Never Let Go Scarlett Edwards

Inspired by true events...

The first day of college gives every girl a chance to reinvent herself.

I go and screw mine up by meeting the most gorgeous guy I've seen in five years while talking to my cat.

But Andrew Crowner is far from judgmental. By the end of our interaction, he has me smitten by his easy manner and kind smile. And from the way his eyes linger on me before he leaves, I start to think that maybe I've caught his attention, too.

I let myself believe that luck may finally be on my side. That is, until I stumble on my roommate, and her overnight guest: Spencer Ashford.

Lean, tattooed, and sexy as sin, Spencer is exactly the type I need to avoid. I would have no trouble with that... were it not for his swift and inexplicable interest in me.

Suddenly, I go from a girl with next-to-no experience with boys to one caught in the crosshairs of two completely different men.

Andrew's interest is wholesome and sweet. Spencer's is edgy and raw. My choice should be easy. But there are always complications, and sometimes, matters of the heart take the least expected turns.

3.5 stars! Was good! But that ending?! I didn't know this was the beginning to a series! I about died at the ending because I had thought this was a stand alone. Looking forward to reading the next to see what happened next.

Christina says

Paige is not your typical american girl. She has spent most of her life in an all girls boarding school before going to take care of her grandmother before she passes on. Arriving at her college dorm she meets Andrew who is preppy, funny, and a very sweet guy. Thinking Andrew is just the person she needs to help her start this new path in life makes her spirit soar. That is until she meets Spencer. Spencer the tattoo bad boy has a reputation of being the college stud. Jumping from one girl to the next no one has been able to tame him. Is Paige the one to do it? or Is safe, secure Andrew the one to stick with.

When I first started reading this book I thought ehh this storyline has been done over and over.. BUT after reading further in I found its NOT the same storyline ...Scarlett Edwards surprised me by taking some twists and turns I never saw coming. I fell in love with Paige and her insecurities. She captivated my heart in being torn between safe and what she felt was dangerous. My heart melted when songs were played. When love was formed my heart soared. My heart hurt when stories were shared. In the end did Paige pick the right person? I think so. But there is more to tell. More to this story. Their journey is not over yet. I give this book 4 stars. I look forward to reading book 2 and finding out what is next for Paige.. where will love take her next.

I've read Scarlet Edwards Change of Hearts books and loved it. This one, the verdict is still out there. It's 3.5 a bit of a limbo stars for me.

The book is definitely well written, funny and romantic.

Paige was brought up by her grandmother in a very conservative way. The mantra drilled into her at the all-girls' boarding school she attended is that sex is bad. Her whole life has been structured to teach her the dangers of pre-marital sex. Going to college was her fresh start. And on her first day, she met Andrew and Spencer, two hot guys who are the complete opposite to each other. While Andrew is wholesome, sweet and very responsible, Spencer is the bad boy, known as the universities "walking one-night stand."

I am ambivalent on Andrew and Spencer's story or character. And Paige, while I get her on some parts, on other parts I'm like "huh?" It might just be me, but I feel like something is missing.

But I'm hopeful. I can't wait for the next part of their story (if there's more).

Fab Fun & Tantalizing Reads says

I started *Never Let Go* one evening and didn't finish until wayyyy after my bedtime. I was drawn in by Paige. She wasn't one of the leading ladies that had me constantly rolling my eyes, nor did she make decisions that made me want to accidentally slap her. Edwards wrote wonderful characters that endeared me to them, and made me want to know more and more.

Meet 19 year old Paige, she finally breaking out on her own. She had a different upbringing than most, being raised by boarding school, then caring for her Grandmother. College is her time. She's a little stand-offish, fragile and delicate, but at the same time she's fierce and stands her ground. She says what she thinks and there's no major communication issues.

Fly.

“What does it mean?? For some reason, my voice comes as a whisper.

“It's what you need to do, kitten. Fly. Let yourself go. Set yourself free.” Spencer's voice rustles as he speaks. He doesn't break eye contact once. “Shake off whatever limitations confine you, and start *living* your life.”

Meet 25 year old Andrew. Paige meets him one day while talking to her best companion – Pickles. I was hooked from that moment. This chick has spunk. Andrew is sweet, kind, preppy, baked potato like – responsible and sensible (BORING!) - and smoking hot. He's also out of bounds. Unfortunately neither realized that little tid bit until it was too late. Although we receive an explanation later on, I can tell you right now, I was never Team Andrew.

His kiss was molten fire and fury. When our lips met, I became his.

Meet 26 year old upperclassman, Spencer. Holy hot damn. He is fine. Their first meeting was unusual and embarrassing. Paige is not a fan from the get-go. At all.

“Wow,” Spencer intones. “You really don't like me, huh?”

I offer a fake smile. “What's there to like? You sleep around. You treat woman like dirt.

You're breash and arrogant. You've probably got a hundred different STD's.”

Spencer shakes his head. “You're assuming.”

He's tatted and completely fits the bad boy image. He's a player and she's determined not to be a notch on this very very very notched bedpost. As you all know, these hotties aren't always the person they project. Is there more to the smokin hot Spencer, or is he just trying to catch her so he can break her wings, then let her go?

"I promise," I whisper. Who is this man, to care so much about me? Seeing the compassion, the concern, on his face is something I never could have expected. Not out of *Spencer*.

But we all have a mask we show to the world that hides who we really are.

Paige's got a new friend in her roomie Katy and they get on like a house on fire. Katy made me a little uneasy. I felt from the get go there was something a little off about her. You'll have to read it to find out if I was on the money, or totally off base.

Few will know his performance for what it really is. Few will sense the richer, more subtle layer hidden underneath his words.

The people around me will not know. It is through no fault of theirs. It does not mean they are immune to Spencer's spell. All it means is that the song is not for them.

It's for me.

So much happened throughout these pages that, kept me glued to my kindle. Brawls, beautiful moments that brought tears to my eyes. A couple of bathroom scenes that had my pulse racing. The moments that the characters let their walls down had me so engrossed then when Spencer kept thwarting Paige's advances I was giggling. When they finally went on their pilgrimage of pleasure I was sighing and fanning.

Kissing Spencer was unlike anything I'd felt before. It was exciting because it was forbidden. Thrilling because it was so dangerous. Guilt tears at me for secretly wanting more. *Need* makes my body shake.

Never Let Go was full of friendship, angst, drama, lust and a sprinkle of love. Who does she choose? Sometimes the heart needs what it needs and fate makes the choice. A few twists and turns. A dash of romance and well... hot damn I was hooked.

"...You were unlike anyone I've ever met. And I felt this *need*, this overwhelming desire, to protect you from all the harm in the world. That was the moment you stole my heart."

There's plenty of questions I still need answering – like, what is Spencer's story that will scare Paige away? I need to know more about Paige's sexual past, and what will happen with Katy - but overall I was happy with the ending for now. I'm looking forward to getting my answers in book 2.

Bravo Ms Edwards...

4.5 Star Review by Annie

Never Let Go will hold you captive the whole way through. You will not want to eat, sleep, or tinkle, because it will take time away from this book. Yes, it is that good! Once you finish the book it will still have you thinking about it. Lately I have been in a book rut, yes, I have read amazing books, but nothing that has captured me. This book ended my rut.

After taking care of her dying grand-mom, Paige finally gets her chance to go off and experience college life. What she doesn't expect to do is meet two totally opposite smoking hot guys on her first day. On one hand she has Andrew, the pretty boy do-gooder and on the other hand she has Spencer, the hot motorcycle riding man whore.

Never in her life has she had two guys wanting her, let alone two hot guys. After all she went to an all-girl school and is still a virgin....GASP! Take that all and mix in a crazy sexual roommate and a fun loving pussy...cat that is....and you get yourself an AMAZING read.

I give this book a 4.5 Star. I know I said this book is amazing and all that jazz, so why not a 5 star? I felt like I wanted more of Paige's back story. What we were told about it was just not enough. I need more! I want more! Plus it kind of, sort of ends with a cliffhanger. Not one that is too bad, but one that will have you screaming at your kindle for more.

Bianca says

I was provided with a free copy of this book in exchange for my honest review. Thank you, Scarlett!

When I read the synopsis for 'Never Let Go', I was very impressed and curious. Of course, I wanted to read it. Because it sounded different and wonderful.

Well, after reading 'Never let go', I can say that it is a wonderful book, but I can't say it's very different from all the NA books out there. And although I liked it and read it in, like, one day, I didn't love it. This was a 3 stars for me.

Ok, so the first pages are wonderful. Loved them. Seriously. Loved them. Those pages made me want to read more from this book. So I read. But then I was a little disappointed because the book was starting to bore me and roll my eyes. Don't get me wrong. I liked the book, but there were some things that annoyed me and made me roll my eyes in annoyance.

But let's start with the pros, shall we?

Spencer is awesome. Man, I loved him! You know, he's that character that makes the book worth reading! He's awesome, he's cool, he's funny, he's flirty and charming, but he's also very caring and he has a great heart. He's the character with the funny and dirty mind, but he's also got a dark side AND a soft side. Very complex character.

I really, really liked the dialogues. They were very smart, playful, very entertaining and flirty. I think that the dialogues are the strong point about 'Never let go'. They make you wanna read more and more.

The action is somehow captivating and entertaining, but sometimes I felt like it was a little rushed, like the author didn't pay enough attention to the details or to the action. I felt this way especially when there was a "dramatic" situation. It was like the author had inspiration and wrote something dramatic, but she rushed it, without giving a dramatic tone or feeling. It's kind of hard to explain what I felt. The idea is that the book felt rushed sometimes.

There were some cliches in this book, some scenes that are overused in NA books. But even though they made me roll my eyes, they also made me smile and laugh sometimes. Also, you can find some really cute scenes in 'Never let go' that will make you giggle. Basically if Spencer is involved in them. :D

My biggest problem with this book was Paige. I seriously think she was a hypocrite. I mean, like, in the beginning, she is furious about walking on Spencer in the bathroom, after he asked her if she'll be at the

party. Seriously?! He just asked If you'd be there! He didn't invite you! And you knew about his reputation. Did you think you were special? UGH! And if you were so upset about Andrew, why did you flirt and laugh with Spencer? Then why did you kiss Andrew if you were upset about Spencer?! One minute you were thinking about Spencer and then Andrew was around and you'd completely forget about him and vice versa. It was really annoying. You were pretending that you're torn between them, but you were not. Very annoying thing. And sometimes you were a prude, not a good girl. Now, don't think I hate Paige, because I don't. I have to admit that there were times when I really liked her, because she was smart and happy and a really good friend. But there were some other times, when I wanted to yell at her. I still don't know what Paige's story is and this kind of annoyed me. Some mystery is good, but when the authors keep hinting about her life before and never actually says anything about it, it's kind of annoying. Overall, 'Never Let Go' is an easy, fun, romantic read. You will have fun with Spencer and his silly remarks. I definitely recommend this book if you are a sucker for NA stories or for love triangles. ?

Melanie Charlesworth says

The stunning ripples of his abdominal muscles make my insides clench up. His shoulders, chest, and arms are lean and cut. A light grazing of hair trails down the midline of his torso, disappearing from view at the tan line at his hips. For a brief moment, his pants ride down far enough for me to glimpse the top of some tattoo that starts on the top of his left quad. - Paige

The story starts off as Paige arrives at her dorm at the beginning of her freshman year at college. She bumps into Andrew as she is resting on the steps talking to her cat. One thing leads to another and he asks her out on a date. The date goes extremely well and she can't believe that she is having such a great start to her new life. That is, until he turns out to be her peer counselor. Being a peer counselor comes with rules, one of the strictest being no relationships between student and peer counselor. So when Andrew walks in and see's Paige and her roommate Katy, he has no choice but to cut things off between them.

...I saw you there, and I just panicked. I mean, I know the rules. If someone reports you with one of your 'students,' you lose everything. They take away your housing. They put a black mark on your record so you can't get another job on campus. All your privileges get revoked. - Andrew

Spencer is the campus man whore and doesn't do the relationship thing. That is until he lays his eyes on Paige. He makes it his mission in life to win her over.

There's an energy between us. A magnetism. It pulls me to you and you to me. You can't deny it. You can't tell me it's not there. I'm not going to do anything you don't want. If you tell me to leave now, I will. But I can't get your sweet taste off my mind. - Spencer

Andrew is very good looking but Spencer is just crazy hot, but also dangerous. Andrew is safe and comfortable. Spencer is passionate and unpredictable.

Spencer's kiss was molten fire and fury. When our lips met, I became his. He possessed me. There is no other way to describe it. Spencer kissed me the way I want to be kissed. He pushed me to my boundaries without going over. His kiss sparked a level of longing deep inside my body that I had never experienced before. It made me feel alive. - Paige

I liked this book. It flowed very nicely and made me want to keep reading. The story is a cross between Beautiful Disaster by Jamie McGuire and Damaged by H.M. Ward and does have a cliffhanger but not a crazy nosedive. It is more like, a nice smooth, fluid jump.

Helen says

It was kinda easy to see what was coming next but still loved when it came but not how expected. Upset it's a cliff hanger *Booo* But still on my toes waiting on the next book.

Reanell Tisdale says

Review to come as part of the blog tour

I'm going to try to do this review with no spoilers, but some are inevitable. I really enjoyed this book, the characters can be annoying sometimes with their actions, but I guess that makes them more human. We meet Paige as she is starting her freshman year at college. She meets 2 guys on her first day and is infatuated with one, Andrew, and in lust with another, Spencer. Andrew is the book boyfriend material and Spencer is the gorgeous man whore. It's a no brainer for innocent Paige. She goes for Andrew. Only to have life step in the way of them being together.

Spencer seems different with Paige, her roommate Katy believes she can be the one to change his playboy ways. Paige disagrees completely, and wants to wait for Andrew to take care of his problems so they can be together. I, myself, feel that Andrew should have done better for Paige. Spencer seemed like he cared for Paige from the start and would do anything for her. Yes he messes up, but everybody makes mistakes, and he is truly sorry for what happened.

Then Scarlett throws out some twists and turns that I didn't expect at all! I love when I'm reading a book and it keeps me on my toes, and takes turns I had no idea would come. It doesn't really end with a cliffhanger, but it does leave you at a point where it was just getting to the good stuff! I will be waiting for book 2 to find out more about Paige and her love interest. <----See what I did there? Don't want to giveaway who she ends up with! ;)

Overall I give Never Let Go 4 stars. The story was well written, and it kept me interested throughout the entire book. I can't wait to read more from this author.

Vee the Bookworm says

2.5 stars.

Slight spoilers ahead.

Hmm, not what I was expecting. The writing seemed off (*which, for me was odd, because I absolutely loved the writing in the "uncovering you" series.*)

It just seemed like a different author completely.

I couldn't connect with Paige at all. She seemed whiny, over-dramatic, "whoa- is- me", and wayyy too clingy and emotional (*she's the very definition of emo and angsty, without the depth.*)

I mean, she literally has a "breakdown" over the strangest reason in the world.

(*Had the author gone deeper and managed to come up with a gripping backstory, it could have been somewhat interesting*) but with what little we're given, it was just freakin' weird. .

- She becomes crazy obsessed with Andrew right away and strangely plummets when they are forced to halt their *almost* budding romance (aka: a *single* freaking date) due to circumstances beyond their control (such is life.)

-It was ridiculous, I wanted to tell her to get over herself and stop being so damn clingy. She apparently, wanted him to be her boyfriend and all that jazz, even though they had only known one another for a few days max and only had a single date that led to them kissing.

*Cry me a river, build a bridge...and jump the fu*k off it please.*

Enter Spenser.

The campus man-whore. (*every college "romance" story has one, no exception with this one.*) She literally meets him in the middle of doing what he does best.

-Sticking it in her soon-to-be roommate.

But, hey....it's all okay. No, seriously, guys.

The roommate doesn't mind one iota that he's a man-whore *or* that he just used her for some booty. *Nor* does she mind that the come hasn't even dried on her sheets yet and he's *already* flirting with Paige.

Keep it classy Spense ;)!

Anyway, of *course*, our dear Spenser is instantly attracted to our "heroine" Paige.

Why...(because she's apparently; the *only* girl in the history of ever, who doesn't seem to "want" him or throw her vagina at him.)

Yawn.

Is anyone else tired of these monotonous storylines?

Moving on...

Thanks to her roommates odd and overbearing interest in her romance life (*not to mention her relentless and annoying spiels about how Spenser is so into Paige and he's never like that with anyone, blah blah, blah*) she helps Spencer in his quest to get to know Paige.

Meanwhile, Paige bounces back and forth like a damn ping-pong when it comes to her passive aggressive stance with Andrew (one second she's telling him that she'll wait until January for him so they can officially be together...and the next she's acting like a juvenile and avoiding him and snapping at him, for things that aren't his fault.)

Not that Andrew is a saint (he has some anger issues, amongst other things.) But then again, if he were, how would Paige, end up with our STD laden bad boy?

At least, Paige is consistent, though. If she's a ping-pong with Andrew...she's downright bipolar with a dose

of psychotic when it comes to Spenser.

She's either making out with him, or pushing him away.

(Seriously, don't even get me started on that particular scene.- Omg, I have the sudden desire to touch a penis; even though I'm not a virgin,...sooooo let me take a trip to crazy town and break a mirror and hurt myself...allllll because I went to an all-girl high school with a really strict nun who told me I had sinned when she caught me sneaking a boy into my bedroom and doing the nasty with him. And now I'm forever messed up because of it)

I mean, What exactly was she expecting the nun to say? "Go forth, my children and bump uglies until your heart's content?"

She's a nun for crying out loud! Of course, unmarried high schoolers having sex on holy grounds would be considered a sin in her book! (Or well, "thee" book.)

Ohhhh, the humanity!

And if that's not enough...let's throw in some more weird sh*t in the form of that overbearing roommate halfheartedly attempting to seduce paige for no reason in particular in a mildly awkward moment (don't worry folks, nothing happens between them...but, hell; you almost wish it would so there would *finally* be *some* kind of smexy times happening at that point in the book.)

Because it's sure not going down with Spenser...he had a change of heart and isn't doing it for the nookie anymore...(not that I can blame him given she's a freakin psycho and all who's emotions change with the wind.)

Nor are they going down with Andrew...because...

(cue the extra drama) (view spoiler) Well, sort of.
Apparently they only (view spoiler).

But guess what, guys?

It's still all good!! Our roommates are closer than ever! BFF's for life! (let's swap guys all the time!)

It comes the an end with Spenser and Paige *finally* doing the nasty in a 5 page wrap up of mediocre sex where she declares that she has a hairy bush.

(No, I'm *not* kidding.)

4 1/2 CAPTIVATING STARS! So I might have to make a little confession by saying I'm from Salt Lake City and there are almost NO books that reference us here in Utah. So when one does it automatically gets at least 3 stars just by doing that. (Us Utahns are very supportive of anyone from here, anything referencing here, pretty much anyone that can have any tie to Utah we will be your fans :)) Ok now that that is off my chest, this book was WONDERFUL! If there had been no mention of my hometown I would still give it 4 1/2 stars. I was drawn in after the first few pages and kept reading to find out what would happen next. The chemistry and sexual tension between the characters is palpable and HOT! I found myself laughing and smiling to myself while I read it. Spencer is.....swoon.....perfect! Andrew is the perfect boy next door. This book is one that I think will appeal to everyone and is definitely one that I would recommend.

Paige meets Andrew, hero 1 on first day of college. 1/3rds into the book (about 5 meets later) she's infatuated enough to promise to wait for him for a full semester because they can't be together until then.

Also...and not in this particular order:

She meets Katy, her new roommate/bff, and Spencer, hero 2, when she walks in on them going at it full steam.

She finds a job as a swimming instructor although she has no experience.

Is signed up for the swim team.

She gets it on with Spencer who, at 26 is still in college as an upperclassman and undergrad, (for 6 years now) speeds reads and has a photographic memory, is the campus ho.

Stops going to swim practice.

She endures a brief girl on girl tease initiated, in jest, by her bff in an effort to get her to lighten up.

Walks in on Spencer been given a bj by some random hookup at a party where Spencer and Paige had made prior arrangements to meet up at.

Has some more intimate moments with Andrew.

Has both heroes fight over her

Nearly slices herself to death with a mirror and lands up in hospital on the SAME night/day she finds her bff overdosed and sees HER to hospital too.

Has panic attacks.

Has visions.

Has flashbacks.

Has dizzy, nausea spells.

Discovers her bff has been having a secret fling hero 1 and she catches them red-handed.

Discovers that the heroes are step brothers who hate each other.

More to follow.....

Kristy says

This book just didn't do it for me. I think it was a personal thing. Other people will probably like it. But I just didn't care for the characters.

Paige- She annoyed me. I didn't think her innocence came off as cute, I thought it came off as childish. Her weird freak outs would have scared any guy away. She sounded unstable... and a little psychotic at times. She was extremely flighty, promising Andrew one thing and then turning around and betraying her promise, what?...10 minutes later? I did NOT get what was so special about her.

Katy- I could never really get a good feel for her. It seemed like she was a good friend one minute and then the next she was extremely selfish and thoughtless with their friendship. I didn't understand how Paige could forgive her so easily (view spoiler).

Spencer- I really didn't see what was so great about him. I thought he was kind of gross. The first time she

meets him he is having sex with Katy and instead of being disgusted with him when she thinks about it, she gets turned on. I thought the whole situation was weird. How he and Katy (Kate) were friends and acted like they had not slept together. Weird. And he became creepy status for me when I found out he was freaking 26 years old and still in college, still in a frat and still sleeping with all these 18 year old girls. EW!

Andrew- I felt like his character took a weird turn. He seemed like two different characters at times. Bi polar, maybe? He was extremely cool and laid back and then he would fly off the handle and get violent with little to no provoking. Also, he had to grow up extremely fast and I just didn't think he would have been acting so immature like he did. He had more important things to worry about than getting caught up in college drama. I also didn't think the ending was his character at all. It felt like, to me, that the author needed a reason for us to dislike him so she created this situation to make him look bad, even though it was out of character for him. It just didn't feel right.

Again, I can see where other readers might love this story... but not me. I just wasn't feeling it.

I loved the cover though!

Tee loves Kyle Jacobson says

Never Let Go is an amazing story right from the beginning but I do want to warn you because most people HATE LOVE TRIANGLES this is one of those books that has one but it is so much more than a love triangle because yes Paige the main character is in love with two different guys the guys are so much more than what you would normally read about in a love triangle. One guy is sweet and sensitive and could be Paige's everything but then you have your rough and rugged guy who has a sensitive side to him and underneath all that hardness he is something else. The way Scarlett set this triangle up was brilliant!

Paige has lived a sheltered life going to an all girls boarding school and then taking care of her sick grandmother. So when she goes to college she decides she will reinvent herself and try different things. But as luck would have it she makes a fool of herself when she meets the most gorgeous guy she has ever laid eyes on. She is talking to a cat when she meets Andrew. Lord her heart is skipping beats and she feels things she has never felt before. Then she goes home to her room to meet her new roommate and she meets her roommates friend Spencer and sparks fly I mean holy effing craziness for her because she goes from having no feelings like this ever to having it for two guys.

As Paige gets to know both Spencer and Andrew she is drawn to each of them and for no reason at all she finds she has to have them both but which one will she chose? Will it be the rough and tough Spencer or will it be the soft and loving Andrew? Who will win her heart? Who will she love whole heartily? This is a must read and let me tell you I found out at the end of the book there is going to be more and I just about died!

KAT ? Kitty Kats Crazy About Books ? says

My review is also posted on my FaceBook page (<https://www.facebook.com/pages/Kitty-...>)

First of all I was recommended this book by a friend on here, I never really read the blurb that cover was prompting me to read it, hello my name is Kat and I am a cover hoe!!

PAIGE:

We first meet sweet and innocent Paige her first day of college talking to her tabby cat "Pickles," by Andrew who had to be the first guy she meets, imagine how mortifying that would be "Shame" and as she's turning around she's praying over and over in her head that he is hideous. horrifyingly, mind numbingly deformed,

"Please, please, please just have one discernible flaw."

but the guy she encounters looks like he should have his face plastered all over a fashion magazine..He's hot!!

Moving things into her dorm which she's to share with three other girls, who will arrive the next day, she's ripped from her thoughts when she realizes she's not exactly alone as she thought, her eyes zone in on a nude couple going at it on the lower bunk..

(Meet Spencer: Lean, tattooed, and sexy as sin)

The guy has dark long straight hair which slightly covers his eyes, a sleek tribal tattoo decorates his shoulders and upper back..

And this is where things start to get interesting..Both guys vie for Paige's affections..One has a rep as long as his arm and the other can't fraternize with students..

Paige hasn't really had a lot of experience where the opposite sex stands, as she was schooled in an all girls educational environment..

She promises to wait for one guy but the other steals her heart

Without giving away the story, I'm glad she chose who she did, he was my first pick and as the story went along that never changed..

An enjoyable read about a girl just trying to find herself, to experience all that college life has to offer..
