Taboo Elizabeth Gage

The hot new novel from the author of *The Master Stroke*, *Pandora's Box*, and *A Glimpse of Stocking*. Set in Hollywood in the 1930s and 1940s, this spellbinding story tells about a time when stars were bigger than life and scandals were too sinister to see the light of day. Gage proves herself a shrewd chronicler of the rich and rotten.--New York Daily News.

This is a "set in hollywood" book set in the 30's thru 50's. It never really seemed to have primary crescendo to the story line. There were also too many MAIN characters to do any of them justice. Lots of jumping back and forth between backgrounds of characters.

This was my favorite book in middle/high school. I used to go to the library and choose books without looking at them. This was one of them.

Wow...! This book has enough sizzling sex scenes that would stimulate your mind! Erotic!

Megan Lea says

I love Elizabeth Gage, her stories and strong female leads usually stay with me long after I've left the story. Unfortunately, I hated Taboo. Weak and predictable. I did listen to the audiobook version so maybe that's why I couldn't connect to the story as much as her others. My first ever 1* rating.

If you like the mystery and glamor of old Hollywood, this is the book to read. You wonder if, how much of this stuff happened in real life? Good book...

Mel says

3.5

It is a page turner until 3/4, ending is a let-down cliché. Not really a romance, more about people in Hollywood. Author is a good writer.
