So... Misoka is apparently a guy? Coulda fooled me ;)

This series reads so much like Fruits Basket, it's a little annoying. It was coming out at the same time, so I get the whole "Fruits Basket is super popular, let's recreate it so we can ride on the popularity" phenomena, but I still find it a bit annoying. Nozomu (clearly the good looking one whose good with the ladies) is Yuki. Mitsuru (the one who the insane temper and who can't cope with the monster he is) is so obviously Kyo. Then Mahiru, our main character, is Tohru... wants to help them all anyway way she can, and even though Mitsuru is super mean to her, she cares a lot about him (and therefore, I have no doubts, she'll end up with him in the end, meanwhile Nozomu will have developed feelings for her). And of courses she somehow has the ability to unlock their true forms by touching them (very similar to the "if you hug me, I will turn into an animal" piece of FB).

Despite the obvious and obnoxious similarities, I still don't mind reading the series. I don't think it's great, but I don't particularly dislike it. It's a short series so I'll see it through to the end (maybe... the library doesn't have the last volume. Not sure if I'll care enough to seek it out).

Let's see what happens next.

Mahiru has moved in with the people of the moon in hopes of learning more about herself, and to help them on their quest to recollect the precious Teardrops of the Moon. But when Mahiru's doubt causes hesitation it leads to the death of a comrade... will this tragic end for Mitsuru force Mahiru to open her eyes, or will she run and hide from her nightmares?

it's an interesting series to read. it combines a lot of things together: mystery, adventure and a little romance thrown in there. Marchiu is an interesting character and i will have to read on to see how she fares.

This highly enjoyable fantasy manga about the Lunar Race and their attempt to recover their stolen Teardrops of the Moon, continues in volume two. In this volume we join the team on two attempts to recover Teardrops. Having moved in with the Lunar Race folks, this is the first time that Mihiru Shiraishi gets to help by lending them her strength. One teardrop is at a museum, and another is at a World Performance Festival. Things don't always go as planned, and major surprises often occur. We also learn about another character who is out to stop the Lunar Race. Great Manga !!! Great Fantasy !!!
