PREGNANT AND UNMARRIED, SHE LEFT TOWN...

Now Cassie Collins had returned to reconnect with her oldest friends, the Calamity Janes, and put her troubles behind her. But trouble found her in the disconcertingly sexy form of Cole Davis--father of her child. Having discovered her secret, Cole demanded a convenient marriage--or Cassie could lose her son to the powerful, wealthy Davis clan. Time hadn't dulled Cassie's anger at the man who'd betrayed her ten years ago...nor cooled the fiery attraction between them. Could she rekindle their long-lost love, and unite Cole, herself and their son in the precious bonds of family?

## From Reader Review Do You Take This Rebel? for online ebook

### NV says

#### Good storyline

Good storyline with The background of friendship. The long term friendship of five women is the core of the story. Very enjoyable.

---

### Leslie Humphries says

Enjoyed reading this book. I liked it so much I did not like when it ended. I moved on to the next book in series.

---

### Booklover says

Terrific read,its such a good story,Cole-Cassie my heart went out to both of them,being manupalated by their parents they did'nt get a chance to be together and Cole lost his child's 9 years of life

Cassie she is s strong woman and great mother,being manupalated by own mother dear god and then later cause of her own lies she had to suffer,i think she should have told Cole about Jake when the misunderstanding about the letters were solved,she had chances but she did'nt use it

Cole my heart went out to him,first he lost his mother then there's that manupalative controlling father of his then lost his love and child,also Cassie mother he always considered her as his mother she also shunned him when Cassie left,in the story he lost much more then anyone else,i completely understand his bitterness towards Cassie,she was the closest to him and she also manupalated him which shattered him

the bonding between the friends and their loyalty to each other was awesome,least Cassie's mother regretted her doings but that disgusting old man he still continues to plot against Cassie try to snatch her son and manupalates his grandson

this is a heart wrenching love which was shaken by the lies,manupalations,deciet,anger,bitterness but Colen Cassie's love was strong that is why it won and passed through all hurdles

i m looking forward to next friend's story

Terrific read,a keeper for me

Recommend it

### Brenda says

Cassie returns home for a class reunion with her son. What she feared...Cole who had abandoned her 10 years ago was also in town, he had returned home after college. Her mother had forgotten to mention that part as had her friends. What she hadn't planned on finding out was that it wasn't him that had betrayed her.

---

A rage that had burned brightly in both of them had turned out to be lies...(You find that out in the first chapters, no spoilers). But there are more betrayals and more fences to mend before all is right in their worlds. Cassie also finds out other devastating news that hold her anger at bay. Cole hasn't discovered her betrayal however...fireworks are firecrackers compared to his reaction in discovery. Five stars. I read it through without stopping...had to know the ending! Romance is high.

---

### **C. says**

I loved the story of Cassie, Cole and their son Jake. I also loved Cassie's loyal friends... The Calamity Janes and look forward to reading each book with their own story.

Just an occasional curse and one pretty graphic sex scene. The story was so good that I still recommend it, even though I usually avoid romances with sex scenes!

### **Linda Sims says**

I've not read anything by this author before, this is the first book in the Calamity Jane series, which follows the lives of a group of women from a small town.

Cassie and Cole had been an item at 18 years old, then Cole suddenly left town leaving Cassie to cope on her own and pregnant. Her son Jake is now 9 years old and Cole has no idea of his existence, and Cassie hasn't been back home since Jake was born. But she's returning home now for her high school reunion and to see her Mother. Her plan involves avoiding Cole. But once home it becomes impossible to avoid seeing him. Then other people's involvement in their relationship way back when comes to light, and this another revelation that causes problems.

While I don't have any problems with the authors writing, my three stars reflects my opinion of the content. I was not too keen on the thread that ran through this about how a boy needs a father, in an ideal world that's true. But it's not always possible I'm sure there are many single mothers who have raised very successfully sons who've grown into fine men. But this author decided that Jake's behaviour would reflect her theory that he would be a better behaved child with a father.

As to the pace and flow of the story, it was rather slow in getting to the point, in fact it only livened up during the last twenty percent of the book. There aren't any hot sex scenes although I don't need for a story to have them, but this could have done with a bit of oomph. I don't think this series is really for me.

---

### **Kayla Bain-Vrba says**

I wasn't a fan of this secret baby story. The hero seemed a little too controlling and seemed to blame the heroine for things that seemed reasonable, given her age and situation. I'll have to read a few more secret baby stories before I make a decision, but this could be a romance trope that just isn't for me.

---

### **Pat says**

I have never read this author before, and was given this book because I like the Robyn Carr Virgin River series. For a book that is only 257 pages, there is a lot of padding in it, which is a pet peeve of mine . Don't think I will be picking another of her books for a while.

---

### **Linda says**

This book is ridiculous. It gives me hope that I, too, may someday publish a book if this is considered acceptable. This author is clearly trapped in the 1970s/80s genre of romance where the women are complete push overs and men have all the power, either overtly or subtly. Cole "forces" Cassie to marry her? And she goes along with it? The over-bearing father-in-law is responsible for their initial break up 10 years past and is even now manipulating the women to get the heir he wants? And seriously, Cole has NO IDEA that Jake is his son?! Everyone in the whole town knows but he (the computer genius) can't do the simple math of when Jake was conceived? Even the language suggests an author that is quite antiquated and unaware of how "modern" romances usually contain story arcs, character development, and believability. I grabbed this audio book at my library never having read the author and thought this book was 10 CDs, which usually indicates a decent chance at a good plot. Turns out it was a 2 book set of 5 CDs each. Ugh.
