Deceitfulness

So many secrets and so many lies taking place. No One is happy but no one wants to tell the truth. Don't they know the truth shall set them free.

Shanita Wade says

Very slow read!

This book was sloooow, you can tell the author tries to prolong the story to create the need for a sequel. The most interesting part of the book happened within the last 10 pages of the story.....too much character development and not enough story development.

Iesha Bree says

Wow!!

This book was so good! I'm too surprised by the way it ended makes me want to start on the second book already! But I loved it, it had so much action!!!! I just hope Ant pull through!

Dee Cherry says

Simone Kent says

Great start

This book really flowed well. I just have to shake my head at David and Brooke. Yes Erica started the whole thing but David always wanted Brooke and that just gave him a pass to continue his mess. But poor Ant he put here working hard and being there for his wife and she doing him so wrong. Love the way Neicy keeps it so real, everyone needs a friend like her. Hopefully Erica and Ant pull through the mess David and Brooke got them in!!!

RASHALON T SCOTT says

Good read

This book held my attention from start to finish. The way Brooke was described, you wouldn't think she was this trifling. David, yea. But her..nah. E needs to whoop her ass and go ahead and side with Meechi.

Sharon says

Great Read! Ant was such a great man and was the one person I truly liked in this book. Erica, Brooke and David have some skeletons in the closet that they need to sweep out. This book had me all in my emotions like I know these people

Carolyn J. says

Urban and Interesting

This story had some interesting antics going on with the characters. David, Ant, Brooke and Erica had ratchet written all over them. Then add in their side piece extras, and there you have it... A hot mess. Overall this story was an interesting read...

Lies Will Catch Up With You

This book was a very good read. My attention was held from the beginning till the end of the book, that left me with my mouth open from saying wow.

I felt the emotions of anger, sadness, hurt and the consequences of the lies and deceit some of the characters felt.

I want to read the next book so I can see who lives and or dies.
