Gone Bad

J.B. Turner

Gone Bad J.B. Turner

This is an alternate cover edition for B016CDK39G

When a top militia leader escapes from a top security American jail, the FBI calls in ex-Delta operator Jon Reznick to help track him down. The escapee is none other than a psychopathic ex-Delta colleague of Reznick, Hunter Cain, who is now a feared militia leader. It isn't long before they believe that Cain is planning a terrorist spectacular. But the problem is they don't know what target he has in mind. As the clock ticks down, the team shows increasing strains as they struggle to find Cain, it becomes clear that the secret plot would threaten not only scores of American lives, but also a former US President.

Alan says

I admit that how much I pay for my entertainment influences how much I enjoy it. I apply this philosophy to movies (is it worth it to DVD, stream, or go all out and see it in IMAX?). If I pay \$20, I want \$20 worth of entertainment.

And, what I think of Gone Bad is reflected in the above. This short book was free on Google Play, and I got a reasonable amount of enjoyment compared to what I paid for it. For the amount of space given to this tale, I will give Turner credit for turning in some character development.

Jon Reznick is a former Delta Force soldier who is between jobs, when FBI Assistant Director Meyerstein pulls him back in. Another former Delta member has been sprung from a maximum security8 prison, and Meyerstein believes that Reznick is the man to track him down.

Reznick's politics are to the right of mine, but that is no surprise. The people I know who have served in Iraq tend to be, at the least, a little more conservative than I am. Reznick also believes the ends justify the means, and that puts Meyerstein in the position of having to defend her decision to bring him on as a consultant to her superiors when Reznick goes too far.

As to the villains? Right wing militia fanatics.

I would possibly check out more by Turner, but it is not in my immediate plans.

Sean Peters says

Again another new author for me. So started with a short read of 163 pages.

Loved the book, the writing style, the two great main characters. Another action hero to get my teeth into in Jon Reznick.

This is a fast and furious thriller and great for fans of Lee Child, Vince Flynn, David Baldacci, Tom Wood, Mark Dawson, Mark Greaney and Brad Thor.

When a top militia leader escapes from a top security American jail, the FBI calls in ex-Delta operator Jon Reznick to help track him down. The escapee is none other than a psychopathic ex-Delta colleague of Reznick, Hunter Cain, who is now a feared militia leader. It isn't long before they believe that Cain is planning a terrorist spectacular. But the problem is they don't know what target he has in mind. As the clock ticks down, the team shows increasing strains as they struggle to find Cain, it becomes clear that the secret plot would threaten not only scores of American lives, but also a former US President.

Action packed, fast paced, short novella read, but still finished quickly in two sittings, a great new character for me to enjoy, another great author, also another series to keep up with !

I liked the writing style, I liked the idea of ex-Delta members, one good and one bad...

I think the size of the book meant getting into the action nice and quickly, Deputy OF FBI also a great character, a tough cookie.

Recommended, four stars, have all three full length books of Jon Renznick to read.

Tracey Mcd says

I knew we were in trouble with the author referred to "Female Special Agent Gillian Miller..." Because the agent's gender is relevant? (Spoiler - it's not relevant)

Matthew Atkinson says

Not to bad....could of been better.

The story seemed to be a good plot, however the main protagonist was set up to be a very intelligent, dangerous, hard case member of some extremists group who had taken planning to the next level for months to fulfil a massive coup and reignite a second American revolution. But when the ending came, it was sort of an anti climax, in the form that he kidnapped an ex US president and to blow him up with himself on camera to the rest of the world! The ending was built up so much that you are expecting a massive thing but in the end is something small scale and a bit pathetic! I'm not saying that a kidnap of a U.S. official is pathetic at all and the murder of numerous US officials is pathetic either, I was just let down by a massive build up and then nothing. The FBI also just seem to stumble around the place arguing with each other, were in other stories they are organised and seem only half a step behind the operation instead of a whole week like in this story. The conversations also get a little tedious, he said, She said, he then said, She then replied, and so on. That gets annoying. To much swearing also, fuckers, mothfuckers and repeated every other page. The protagonist also call each other bro, man, I love you man every page which makes them sound like a pathetic, bunch of jobless scallys to thick to past kindergarten! Not some ex military SAS/SEAL hard cases! I don't like giving low star ratings because someone else might really like it and I might put them off reading it. So read it and find out but not the best, the Chris Simms books are better for a similar arthur.

John says

This was more of a novella being less than 200 pages. It was good, but not great. Not quite up to Child or Baldacci. I think the problem was there was too much telling and not enough showing. We are told over and over how great Jon Reznick is, but rarely shown what he can do. Too much time is spent with him in a car with the FBI moving from point A to point B to point C. But that is not to say that this is a bad book, because it isn't. The bad guy is really bad. Someone that you can really hate and long to see him get what is coming to him. There is also a lot of suspense. The plot is that former Delta Force soldier and militia leader Hunter Cain escapes Ft. Leavenworth with the help from the Arian Brotherhood. It is feared that they are planning a Timothy McVeigh type attack in the U.S. Jon Reznick, another former Delta Force member who served with Cain is called in by an FBI assistant director to assist in the manhunt. Reznicks methods do not sit well with the FBI hierarchy as we are repeatedly told. As they travel toward their destination we really see more of Cain's actions that we do Reznick's and it is quite obvious that Cain is a very dangerous and committed criminal. I just wish that we could have seen more of Reznick. This is a suspenseful action thriller and worth reading, I just wasn't blown away by it.

David Highton says

Jon Reznick is brought in by the FBI to assist with finding an ex-Delta colleague who has escaped from prison - a far-right anti-government terrorist. Fast-paced, very violent and a very quick read - only 160 pages or so

Mary Ann says

Didn't know if I would like this book but it is a page turner. I told my son he needed to read. If you were in the military you will like this series. Jon Reznicks stories a special forces (Delta operator). This story was a good thriller/mystery.

T. Carmen Garieri says

Another quick-moving pursuit

Love this book. It's quick-moving and engaging. Suspenseful and suspenseful, this page turner is fun to read. A quick and fun escape from the daily routine!!

bill robinson says

Equal to all the great story tellers

Fast moving with great story. J B Turner knows how to keep you on the edge of your chair. Not my first of his stories and look forward to his next book.

Martin Pingree says

Wow ! Another Jon Reznick kicks ass book ! If you're an action junkie with a passion for get the job done no matter what you should be reading this series of books from J. B. Turner. These are always page turners that you can't put down and leave you exhausted by the end !

Terri Lynn says

I love these books while hating the arrogant lead character, former Delta operative Jon Reznick. I hated him even more here He is full of himself and in this book was shooting people just because he felt like it. What is really unrealistic is that FBI assistant director Martha who returns in this book verbally attacks anyone who criticizes Reznick even though she acknowledges that what he has done is wrong, illegal and immoral and

refuses even her boss' demand to get him off the case with a big mouth remark that he will have to fire her first. In real life, she'd be taken off the case or fired.

Reznick had been a Delta operative along with Herman Cain who has broken out of Leavenworth with both inside and outside help. The FBI and Department of Homeland Security have chatter that he is part of a domestic terrorist group with big plans in Miami.

The book is a true thriller and full of fast paced action. If only Reznick was remotely likeable.

Brandon Byler says

Good storyline

The book was good, but I struggled with the profanity. I'm sure that's how our military talks, but I didn't see it as necessary. The storyline would not have been made worse without the language. That being said, I enjoyed the book overall. You follow the FBI and their hunt of a driven ex-Delta fighter who has plans for a terrorist plot. They recruit a former soldier who served alongside of this man to bring him in. It's a fast paced book and a wild ending.

Mahoghani 23 says

Now this book kept me turning pages. The chapters were short but full of energy. The characters were not your usual bunch of get-along-guys. The plot dealt with militia members and how far they are willing to go to get their point across. Jon Reznick, former Delta, has been recruited by the assistant director of the FBI. However, Jon doesn't play by the same rules as they go. Already on the job and he's put two men in the hospital. In some scenes the FBI appears incompetent in doing their job and then all the alphabet organizations are involved and never like to share information. This time the sharing may get many people killed. I enjoyed reading this story.

Shameka says

This was an okay book...

Gone bad did not have me "on edge" . It was good, I feel like the author wanted to be more like James Patterson. J. B Turner's other books such as: Dark Waters is a lot better than this one

Darlene says

Short and Sweet

A short manhunt. The FBI using a man that the higher ups think is crazy. Well I would have like to.have seen more of his crazy. Maybe a little more action. Maybe a little more character development. But the book wasn't all bad. It was quick, interesting, and had a few surprises.
