Hannah says

Series Review: Happy Cafe is a sweet and funny manga that is a great light read. The characters are hilarious (often times even the bad guys) and the plot is never boring despite its slower pace. The romance is a slowly developing relationship that is refreshing in a overfilled market of instalove trends. The ending was kinda rushed but cute in its own way. I recommend this manga to those who are looking for a light read.

Sarah ~Sehrenity~ says

I still really like this series, but the middle of this volume went a bit astray. The beginning was strong --super kawaii-- with the tiny tots becoming friends, right up to the surprise party for Cafe staff.

Things go downhill with the school festival story. Things go a bit "keystone cops" with characters running around without purpose. Strange.
