Power Play Jayne Castle , Jayne Ann Krentz

Blackmail! Talia Haywood could hardly believe she was so desperate. But something about Kane Sebastian drove her to it: anything to get the information that only he could provide.

She thought she knew his type: an arrogant industrial tycoon, the kind of man who had ruined her career and reputation once before--and wouldn't get the better of her again! But she hadn't reckoned on Kane, who took the situation--and her--in hand, giving Talia a taste of real danger and raging desire. Suddenly she was vulnerable to a man she couldn't trust, a man who had driven her off the track into a trap of passion and revenge!

Just boring. And too fast - that's why I often prefer harlequins from Krentz to start sometime when she learns of his deceit or something like that, and then they are starting over - then the timeframe is just better justified.

I really couldn't buy the premises on which this book is based as far as the business world goes. What Talia went through is completely unrecognizable to me as were the business concepts that she taught, which weren't included in my MBA classes. Plus, searching for an old friend as a hobby just didn't strike me as worthy of a blackmail attempt, so I had issues all through the book. That having been said, I have read this book four times and, although I don't find the characters as appealing as others created by Ms. Krentz, it never occurs to me to stop reading before the end.

5++ stars ??

Went completely blind to this and I thoroughly enjoyed it. I loved each and every single page of this. The hero- heroine is totally lovable and made for each other. I dont want to give out any information that's why no detail review.

A very fun read !! **Talia and Kane were constantly trying to take a bite out of each other** .. Talia's blackmail attempt was kinda of funny and Kane eating expensive and throwing the bill at her was even funnier , I giggled a few times at how childish they both were .. I really enjoyed their relationship.
