Blue Eyed Daddy Angela Blake

21 year-old Anya was like most college students; intelligent, curious, achievement-based. Oh, and she secretly wanted her best friend's Dad.

Anya sighed as she gazed at the black dress Lisa had brought her just for the occasion. It was a birthday gift that Anya felt was completely unnecessary, but it fit her perfectly. There was only one person she wanted to notice. Someone she wasn't supposed to be thinking about; Lisa's Dad.

Russel was in his late thirties with jet black hair and piercing blue eyes. He was available, clever, gorgeous and of course completely off-bounds.

So much experience, so much knowledge. Tonight he made it clear that there was a lot he could teach her. A lot about the biochemistry of pleasure and pain receptors. And Anya was a very good student.

NOTE: A standalone featuring a HEA with No Cliffhanger!

Ehhhh

This is a very short book about a father and his daughters best friend. Check all the clichés regarding this situation. Nothing wrong with it, but the execution could have been better. Nothing outstanding in his story.

Lani says

This was so short, whyyy?

I really liked the characters and was very interested in reading their relationship development, but out of nowhere it ended at like 15%, the hell?

what there was of it was good but I really wish it hadn't ended so abruptly.

Cheryl Shearer says

I like these stories - love the HEA and who doesn't like an older man!

This is a fast read BDSM has always been a favorite sort of read for me but this book brings Daddy back into the picture with a friends dad learning could be so much fun when one is on the edge of danger don't you think?

Happy Sexy Reading

This rating is just for the story named in the title, not the bonus content

I decided to give this story a chance after reading the smut-tastic second book in the series, and liking it. Sadly, book one was a huge letdown, especially when compared to book two. It was too short, too vanilla, and just plain boring. I read the whole thing easily in under twenty minutes, and my blood didn't even start to heat a little - if ya know what I mean??

I give this one a big fat BOOOOOOOOOOO!
