## From Reader Review Holiday Heart for online ebook

### Angela Ford says

Well done Ms. Miles! Another great read. I loved Acapulco Adventure, a sweet-mystery romance. If you love holiday romances then you will fall in love with this story.

Brenda has been invited to her friend's Christmas-time wedding. Her fear is to meet up with her ex, Blake. It's been six years since their break-up. Will misunderstandings stand in the way of a love that is meant to be?

Fast enjoyable read! Loved it!

### Jacqueline Driggers says

A short book, and not very memorable for me. Nothing stands out about it. It's a quick read, is all I got.

### Tammy Tate says

Unfortunately, Brenda spends a lot of time by herself and it's Christmas and she has a wedding to go to...can she pretend to be happy when her ex-boyfriend is the best man?

---

### Em says

cute but quiet predictable and no build up to the big events

---

### Susan says

I only gave this book 2 stars. Although it was well written it seemed to lack something. There just wasn't enough meat to the story. I would have liked more background on what had happened between the two main characters in their previous lives. More on the female character, her background. I know we're told snippets, but there has to be more to it.

### Amber Daulton says

Thank you, Marilyn Conner Miles, for sending me an ARC of this story for an honest review. Brenda goes to a friend's wedding and runs into her ex-boyfriend. Blake broke up with her six years ago and she has pined for him ever since. He pursues her and she doesn't understand why since she thought he wanted nothing to do with her. Even Blake doesn't know why he keeps contacting her after he ignored her

---

for so long??he just feels compelled to be with her again.

Although well-written in third person POV, I had trouble connecting with the characters.

Miscommunications played a major role in the book since they didn??t talk about their feelings or why their relationship ended until after they started to date again. Some of their actions just seemed childish to me.

Anyway, I loved the scenery descriptions. I??ve always wanted to visit Washington State and I thought the details were extraordinary. I enjoyed the story overall but I wish the author would have expanded the

characters?? back-stories. I wanted to learn more about them and what made them tick, other than each

other. I hope Ms. Miles writes more about this couple. That??s likely since this story is the sequel to

Acapulco Adventure (which I haven??t read/the book is about two of Brenda's friends) so there might be a third story in the future. I??ll keep my fingers crossed!

4 Stars.
