The Secrets of the Starbucks Lovers (Taylor Swift: Girl Detective #1) Larissa Zageris , Kitty Curran (Illustrator)

The world's most popular pop star moonlights as a Girl Detective in THE SECRETS OF THE STARBUCKS LOVERS—a thrilling and illustrated tale that depicts the hilarious (and high fashion) hijinks that ensue when Taylor Swift: Girl Detective takes on the case of a struggling actress receiving threatening messages on her skinny mochas.

Set against the glamorous backdrop of New York City (and even Brooklyn) there is no shortage of intrigue, love interests, sisterhood, and Starbucks jokes in this captivating caper.

Cori says

What intrigued me: This was on the Local Artists shelf at Chicago Comics and I couldn't help myself.

What I liked: It was so very funny! I laughed out loud multiple times.

What I didn't like: N/A

Favorite quote: "Someone wants me off the case more than I never ever want to get back together," Taylor said."

Megan says

These ladies can do no wrong. This book was so funny! I wanted to read this because I enjoyed My Lady's Choosing so much, and it did not disappoint. I had several laugh out loud moments, and I couldn't believe I found myself wanting to listen to more Taylor Swift songs just so I could fully appreciate every little joke. I love Lorde and her rolling and unrolling eyes, Taylor's acrobatic eyebrows, and the Lumbarista. I felt like it showed a lot of love to Nancy Drew, Taylor Swift, Starbucks etc despite the hilarious mockery. Larissa's writing is so witty and funny, and Kitty's illustrations are both amazing and hilariously nailing the right moments.

Write more Taylor Swift mysteries, ladies! Or write more anything for me to read! ?

ETA: the crafting of the book itself is also well done, from the disclaimer at the front to the order form at the back ?

Brian says

Nice parody that captures the spirit of classic Nancy Drew books. Love the humor & illustrations!

Andrew Shaffer says

Oh. Em. Gee.

James says

Taylor Swift by way of Veronica Mars. A nice light read for fans!

Michelle says

Giggle inspiring, replete with puns and pop-culture references. I heartily recommend this dandelion romp.

Larissa says

Unbiased, glowing review!

Laura Bang says

A hilarious parody of Nancy Drew with lots of puns based on Swift's lyrics, but *also* feminist fun with Taylor and Lorde sleuthing their way across the Starbucks of New York. So delightful!

—
Taylor took a deep breath and collected herself. "Allen, you know I am an international music legend and style icon. What you may not know is that I am also a detective."

Allen Lagh-Jeaky's aristocratically blue eyes widened. "A Girl Detective?"

Taylor disguised a slightly disappointed sigh. "For lack of a catchier-yet-still-feminist term, yes...."

Sarah says

Perfect.

Molly says

This made me so incredibly happy. Great pictures, cheeky one-liners, and two of my favorite things combined, Taylor Swift and Nancy Drew mysteries!

Cassandra says

This was everything I needed it to be. Quirky and cheesy and Taylor Swift. The illustrations were amazing!

David Dinaburg says

That I know the title is an in-joke borne from oft-misheard "Blank Space" lyrics; that the cat—the first of many, many tiny SVU nods—is named Detective Olivia Benson; that Taylor Swift's rough-and-tumble partner is Lorde:

Lorde rolled her eyes, but unrolled them almost instantly at the sight of Taylor's expertly arched eyebrow.

That I laughed out loud at least eight times in seventy pages, particularly at the back-page order form for the forty nonexistent other books in the series. And the sister-series *Ed Sheeran Adventures*. And darker spin-off *Taylor Swift Case Files*.

These are just a few of the things that make the book a real treat. As the pair of pop icons flounce around specifically referenced NYC Starbucks locations, Taylor Swift: Girl Detective: The Secrets of the Starbucks Lovers thoroughly enjoys itself:

Allen Lagh-Jeaky's aristocratically blue eyes widened. "A Girl Detective?"

Taylor disguised a slightly disappointed sigh. "For lack of a catchier-yet-still-feminist term, yes. And you have met me in the middle of quite a mystery.

Really goofy fun. Did you spot the anagram in the disarmingly British man's name?:

Allen Lagh-Jeaky fluttered his eyelids in a way that called to mind peak-career Hugh Grant.

"I'm, er, eh, erm, I—" Allen stammered, Hugh Grantishly.

Hint: it isn't Hugh Grant, but if you liked *Mystery Show*, you should be able to guess it.

Look, if you've read this far into my review you may as well just read the book.

Meet me at the Astor Place Starbucks and I'll loan you my copy.

Kayla Madden says

Hilarious!! I loved the puns and sass and references. it was all too much and not enough and now I have to read all of them. Very amazing illustrations.

Jennifer says

I loved reading this novella as a fan of Nancy Drew and of Taylor Swift. It made me laugh several times. I especially loved the drawings. I hope the author and illustrator produce more books in this series.

(old.enough.for.fairytales) says

Okay this sounds absolutely hilarious.
