## From Reader Review Bunny Donuts and a Body for online ebook

### **Cinda Inman says**

This is Book 3 in the Donut Truck Cozy Mysteries. Brenda and Joyce have been notified that they have received a spot in the park for the annual Easter Egg hunt. They are both so excited as they move their truck to the park in preparation of the big day. Just as they park, they hear a woman scream and a body has been found in the park. They soon discover the body is Fred Williamson Jr., an employee of the sign company that is hanging signs for everyone at the hunt. Joyce discovers that Edwin Burrows has been taken from the park in handcuffs. When Joyce finds out that Edwin has no family or friends in town, she knows that she and Brenda must solve the murder and get the right person(s) arrested. The book has mystery, family and maybe romance in it.

Will Brenda and Joyce solve the crime without getting themselves into trouble with Detective Crackle? A must read for those who like cozy mysteries.

I received an advance copy to read in exchange for an honest review.

### **Brenda says**

Only days until the Easter egg hunt and Brenda and Joyce's van, Donuts on the Move obtained a last-minute place at the venue. They were excited as it was a reasonably new venture for them both, and they were determined to make a go of it. But the discovery of a dead body in the park immediately put a downer on everyone's plans – the murderer needed to be caught before anyone was comfortable going to the hunt.

Would Brenda and Joyce be able to discover who the culprit was? Or would it be something they wished they hadn't become involved with?

*Bunny Donuts and a Body* is the 3rd in the Donut Truck Cozy series by Cindy Bell, and while I haven't read any of the others, I had no trouble reading this as a standalone. A fun and entertaining cozy mystery which I have no hesitation in recommending.

#### **Be Believable-**

Cindy Bell- There NEVER HAS BEEN NOR WILL BE any FOOD truck w/an OFFICE AREA( small or otherwise)& closet area(to change in) where customers can't SEE YOU!This type of crap makes it hard to continue to read this book. (Not to mention the typos). Story's not bad but MUST be somewhat believable! This would be a great book for dumb people.
