Rad Families: A Celebration

Tomas Moniz (Editor) , Ariel Gore (Foreword)

Rad Families: A Celebration Tomas Moniz (Editor) , Ariel Gore (Foreword)

Rad Families: A Celebration honors the messy, the painful, the playful, the beautiful, the myriad ways we create families. This is not an anthology of experts, or how-to articles on perfect parenting; it often doesn't even try to provide answers. Instead, the writers strive to be honest and vulnerable in sharing their stories and experiences, their failures and their regrets. Gathering parents and writers from diverse communities, it explores the process of getting pregnant from trans birth to adoption, grapples with issues of racism and police brutality, probes raising feminists and feminist parenting. It plumbs the depths of empty nesting and letting go. Some contributors are recognizable authors and activists but most are everyday parents working and loving and trying to build a better world one diaper change at a time. It's a book that reminds us all that we are not alone, that community can help us get through the difficulties, can, in fact, make us better people.

Laura says

I loved the range of perspectives. I did wish that the essays went a bit deeper at times.

Artnoose McMoose says

Disclaimer: I'm in this book.

This is a selection of pieces that appeared in the zine Rad Dad over the years. Most of them are short, so it's great for parents who can only sneak away for a few minutes of reading at a time. It makes you feel like you're not alone in this.

Laura Peña says

a little disappointing :(it was really repetitive. the essays were super short, so they ended up kinda glossing over the same things again and again. I read a few essays a day for the last month and that still didn't break the repetitive feeling. There were so many straight white "radical" couples. not saying that white straight couples can't instill good politics in their children, i just didn't expect to see so many in an anthology about radical families.
