to finish! I was sad when it ended, I wanted more...lol.

When Soledad goes into her interview at the advertising agency that is owned by the hot alpha billionaire Alexander, they both try to fight their crazy attraction for each other, because they will be working in the same company closely together. It's a lost cause inbetween the fiery chemistry going on, and Alex`s alpha protective maneuvers they were meant to be a hot couple with this cutest little girl in the middle . The only dangerous obstacle in the road for all of them, is the crazy ex who was very abusive toward Sol....that's who she has been running from the past 3+years, ever since her sweet daughter Lindsay was born. She is running for her life, trying to starting a fresh new life for herself, and her daughter in Seattle.

This book Will make you feel all the different emotions that a well written book, and a great love story is supposed to make you feel. There is a HEA, no cliffhanger....very steamy. Perfect ?

There is a serious subject that is highlighted in this book. Unfortunately we still have soooo many women/children living under this horrendous act of physical/mental abuse every day. My hope to them is that, they find the strength to fight for their freedom - YOU ALL ARE WORTHY & DESERVING of it??

(Review with spoilers)

Nice romance. I loved it.

I loved Alexander and Soledad. I loved how their relationship grew.

Alexander did not believe that he could be attracted to a woman who had a child. But it happened with Soledad. He hired her because of her curriculum, he is physically attracted to her from the first moment, but soon discovers that he wants more with her. When she talks about her daughter, he likes to see how she gets excited. Sweet, intelligent, strong to survive after what she has suffered. He wants to be her world. He wants them in his life, forever. He would do anything for them.

Soledad had to mature quickly. Her ex, who was never good to her, didn't want anything to do with her daughter, and left them alone. That hasn't stopped her from being sweet, adoring her daughter, putting her above everything else. She would do anything for her, to keep her safe, and to make her happy.

Alexander does not take advantage of his position. He wants to be with her, but he doesn't pressure her. Soledad decides if they will be together or not.

He doesn't want her to feel pressured either. Their relationship is one thing, their work is another. He won't throw her out if she doesn't want to be with him, or if their relationship bdoesn't work. And she knows it. She trusts him, from the first moment. She feels safe with him.

I loved Soledad's relationship with Lindsay, and I loved seeing Alexander with her, and seeing their bond grow. She's Soledad's daughter, but she is important to him.

I loved Alexander's mother, how she accepts Soledad and her daughter without knowing them.

I also loved Soledad's parents.

I recommend it.

This is another very enjoyable read by Mia Ford. In this one we have Soledad and Alex. They meet when she comes in to be interviewed for a job. Soledad decides to move away now that she hears her ex was moving back. She wants her and her daughter to have a fresh start. Her and Alex of course fall in love and he is there for her while she deals with all the drama. Like always in Mia's books they get their HEA.
