Good story, frustrating characters. Lots of great writing here.

I really enjoyed this book. It was a good reminder of how women can allow men to take their independence and self-confidence away by bowing to their demands in the name of 'building a happy home' where really they are not happy at all.

One of my all time favorite books. I loved the way the story developed and the characters were well developed. A great read! The book was so great my two college roommate all brought a copy and we discussed that book frequently. Hi Minerva and Steph.
