DixieJo says

A twist from the usual Christmas story read aloud. Typical I Spy book with a Christmas theme.

Amy says

I've enjoyed these books since my son was about two years old. He loved them and was so good at finding everything, and he'd find them quicker than I could -shush- don't tell! My daughter has been checking these books out from the library lately and it's been fun looking through them with her. I'm happy to report that I found every hidden object in this book.

Anna says

I had a mild obsession with this series of picture-riddle books when I was a kid, and this one was my favorite. The picture set-ups are creative and detailed - I see new things every time I look at them. And the "riddles" are appropriate for children, generally leaning to the simple, easy side, but with some mixed in that are trickier and ask the reader to stretch a bit and think about things in different ways. If I had kids I'd want all these books for them!

Crazy Uncle Ryan says

My inlaws have this book and I go through it every year when my wife and I go to their house for Christmas. Of course, each year when I sit down with it I find that I've forgotten where most of the stuff is so it's always fun.

veronica says

The slim silver dime and the glove were really hard to find. I needed my Dad's help for the silver dime.

Lindsay says

My kids had fun searching for Christmas in this challenging "look-and-find" book.

Josiah says

Again, Walter Wick and friends have created a photographic masterpiece I can hardly begin to comprehend.

Few things so fully get me into the Christmas spirit as this book. The scene in the toy store window is nigh upon inspired, and is surrounded by many other scenes bursting with the same creative spirit. I toyed with the idea of giving this book two and a half stars and rating it three (since half-star ratings aren't available), but decided to stick with two and a half stars and officially mark it two. I don't give out high ratings easily, and the fact that I considered three stars shows how highly I think of this book.

Catherine Woodman says

I have four children and we own each " I spy " book. These books are truly our favorite and they are not just for the young. Each picture makes them think, explore, and problem solve all on their own in a very different way. Ethan had cancer as a kid and these books are amongst the things that got us through the series of hospitalizations over 18 months.

Sarah Adamson says

We love the I Spy books and read quite a lot of them. They're great for calm down time!

This one is a bigger book and Christmas based and we were quite excited about it. However we couldn't find half the suggested items!! We really struggled with this one. Some pictures were very dark and the dolls one was just scary!

Skylar Burris says

Both of my kids really enjoy finding pictures in this book, but especially my two-year-old son, who will sit with me for an hour and mumble "I Spy Little Eye..." There are some harder to find objects, and some larger ones, allowing all ages to "play."

Janin says

My boys and I pull this one out each Christmas-- after a year, we've forgotten where everything was (lol)

Rebecca McNutt says

When I was living on the army base in Gagetown I must've checked this book out from my school library at least a dozen times. While the writing itself is simplistic at best and intended for children, it's worth reading as an adult for the beautiful and elaborate displays photographer Walter Wick and co-author Jean Marzollo set up in their illustrations, which look like they raided a thrift store and gathered up all the classic makings

of a traditional Christmas. From small towns with warm yellow lights in the windows to stockpiles of vintage ornamental reindeer, *I Spy Christmas* does do a wonderful job at evoking the holiday spirit, and while its writing may not be very challenging for adults it's still fun, especially if this book was one you grew up with as a classic in your own household.

Cindy says

"Read" this with my niece. It was fun, but you can only "read" it once.

Lynn Plourde says

I SPY CHRISTMAS by Jean Marzollo, photographs by Walter Wick

Love setting out this book on the coffee table at during the Christmas season. Kids of all ages work together and delight in reading the rhyming riddles and finding each named object in the busy, beautiful photos: I spy a jingle bell, two birds of blue,/ A bunny, a star, and Santa's red shoe Tricky, challenging, and fun!

Emily says

I particularly like the page with the ornaments, and never get tired of poring over it, deciding which one I would choose if I could just have one.
