I remember reading this book as 10 year old child lol, it brought back some nostalgic feelings. I won't be rating it because I'm obviously not a child to do so but it's really enjoyable hehe

Maybe suitable for parent or older child to read to a princess obsessed 3 or 4 year old. Or not! depending on your point of view.

I'm not sure about this whole princess thing.

Allie liked this one.

Heather says

This wasn't my favorite of this series so far but it was still fun to read.

Faye says

This is *The Tiara Club, Princess Emily and the Beautiful Fairy*. While Fairy G, the headmistress is ill, Fairy Angora is asked to take her place, a beautiful fairy with long blonde hair. But this is her first job, and she isn't good at using her magic wisely. Will Emily and her best friends be able to help get Fairy Angora's magic back (which she had spent on the student's wishes) and bring back Fairy G, the suitable headmistress?

This is an exciting book, and very enjoyable! I recommend it 5+. If you like THIS book, then you'll love the other books in the series! ENJOY THE PRINCESS FUN!

Faye xx

This is the sixth book in The Tiara Club series by Vivian French. We haven't read the other books in the series yet, but our girls really liked this story. It was a quick read and they kept asking me to read more and more until we finished it. I think this would make a great series for our girls to read on their own - I will certainly encourage them to do so.
