Far out, that has a lot of hot as hell D/s sex in it. And the endless mindblowing orgasms are the *most* believable part of the story: I'm pretty sure if a student stays behind with the teacher in a locked classroom after school every single day someone notices. And I have ideological issues with RPS. But still, phew.

4.5

I keep going back and forth between 4 and 5 stars on this. I actually woke up this morning thinking, maybe I should have given it 5 lol.

In a nutshell, Jared Padalecki is a spoiled rich kid whose teachers have always looked the other way regarding his grades due to his parents sizable donations to the school. His gravy train comes to a screeching halt when he gets a substitute Physics teacher mid-term. Far from being the nerd that Jared envisioned when he first heard about this replacement, Jensen Ackles is like a blond God - strong jaw, muscled, glasses and very stoic. He is totally unimpressed with Jared's attempts to get his attention and barely acknowledges him in class unless it's to ask a question. That is, until Jared's called on to answer a question, has no clue what they've been discussing and is called up to the board to construct a formula...with Jensen guiding his chalk hand the entire time. Combustion! He wants more and getting into Jensen's pants is now his sole mission in life.

This is a very well written story. Pacing is good. The characters are fully developed and I LOVED Jared's best friend, Chad. He interjects some humor into the situation and this balances things a bit because you'll need to laugh once in a while so your face doesn't melt off from the heat. Yes, folks, this book is HAWT!!! Students getting stripped down and slammed against chalk boards or told to lay across the desk. Dios Mio! Is nothing sacred in institutions of education anymore? Apparently not and long may that continue (in fiction, of course). Anyway, no one ever looks into this classroom, no other student ever walks in accidentally, no maintenance people have to change a lightbulb..it's just pure, uninterrupted sexy time.

I did have a few issues. This is basically a D/s story, but at times I couldn't figure out where the true discipline was heading. It just seemed a bit superfluous at times. I like my Doms to be alphas and Jensen isn't really that. It's more of a control thing for him. I didn't quite get the 'life lessons' at times. Trying to follow

was making me a bit cross-eyed and I just had to say, 'Ok, if you say so' and keep it moving. There is a bit too much detail in some of the sex scenes (or maybe I was tired/lazy) because sometimes I didn't know whose body parts were where. Had he actually penetrated him or was he still using his fingers? Or oh, this is the first time they've actually had sex? I thought they did that the last time. It was a bit too much to follow at times and the dialogue got a bit repetitive. It also bothered me how unaffected Jensen seemed at first. I like to be able to see a bit of weakness/loss of control in my Doms and I wasn't getting it from him...but we do get it eventually and boy, is it good!

Outside of those few issues, the book really is very good. Towards Chapter 5, everything I could possibly want falls into place. Thank you author for not doing some hokey, corny, outing scene. I was totally panicking during the entire Prom scene, but man, it was PERFECT and so was the ending.

Yeah, I think I'm going to go with a 4.75 on this one, so that's closer to 5.

*3,5-4 stars*

Typical online-smex-fiction....sex in every chapter.

Average teacher/student love story with - admittedly - good character development.

80% of this story were sheet acrobatics - seriously hot - D/s but nothing hardcore - very graphic and detailed, with impressive stamina from both MC`s and the meanest orgasm delay I've ever read.

That got to the point (somewhere in the middle) where I thought `don't you have anything better to do, guys?` - and the dirty talk " Oh-my-God-Jesus-fucking-Christ" got a bit aggravating but all in all this was a hot piece of erotica that was a touch too long. It took stamina to read it through...

**~☆~Doxni(ela) ♥ ?? love & semi-colons~☆~ says**

**This is 90 percent sex, and 10 percent ... something else.**

NOT plot exactly, because nothing happens except Jared and Jensen sucking and licking and fucking over and over again.

NOT character development, because the story is told from Jared's third-person, present-tense POV, and we get NOTHING.

**It's all frantic narration: manic & unfocused.**

The entire story is set in a vacuum. There's one vaguely developed secondary character (Chad), and the rest is a black hole (no real sense of people, places, or time, except for a vague feeling of early 21st century).

Every chapter is the same: Jared obsesses over Jensen; sees Jensen in his classroom after school (where the fuck is the principal? other teachers? other STUDENTS?); and allows Jensen to have his way with him.

The D/s theme is quite mild. Jensen is "tutoring" Jared. There's a bit of spanking and Jared calling Jensen "sir," but **this is not BDSM**.

It's kind of like Cool Whip pretending to be more.

Jared has no parents. We know they're rich, and they must live at home, but they're never around and never mentioned.

And Jensen seems to have no friends or family. Jensen's reasons for being a bitch are ... well, ridiculous really. I seriously giggled, because, COME ON, can you get more cliché than (view spoiler)?

**I just don't think fanfic is for me. This is RPF, I guess, but ... well.**

**ETHICS.**

Jared is Jensen's HIGH SCHOOL student when they start fucking. Jared is technically legal at 18, and, yes, he wants and teases Jensen. Even so, Jensen is Jared's TEACHER.

I know it's part of the naughtiness, but I taught high school seniors when I was 24, and they were CHILDREN to me. There was nothing hot or naughty about them. Just sayin'.

The ending is a HEA, I think. At least it's a HEA in this world where there is no past and no future, just endless hours spent rimming and caressing, which ... sounds, um, nice, but perhaps unrealistic?

**SPICY (exploration, dirty talk, endless passion, raw & hard & needy), but no depth.**

I'm probably breaking a fanfic rule by reviewing this. Sorry?

## Dani Alexander says

One of my favorite online reading smexy stories. It's a RPF of Jared Padalecki and Jensen Ackles from Supernatural fame. I have never watched the show, so that's probably why it's easily enjoyed (I don't picture the stars as the people in the story). It takes place in a definite AU where Jared is 18 and Jensen is older (his teacher) at an all boys school.

The d/s portion of it is well done in my opinion and there's a bunch of after stories. The sex is pretty scorching. I'd take off one star because it lags a little in the forth part, but then it picks up again and seems to dust itself off and zoom into the end with a wonderful flourish.

There are some minor short stories that follow the story after it. I highly recommend them all.

Definite PWP!

PWP written in exclamatory, superlative language: hyped!

Nearly every orgasm induces a supernova, so be prepared. Plan also on a loooooooot of sex, some good, some great, most redundant and on okayish dirty talk. "You're so fucking hot" could have been retired about a third through.

What sliver there is of a plot is interesting enough, though the FSoG Mrs. Jones bit was generic and a little off-putting. Besides such, other elements in the storyline require a large measure of suspended disbelief. For example, believing that classrooms have no windows and that a student staying behind every day after class could go unnoticed etc.

All the yaaays and nays of Jared and Jensen aside, the character that really makes this book is Chad! Fantastic :-) Will Grayson, Will Grayson belongs to Tiny, and this book belongs to Chad.

There were niggles... but who the hell cares?! These guys...have mercy, they were super intense and **HOT!** Didn't really see it as fanfic or whatever. Now, I will admit I spread it out over a few days or else the obscene amount of sizzling sex would've been overwhelming, but beyond all the smut (did I mention it was hot?), there was some real show of emotions and growth by both characters and the discovery of what the word "control" means for them.

An extremely erotic well-written J2 fanfic. Jared is approaching graduation from high school. He meets with new physics teacher Jensen for lessons in 'control' after class.

"I said I still want this."

Jensen looks at him then. "Why?" he asks, like he can't possibly imagine.

*Because I want you, you stupid motherfucker, he thinks. Is there any possible way Jensen still couldn't know that.*

"Because I want you."

I think I need a cigarette and a shower. Wow! This fic was like one big multiple orgasm. And I loved it!

I don't normally rate fics, but I'm going to give this one 4.5 stars for all the intense, passionate, dirty sex. And really, there's not much else to this story.

Knowing that it was PWP before going in (from Dani's review), I didn't take issue with the one dimensional story. In fact, that's what I appreciate about PWP: Bam! There's the sex...page after page after page. Followed by a happy ending. What more do you need from a one-handed read?

I will say that I did struggle with the relationship being set between teacher and student in high school and I had to try to put that out of my mind. But I can understand that maybe this was a deliberate choice to thrill some with the taboo of it all.

Smut filled teacher/student story with some SIZZLING hot D/s with a very earthy carnality.
