But when a flash point of circumstances suddenly changes her life, Terri must come face-to-face with the fragile self-confidence she displays to the world. Ellen White says

Terri, a paramedic, now sitting at hospital, her mantra is "fix his leg" of an eight year old boy. The camaraderie at the station, help after the emergency runs of the day. When she gets attention from Gabe, she doesn't know how to handle it. She puts up a brave front, and he sees beyond that. Will she accept his love. This story was so real, of a woman in a man's world, to joke, to cover up her emotions from the day. Till love comes and she wants, love and marriage.

In a Heartbeat series / book two

Laura says

I really enjoyed this book, especially because it didn't cause tears like the first in the trilogy.

I thought the characters were interesting, the plot moved, and the stalking incident was out of the ordinary. Overall a fun read.

I can't believe this book has only one other review (as of 10/30/10). That suggests to me that it hasn't been widely read. What a shock! This was an amazingly realistic story. The author is a very talented writer with the ability to draw you right into the story and make you feel like you're part of the scene. It wasn't corny or overly preachy. It all felt like 'real life.' I just loved the hero. The only negative thing I would say is that at one point I wanted to shake the heroine and tell her she was nuts to run from the hero! But it was only a little frustrating and she quickly got over her behavior. At least it felt like it was quick. Perhaps it's because I couldn't put the book down and read it very quickly. After reading this book I have discovered that it is the 2nd book in a series. I look forward to reading the rest of the series and if this book is any indication of Sally John's writing ability then I will be reading all of her books.
