Introduce your brilliant baby to the ABCs with this illustrated primer about Halloween.

Greg Paprocki's popular retro-style series of sturdy board book alphabet primers expands to introduce brilliant babies and toddlers to one of the most popular holidays on the calendar: Halloween. Just as other books in this series make learning history fun and engaging for children, this volume will fuel the anticipation of your child's first halloween and help to expand their vocabulary in the process.

B Is for Boo: A Halloween Alphabet features a collection of twenty-six illustrations featuring Halloween-themed concepts, including imaginative costumes, oodles of treats, pumpkins galore, masks and monsters, and haunted houses.

Greg Paprocki works full-time as an illustrator and book designer. He has illustrated several Curious George books, as well as *The Big Book of Superheroes* for Gibbs Smith. He began his career as an advertising art director after studying fine art and graphic design at the University of Nebraska.

I have long loved the BabyLit series from afar, so I was excited to finally get one in my hands! This Halloween installment has lovely retro-styled illustrations that are the perfect balance of creepy and cutesy, and I was so excited that it was a legit board-book that would withstand tiny hands (should I ever actually let kids touch it, lol). Definitely going to continue looking for installments in this series, both as gifts for my new-parent friends and my own enjoyment!

I received a copy of this book through GoodReads First Reads giveaways.

BabyLit hits it out of the park again! The retro illustrations are so fun and reminiscent of a less scary holiday.

Love, love, love the vintage illustrations! Such detail in each of the pages. Reminds me of retro Little Golden Books. My little one loves anything Halloween so this was the perfect treat for her. She loves reading this over and over again.

I love the art on this one!! And the story is do much better than the other Halloween A-Z story in our toddler classroom!

Mischenko says

A great introduction to the alphabet for babies and toddlers. The illustrations are perfect and have a vintage children's book feel. There are twenty-six different illustrations throughout the book to teach all about Halloween to our little ones while they visualize the alphabet and learn the sounds as you read. A perfect addition to the Halloween shelf that I plan on keeping even when my little ones are grown!

Obsessed with these vintage-style Halloween illustrations. I want them blown up and wallpapered all over my apartment! Super cute alphabet book for Halloween lovers.

Halloween is never over when it comes to me and my house. It's that way year round.

This is a great book for kids to learn their letters and to see interesting sights to match. It's extremely eye appealing and grabbing.

And look at that cover!! Love it! It's quite spooktacular!!

My rating is mostly for the illustrious illustrations!!

Such a delightful little book! The illustrations were so adorable, the words picked were a lot of fun. Highly recommended. Ages 1 to 4, but really for anyone.

As if I did not already love BabyLit forever and ever, this book is now Lu's most prized possession. I adore the illustrations & being that we've done a solid job raising our daughter to be halloween enthused 365 days of the year, this is clearly the only ABC book we'll ever use again.

My girls are 2 and 6. The wonderful illustration of this book is captivating to the younger while some of the words representative of the alphabet were unfamiliar and challenging enough that the elder had to sound them out, which was great. They also turned this very short book into an incredibly long read, as I found myself having to correlate the story of the Headless Horseman with Ichabod Crane and explain how the Raven was related to our vacation in Charlottesville, Virginia.

I loved this book and have taken steps to procure others from the series for my magnificent little readers.

I really, really liked this one! I own two other books in the series, and this one is by far the most "logical" in it's choice of words for children. I felt like some in the other one's were a bit farfetched and not really on-theme, but the words in this one were really well thought out!

Though, to be honest, I buy these books mainly for the art that accompanies the books, as they are so beautiful! ;)

I would highly recommend this book for any autumn-child or anyone who loves all things Halloween. That would be me :) The alphabet is very well done and engaging for even the youngest readers and listeners-of-stories.

These sturdy board books are a great way to introduce a lot of Halloween vocabulary to a little alphabet lover. While a lot of the BabyLit books are pretty useless and appeal to adults more than children, the many holiday themed alphabet primers ('D is for Dreidel,' 'S is for Santa,' etc.) by the artist Greg Paprocki are truly fabulous.

Many autistic kids are obsessed with the alphabet as young children and alphabet books are a great way to encourage interest in books and to expand a child's vocabulary and introduce new concepts.

Visually hypersensitive kids (like my son Luke) will find these books way too busy, but for the right child (like my son Harry who stims off books like this) the beautiful illustrations are a feast for the eyes.

I review books from the perspective of a parent of two children with autism. This review is part of a list of Halloween theme books that can be found on my blog: <https://www.lineupthebooks.com/hallow...>

The baby who was given this book would definitely rate it five stars, so I am going with that. We're almost back to fall and she's stayed obsessed with it. Great illustrations and a fun way to learn the alphabet.

Unbiased rating based upon a copy won through the Goodreads First Reads program.

Fun (not scary) Halloween themed alphabet board book.
