Ghostly Distress Lily Harper Hart

Halloween is right around the corner and Harper Harlow should be at her happiest. She's officially moving in with her boyfriend Jared Monroe, after all, and into a house that's right across the street so she won't be separated from her best friend.

All should be well - and it is - until one of Harper's customers stumbles across a dead body in the cemetery during a tour one night.

The woman, a local who worked at the bank, was last seen at a rather infamous party and her movements before and after that are murky. She has ties to a lot of people, and not all of them are upstanding citizens. Even though she's tired due to the busy season, Harper is determined to get answers. Jared would prefer her taking a break from her investigative activities but turning her back on a soul in need isn't in Harper's nature. She's determined to find the truth and Jared promises to keep her safe while she does it.

Whisper Cove is hopping place right now and suspects are around every corner. Harper will have to dig deep if she wants answers ... and constantly look over her shoulder to make sure death hasn't picked out another customer.

When the truth comes out, Harper will learn a hard lesson about life and death. Not everything is as it appears, you see, and sometimes a sad truth is worse than a convenient lie.

Another Great Story

I love following Harper and Zander. They are fun and funny. Now that they each have a boyfriend, it is a pleasure to see how they all interact. Shawn is the quiet one though. I am guessing he has hidden depths. And of-course the storyline had another good mystery. This was an enjoyable read.

Elisa Hordon says

A Halloween Spectacular starring Zander and the mystery of the pink kitchen!!!! will he or won't he get his way? lol yes you guessed it Zander is at his very best terrorising, well everyone really but mostly Jarred and Harper which is basically normal but he seems to be stepping it up a notch the closer it get's to moving day, yes the dreaded day of permanent change Zander is so totally ok with.

Besides Zander's antics and Halloween being right around the corner work is busy as usual this time of year for Harper and Zander and is about to get busier when they discover a dead body in a cemetery and I know that's were dead bodies should be but this one wasn't buried so you know it was a bit unusual and then there was the story uncovered regarding the body it was confusing, baffling and a bit strange but all came together in the end.

I love Harper, Jared, Zander and Shawn a lot I was surprised there was not a single reference to their group trip recently where they met Ivy and Jack but apart from that it was awesome.

Kelly Young says

Another enjoyable book in the series. I gave 4 instead of 5 stars because there was less of a plot and more of just excessive drama between the characters. Zander, I find, is starting to get repetitive and irritating. It's time for him to start maturing into an adult, instead of a one dimensional character.

Melissa says

The ninth book of the series was much better than the last. The only reason I had to give it a 3* instead of 4* is because the backstory of the murder victim was already used. A young girl who is materialistic and searching for a rich man- doesn't care about age, marital status, or looks.

You used this already... why did you do it again? The only difference is that the killer wasn't a former lover or jealous frenemy.

I did appreciate how the author tried to divert attention to make the culprit more of a mystery. It was a good try, but it was still fairly obvious. HOWEVER, the twist about the murderer was great. Kudos on that. I hope

we hear more on this in the next book.

Kerry says

Enjoyable as always! The mystery was intriguing and I liked the little twist at the end. I always like Harper and Jared and look forward to seeing how things go when they move in together. I also liked that we saw a bit of Molly and Eric in this one. I enjoy Shawn and Zander, but Zander did annoy me at times in this one. Looking forward to book 10!

Kassy Robinson says

As usual, funny, romantic and mystery all rolled into awesome!

Lily does it again! She has such real characters and sets that there's no doubt they exist!!! So much fun to read!!

Ghostly Distress

Really enjoyed this book. The characters continue to grow and Jared proves time and again why he's the perfect book boyfriend. In this latest installment, Harper and Zander stumble across a dead body during one of their ghost tours. There are plenty type of ghosts in this book, crazy get rich quick plans and too many leads to follow. As per usual, the ghost remembers to late to actually help the police or Harper. Harper and Jared are making plans to get moved into their new house as well. I definitely recommend this zany adventure.

One of my favorites!

I always love the books in this series and it's one of my favorites. Harper and Jared are moving right along in the relationship and Zander is as funny and annoying as ever. The murder mystery was good and completely unpredictable.

Sherry says

Wickedly Entertaining!

This was quite chilling, yet there was plenty of laughter & sweetness! I love the snappy dialogue & paranormal twist. Harper is such a caring character. She has a great support system with BFF Zander & his

boyfriend Shawn, & of course with soon to be live-in love Jared. I could not put this book down & never figured out the killer until he was unmasked. Can't wait to see what Harper & Company get into next.

Cheri Schaefer says

This ghostly series keeps getting better and better!

I would gladly give this addition to the series a 10 star rating if I could. There is so much to love about this series --- the characters, the ghosts, the story line. Once I start getting into the book I pretty much don't put it down until I'm done. Zander is my favorite character because he's such a diva. The only thing I would like to see more of is ghosts. Just not enough of the ghosts and Harper helping and dealing with them. Otherwise I absolutely love this series.

Kim Hennis Flynn says

Another great story!

I love this series! The characters remain consistently true to their quirky personalities and every book moves forward realistically and in a timely manner. It's a series that makes the characters so fun that you want to be a part of their group. Plus, you don't have to wait forever for the next book in the series to be published. How can you not love that?

AVBooklovers says

Thrilling and Funny!

I did not see that ending coming. I really enjoyed the story and how things turned out. And surprisingly, I want to smack Zander hard upside his head. Lol. Ok, on to book 10.

Melissa Walker says

Murder at a cemetery and plans for their new house

A dead body is discovered near the end of one of their haunted cemetery tours. Meanwhile, plans continue for Harper and Jared's new house, and whether the kitchen should be pink (Zander's idea).
LOL moments.

Nikk the Sapphired Book Dragon says

Lily Harper hart undoubtedly knows how to write the world's most annoying characters. I think the exchanges between these characters are supposed to be banter but when they literally have the same exchange with just a few changed up words for the 10th time then it just becomes irritating. Annoying characters aside, I mostly enjoyed this read. The mystery mostly made sense...I think, and it was a still a fun quick read. This book is probably not my favourite instalment but I am enjoying this series more that the author's other ones.

Siobhan Henn says

Zander was a bit too much for me in this one. I've really enjoyed all the others up until the point, but I struggled with this book. Zander got on my nerves, very early on I'd guessed the murderer, and I wasn't really sure about the side stories. I like it when Jason appears, as well as whenever Mel is involed, but the slightly focus on Mollly and Eric didn't please me as much as normal. Overallly, not my favourite but I'll still read the next one.
