## Goddess of the Moon Polly Iyer

Psychic Diana Racine and her boyfriend, Lieutenant Ernie Lucier of the New Orleans Police Department, are drawn into a baby kidnapping case. Clues lead first to a hospital worker, then to Brother Osiris, the head of a homeless shelter, and finally to some of the richest men in the state. A combination of mysticism, mythology, and the black arts lures Diana and Ernie even deeper into a plot that puts both their lives in danger.

## From Reader Review Goddess of the Moon for online ebook

### **Bobbye Hudspeth says**

Really well written and researched. Had me guessing. Gave me some surprises and kept me entertained through a frustrating ear infection treatment. What more can you ask from a book. I'll be looking for others in this series.

---

### **Wendy says**

the plot was great and enjoyed the book

---

### **Luv says**

I like this book. I got it free on Amazon. Yippee. Though it was a pretty long book, and I took longer than my average time to complete a book, I enjoyed it tremendously. It could be made into a mini part series. It has all the elements to be a hit - psychic, satanic worshippers, cult. Juicy!

---

### **Theresa says**

Awesome book!!! Great look into a cult where people are groomed to do as they're told!! Great mystery!!

---

### **Jaime Jeffrey says**

I was like you deserve whatever you get after you opened the front door. U didn't learn your lesson the 1st go around?!!!

---

### **Rebecca says**

This book got my attention immediately ... no long build up to the story. Plot was very good ... much more than a psychic helping to find kidnapped babies - although that is a main part of the story. I again found the character development to be excellent ... even some who were part of the "family" you just had to root for because you realized they really wanted to break with their indoctrination. Love the soft/toughness of Diana Racine - great main character.

---

### **Tina says**

got it free on amazon and only read it because of the reviews received here at Goodreads. I was pleasantly

---

surprised and was entertained to the end.

---

### **Kait Carson says**

Great book. Diana is. Recovering from her hellish adventure and her relationship with Lucier is growing quite nicely. Then she becomes involved with trying to locate a kidnapped newborn. Once again her psychic abilities pull her into a fast paced page turner that had me guessing until the last page.

---

### **Deborah Gura says**

Keep reading, it is a book that grabs you and won't let you go.

---

### **Mrs. Barri Soreil says**

#### **A real page-turner!**

Not everyone is equal!! The super rich get away with a lot including baby stealing, devil worship, murder, and kidnapping! Well, they almost get away with it! You just never know what's gonna happen next in this psychic thriller that Polly Iyer has created.

---

### **Valadia says**

#### **Awesome... As per her norm!!**

This fine Author is fantastic! Not only does she write professionally (grammatically correct, which I find both refreshing and far less distracting than less accurate manuscripts ), but her words flow beautifully, innocuously sucking you into the story until you have (5 hours later) FINISHED the book, it is 0400 hours, and you didn't realize the time! (It's true. It is, presently, 0402 hours, and I had no clue...)

Anyway...

ENJOY!!!

---

### **Pat Glass says**

This book grabbed me from the first page and kept me interested all the way through. I had not read this author before but I will read more of her books now! When it ended I wanted it to continue because I was not ready to close the book!

---

### **Patti says**

This was one of the best books I've read in a long time. It grabs the reader from the beginning and holds them all the way to the end.

---

### **Nicole says**

Loved it. This was my second Diana Racine novel and I loved this one too. Diana just loves to tempt fate and drives straight into trouble. I really actually appreciated that even a psychic can "read" someone all wrong in this one, her compassion swaying her made her all the more real to me. Great read!

---

### **Maggie says**

This book kept me on the edge of my seat. Iyer's writing is crisp and she tackles subjects not for the faint-hearted.

Her psychic heroine is targeted by a cult in a cat and mouse game that has life and death stakes.

A page turner. In my world, that's saying something!
