The Dragon God's Son Mallory Kellogg

Two thousand years in the future, the Gods are believed dead, and the world has been submerged by the melted ice caps. The only humans known to have survived live a harsh, regimented life in an underwater colony. Illness and disease are things of the past, and the only worries of the citizens are to keep the colony alive. Sara Darnell wished her worries were so simple, but she is the only person in the entire colony that is sick. Her illness is killing her, and everyone seems to have given up hope. Until one day she meets a young man from outside the walls of her underwater prison. His name is Shen, and he claims to be the son of the Dragon God of Water. While she is frightened and disbelieving of his stories at first, soon she finds herself drawn to the stranger in a way she's never experienced. He makes her feel like she is all that matters in his world. What was once a simple life of survival and science erupts into a fantasy world where the Gods are still very much alive and everything Sara was raised to believe is nothing but a lie. Dealing with shunning, bullying and a horrible home life, the lonely girl has only desperate hope for living to adulthood and finding happiness. A happiness she thinks might be possible with Shen. He holds so much promise. So much love. But can their love beat her disease? Does he hold the key to her very life?

Set in a futuristic underwater human colony, I found this book to be a quick read and a unique story.

I hope you enjoy my book! This is a piece I am very proud of, and I spent a lot of time planning every single scene. This book promotes friendship first that leads to love, and I did my best to make the characters believable. There are many aspects of my own life in this book, and I am always open to discussions. Thanks for reading!

Sara suffers from cystic fibrosis. To learn more about the disease, treatments or make a donation to the CF Foundation, visit [Cystic Fibrosis Foundation.org](http://CysticFibrosisFoundation.org).

Amazing. This is the kind of book I absolutely love. This had me crying, laughing, so many emotions. I actually felt like I was in the book. The main characters are so perfect Perfectly written Love this.

My enjoyment of this book might have improved greatly were it not for the vast number of formatting errors. Most prevalent was the use of tab spacing rather than a hanging indent, resulting in a sloppy look. There were also plenty of sketchy dialogue tags.

It's not that I didn't like this book, because I feel there's a pretty good story in here. Humans live in an underwater colony, while the forgotten gods live on the remains of the earth above.

The idea of the colony was interesting, but I wanted to know more. More description, more character development (main and supporting), more world building, more mythology, just ... MORE. Is there more than one colony? Humans aren't adapted to breathing underwater without assistance, so how does this thing work? And I wonder if I missed the *why* of the colony's existence. I also didn't get a great sense of time passing during the book, though it took place over about 3-4 years, I believe.

There wasn't quite enough throughout the book for me to believe in the gods as, well, gods. The humans of the colony were convenient foils for the main characters. Sarah came off quite the little martyr, though I'm sure that wasn't intentional. It's just she seemed like a victim in nearly every scene, even though she could be mouthy at times. Her romance with Shen was sweet, and I appreciate that (view spoiler). But I didn't feel their heat. Shen wasn't an ass, but I gave the side-eye to some of his sexy talk.

I could see instances of good writing and keen sympathy, but it wasn't enough. There is some great potential here. Overall, this book needed more time to come together into a far more coherent, in-depth story.

I got this book during a free promotion. I'm not sure it would have been worth the \$2.99 price tag, mainly because of the grammar and formatting errors.

Okay, I don't usually write reviews for things, but I felt I needed to with this story. I can honestly say that this story drew me in and then didn't let me go till it was done. I can't wait for another entry into this series. The characters are easy to relate to, and the plot is amazing. Definitely a five star rating. wish it had been longer, so I had more to read.

If I have to compare this book to existing books I'll say Twilight meet The Giver, meeting 1984, and finally met Waterworld Novelization(Which is so much better than the flick) Now, the question is how much do I like it? I'll put it on the shelf next to Neil Gaiman`s work looking forward to more stories from the author. (Won the book in the giveaway, Thank u very much!)
