Cuffed By A Kingpin 3 Heiress

The finale is finally here.

The tragedy that ended with multiple deaths, lies and deceit is still fresh to Cali and Compton. They both are facing so many challenges together and apart. There is love lost and love gained. There were lies told and truth revealed. To their surprise, nothing about their arrangement was as real as they thought.

After being kidnapped, Cali wakes up in a strange place. A place that belongs to the one person she has never questioned. Her mother. She seeks out answers on the why's of her disappearance. That is just one challenge added to her life. She is a new mother who is torn between her fake husband and her new boyfriend. When she finds out the truth about her life, will she choose to stay with Compton or spend forever with Tre'.

Compton's list of issues don't stop at Cali being kidnapped. Because of his past wrongs, he has lost the love of his life. Both of them. After having a near death experience, he knows that life is too short. He has a daughter that he needs to be better for. Will he do that? Will he fight for Cali or will he allow her to be happy even if it's not with him? Especially when an old face pops back up in the picture.

Amber Joy has faced so much hardship in her young life. From being abused to being taken advantage of. When the one thing she fears happens, will she self-destruct? Or will she use that tragedy and mold it into strength? When she too finds out the truth about her family and where she came from, will she finally get closure? Or will the truth only push her over the edge more?

All of these questions will be answered. Love is a crazy four letter word and will have someone do some crazy things. All the actions and decisions made from both Cali and Compton were out of love. The question is, will love conquer all?

Loved it

This was a really good series. I enjoyed the back and forth between Cali and Compton. I'm glad they finally got it together! I gave it 4stars bc I could have done without the "secrets". Amber's storyline was kinda predictable. Other than that, it was great. Now I'm going to read the rest of her catalog.

Sinfunni says

Nah

Love that Compton matured into a man and recognized that Caliana is the only woman for him. Love that Amber got a family. Another story should have been written. Tre' smho. Lee really?yeah right, Daddy who knew he was dying didn't right his will (side eye). Jamaica reaching. The cliffhanger set should have had a more believable play. Erica testing. Mama Banks said it best. This book read like going out for lobsters and being served a hamburger deluxe.

Love at it's best

First , I like to say this was one of the best series that I have ever read. From book 1 you could not help but fall in love with Cali and Compton. A blind man could see this was love at first site. The author kept us wanting more and wanting Cali and Compton to have that scene where they ride in to the sun set .And this story gave us just that, the highs, the lows, and even the in between that's the confusion of them not trusting their love but still acting on their lust for each other. The story flowed from start to finish and I did not want to put it down, had me all in my feelings, great job author, can't wait for your book

This was a great read!

I'm going to miss Compton! I love how he finally got his act together in this book. I'm still skeptic of Lee a little bit and the fact that we all know now she's still hiding something from both Cali and Amber. I'm glad that Tre is gone for good with his aggravated behind. I hope we get to see these characters again!

Perfect ending!!! ???

I loved the ending on this series!!! I just love Cali and Compton, they deserved and were made for each other. That Tre was off in the head, he was seriously intimidated by Compton. Poor Amber, but I'm glad Cali, Compton and their family got her. I love Compton and Lee, they are both crazy, lol. Great Ending!!!

Omg I'm going to miss Cali and Compton so much! Book 1-3 were all amazing. I knew Tre was too good to be true. Compton def matured a whole he** of a lot and did what he had to do to get his wife back. I just knew Cali and Amber was going to be related. I'm glad Cali got her mom back in her life even though it hurt to know her dad had being lying to her. Heiress you def killed this series and I'm ready for the next one!

I gave this book all stars because the drama unfolds perfectly and just when you think its a typical love story the forgiveness take a real turns even when forgiveness isn't needed hence Compton not cheating. ????? Amazing Read Love it ???

Campton is really a piece of work he had me entertain from the beginning of this series. I love the connection between him and Cali. Too bad too sad for Tre he should have listened to Campton. What a great way to end a series. Great job, can't wait to see the spin off for Amber lol maybe. Still have some unanswered questions!!!!??

Shawn Hawkins says

Great ending

I loved this ending. I'm so proud of Compton with the way he grew and realized how much he really loved Cali. I'm glad that she realized how much she really loved him as well. I knew that there was something about Tre. Also I kind of had an idea about Amber and I'm glad I was right. Great ending to a great series
